

Some History about Typewriters

Modern and Ancient

CHAPTER 9

A FEW years ago typewriters were used almost entirely for letter writing. It is different to-day. Their field of usefulness has increased many fold.

THE Underwood introduced typewriter book-keeping, and the application of the typewriter to many special recording purposes.

THERE are over a score of special models of the Underwood for special uses.

MANY firms use four times as many Underwoods for accounting work as they use for correspondence.

THE modern office uses Underwood systems—billing systems, order systems, bill and charge systems, etc., planned for their particular needs.

THE Underwood Condensed Biller will reduce your billing costs 50 per cent.

This Model C. Spramotor was awarded four Gold Medals, two at National Horticultural Congress, one at Dominion Exhibition, St. John, and one at Provincial Exhibition, Halifax, N. S., 1909-1910. "There are reasons."

Geo. E. Fisher, of Burlington, who is using a power Spramotor, writes about the latest Model C:

"Replying to your favor re the behavior of the Gasoline Power Spramotor: This season I may say the machine has worked well all the way through. It has made a record for the Spramotor Co. We have a big lot of trees and these were all sprayed from one side before the buds opened. We found that we can spray about 1,000 bearing apple or 4,000 bearing pears on one side per day in good weather. There has been no delay."

We have been manufacturing Spramotors for 15 years for spraying purposes only. "That is the reason." Particulars free.

HEARD SPRAMOTOR CO. - 1390 King Street, LONDON, ONT.

If it is not an Eastman, it is not a Kodak.

The convenience and simplicity of the

KODAK

as compared with a plate camera would make it worth while even if the pictures were no better—but they are.

Kodaks load and unload in daylight with film cartridges that weigh ounces where glass plates weigh pounds.

Kodak Films are superior to plates for hand camera work, not merely because they are light and non-breakable, but also because, chemically they are made to exactly meet the harsh lighting conditions which the amateur encounters.

By the Kodak system no darkroom is required for any part of the work, not even for developing as anybody can, without previous experience, develop films perfectly with a Kodak Film Tank, and get better negatives than are possible by the old dark-room method.

The Kodak system gives the amateur the widest possible latitude in the finishing of his pictures: He may use the daylight tank system, the dark room method or mail his films to some professional finisher. It's just as he chooses.

Kodaks \$5.00 and up. Catalogue free at the dealers or by mail.
