Loss of Weight and Vigor

Far-reaching Effects of Kidney Disease

TF you are losing strength, weight and vigor, it is highly probable that your kidneys are not performing their natural functions in a proper manner. In many cases, people have allowed themselves to be sapped of their vitality before realizing the true cause. A backache, constant headaches, painful urination, and other similar pains are frequently signs of kidney derangement. Indifference, or delayed treatment, will surely result in loss of weight and vigor, and in the development of more serious ailments, such as rheumatism or sciatica, lumbago, swollen joints or stone in the bladder.

Gin has always been recognized as a remedy for kidney and blad-der troubles. Gin Pills, however, contain none of the harmful alcohol, but all the healing qualities of the Juniper Berry. These properties are compounded with seven other diuretics and antiseptics, and the result is a pill which stands out as the finest

restorative and corrective for deranged kidneys. If you have any of the dreaded symptoms, get a box at once from your druggist or dealer—50c. If you obtain no relief, we will refund your money. Or, write to us for a free sample, sufficient to convince you of their value. Act without

In each case it was a relly of the church Referring to the work of the Manitoba Council of Industry, Dr. Gordon pointed schools contributed a large portion of logical statements in writing. This cleared the air, cooked heated passions, and enabled former irreconcilables to find a basis of understanding. Anger, suspicion and sometimes even hatred were removed, and then came good-will

and mutual settlement of difficulties. "Get the hate and suspicion out of the world's heart," the speaker stated, Scoffin, Velma Brereton. "let us live together as one family, and we will not be long in settling our industrial problems. Religion takes the Emma Trotter, Marguerite Brereton.

evil out of men's hearts." Then followed a typical "Sky Pilot" touch. Dr. Gordon referred to a recent world conference of Presbyterians in Pittsburg, Pa. With superb preparation for his coming point, he asserted that everyone knew that where world Presbyterians gathered, there would be the best brains of the world. Someone cried: "Hear, hear!" This reminded the doctor of a story of the war, where a Highlander lay seriously ward. a Highlander lay seriously wounded and another "Jock" volunteered to go for a minister. "Mind, ye," said the Caledonian, "that ye get a real meenester, none o' these Episcopalian bodies."
But the comrade returned with the sad news that no real dominie was available and that an Anglican padre would able and that an Anglican padre would have to serve. To this the wounded Scot replied, "Weel, that's very bad, but I hae to confess that while I was horn. Prechamber of Prechamber of the serve of the born a Presbyterian, I hae lived more like an Anglican!" There was laughter, and then Dr. Gordon drove home his

"Churches, as bodies, share in the temptations of humanity, they have divergent points of view, and I defy the sincerest churchman to keep evil out of his heart in the heat of argument. ment. Some of the fiercest wars in history were fought over religious questions. But when churches carry out their proper religious functions, such things are kept out. These things which cloud our vision of the true way."

VALUE FOR VALUE The speaker then dealt with the great principles of the business of living according to true religion. "Value for value," he asserted, "was the rule. Employers demand more production and say they do not mind the cost of wages if they can get production. But the pay envelope is not the way. Experience shows that the larger the pay envelope the less the production. We will not go into the subject of fair wages; we are all striving for a solution. But the real solution is to get men everywhere to take pride in their work.

"As a schoolboy in Glengarry I used to ride to school on timber sticks made from our heaven-soaring Glengarry pines. John McCrae, a mighty man with the axe, hewed them out with his axe. The timbers so hewed were almost without axe marks. John McCrae took pride in his work. Offer him larger pay for doing his work better than other men? The man would have been insulted.

sulted.

"Our industrial problem is not one of status. I do not believe that any employer wants to keep any man in a certain class. That belongs to the bad, bad past. It is our Canadian pride that any man may fight his way to the top. We don't want, we won't have, classes. Canada simply doesn't want that sort of thing. Not a great leader of industry in this Dominion but broke through, put himself at the top by his own efforts.
