

1872 PROSPECTUS 1872

OF

THE CANADA FARMER,

A MONTHLY JOURNAL OF

Agriculture, Horticulture and Rural Affairs.

THE BEST AND CHEAPEST PAPER FOR THE CANADIAN FARMER.

The CANADA FARMER has now been established for eight years, and has enjoyed during that period wide popularity. The success which it has met with is undoubtedly owing to the fact, that it has supplied an urgent necessity long felt by Canadian Agriculturists. They needed a journal specially devoted to the elucidation of questions in which they are specially interested as farmers and horticulturists, and they have found in THE CANADA FARMER what they required. THE FARMER has received the most flattering commendations from the chief farmers of the

Province, from the press of Canada, and also from the agricultural journals of the United States. The publishers claim that THE CANADA FARMER furnishes more reading matter than any other agricultural journal having the same subscription price. Not only is it cheaper than any other agricultural journal, English or American—every sentence which it contains is specially devoted to subjects directly interesting to the farmers of the Province, and it is therefore by far the best bargain within reach of Canadians.

In the coming year the Editorial Staff of THE FARMER will be composed of the following Gentlemen:

OFFICE EDITOR—J. E. ELLIS, Esq., M. R. C. S., England.
HORTICULTURAL EDITOR—D.W. BEADLE, Esq., St. Catharines.
