due to dry weather. Tobacco extract to be used for these in the early spraying which was ordered from Kentucky, reached us too late on account of the flood there.

See This Exhibit

One of the most interesting exhibits of nursery stock at the Toronto Exhibition is that of the Auburn nurseries, situated just west of the old Machinery Hall, to the left of the main entrance to the grounds. The exhibit consists of an extensive and magnificent collection of evergreens, fruit shade trees, embracing every variety suitable for the Ontario climate.

The exhibit of evergreens is particularly worthy of special attention. This company is making a specialty of evergreens. Mr. Roderick Cameron, their landscape expert, spent the past winter in Europe, gathering together the collection. Each specimen is carefully transplanted and the company prides itself on the fact that their evergreens can be moved any month of the year without setback. Their specimens, *Picea Grandis*, *Picea Pyramidalis*, *Picea pungens*, *Glaucis*, are exceptionally fine.

The display of shade trees consists of rooted specimens, showing the results of repeated transplanting.

The exhibit also includes a very fine collection of fruit trees and splendid specimens in glass, grown from their selected strains. The cut flower section of the exhibit is magnificent, and is also grown from their own stock. The whole display is an example of great care in the selection of stock, and a careful inspection will repay those interested.

The company has a capable staff of salesmen. Mr. Roderick Cameron, the landscape expert, is in attendance. Visitors are cordially welcomed.

WHITE DUPLEX FRUIT WRAPPER

This wrapper is a product of many years of experimenting by the larger fruit packers. It protects, as no other wrapper can, the individual fruit from spread of any decay which may accidentally get into the box. The thinner tissue wrappers cannot give the protection from bruising, given by the thicker substance of our Duplex.

9 x 9 10 x 10 12 x 12
Corrugated, Pulp and Lace Barrel Heads. Corrugated, Lace and Wax Papers for Boxes. Tissue Fruit Wraps.

Samples and prices upon request
