Wookly Review of Montreal Markets.

A fair distribution of merchandise is taking A fair distribution of merchandise is taking place, but trade is by no means active, neither does any great improvement seem to be expected. But at the same time the outlook is not viewed with alarm. The markets generally present few changes. There has been the provention of the pr a better demand for pig iron, and the prospeots have perceptibly improved. The past week has not witnessed any great changes in the dry goods market. The distribution of goods adapted to the coming season has been moderate, there being no disposition on the part of country buyers to stock up. The cotton question is still in abeyance and the wholesale trade have received no intimation of any settlement, but it is generally conceded that some sort of a combination will be formed. There is no business doing in greys, as the mills will not quote for such goods, but there has been a fair demand for fancy checks and shirtings. Tweeds have a slow sale. The failure of A. B. Flint, of Toronto, is announced, with liabilities of about \$20,000, mostly held here. Several small railures are reported from Ouebee. tailures are reported from Quebec.

IRON AND HARDWARE.—The more healthy

condition of the iron trade, which has been noted since the beginning of the year, has given additional signs of development into substantial results, as much in the way of a cheerful feeling as in actual business. The liquidation in values which has been going on for two years seems to have ceased, and the hope that bottom has been touched is freely expressed. The surroundings of the situation have a healthy look and the prospects are visibly growing brighter; in fact the outlook so far as can be judged at present is more satisfactory than for the past eighteen months, and, provided no untoward circumstances be developed, a good healthy business may be confidently expected. There has been a more active demand for pig iron on western account for both immediate and future delivery, which has resulted in a fair volume of business at steady prices. A round lot of Gartsherrie sold at \$20 delivered west, and several lots of other brands have changed hands on like conditions. Quite a number of car lots have sold ex store at steady prices. Warrants are cabled 6d lower than a week ago at 41s 7d. GROCERIES.—General groceries have been fairly active, the jobbing distribution of most kinds of stock being well sustained. There have been no disturbing features, and the tone of the trade is healthy. Tea continues to manifest a strong tone, ers ask \$16.25. Western pork is higher with while sugar has reacted after the advance. Sugar, Syrur and Molasses.

The market for sugar, after having additional market for sugar for vanced steadily to to ic from the lowest, has weakened to. Syrup is quiet and unchanged at 25c to 50c per gallon as to quality, with some sales of low grades at 24½c. Molasses is held at 32c for Barbadoes. The tone of the tea market has continued firm, with an upward tendency to values, under a fair inquiry and moderate stocks, which are well controlled. Further enquiries have been one appeared to be doing much business to day, but a great many were fair inquiry and moderate stocks, which are well controlled. Further enquiries have been one appeared to be doing much business to day, but a great many were fair received on Chicago account, but holders are firm at an advance of half a cent over last sales. A good, fair local consumptive demand has been experienced for petroleum at steady prices. ## MONTREAL PRODUCE EXCHANGE.

There has been a fair movement in coarse grains at country points, farmers having made deliveries with greater freedom. Peas have been more active at steady prices, sales being made for through shipment at 60c to 61c per 60 lbs. along the line. Oats have changed hands on the same conditions, at 30c to 31c per 34 lbs. In this market trade has been inactive and values nominally unchanged. On spot we quote :- Canada red winter wheat, 92c to 93c; white winter, 90c to 91c; Canada spring, 90c to 91c; pess. 72c to 73c; orts, 32c; rye, 60c to 62; barley, 50c to 60c; and corn, 53c to 56c. The market for flour is decidedly quiet, even unto positive dulness. Transactions are limited to furnishing the city trade with broken lots, and prices remain nominally unchanged. Buyers views are below quotations, but sellers refuse to make concessions so far as can be learned. On 'Change a lot of 250 bags was reported at \$1.55.

Pork was fairly active and stronger at a further advance in values of about 25c per barrel. The movement during the past two weeks has been satisfactory to dealers, besides being at better prices. The demand continues fair and of a general character, although principally in small lots. A round lot of Canada short cut sold at \$16, but holders ask \$16.25. Western pork is higher with Meats were in mederate request. A lot of green hims sold at 9c. The market for dressed hogs continues quiet and steady, a moderate business having been done at \$6.10 to \$6.20 per 100 lbs., with jobbing lots higher. Ashes—Receipts of pots continue light, with a very small trade. Prices are quoted steady at \$3.55 to \$3.60 per 100 lbs. Eggs—Buyers move slowly and carefully and show no anxiety. Prices, however, remain steady at 17c for anxious to be so engaged, and there was far more butter to be handled than the small outlet could take. The market was dull, and the week has opened without evidence of im-provement. The desire of holders is to work off as much stock as possible, and to do this a certain amount of elasticity is allowed to values. Exporters do not make any move ing solely for local account. A transaction

MONTREAL CATTLE MARET. Considering the season and despite the demoralized condition of the British markets there has been a fair trade in export cattle, shippers having bought at 41c to 5c per lb., live weight, and as high as 54c has been paid for choice. A fair number has been received at Point St. Charles on through shipment. cases is at \$10.75 to \$11 for Hennessy's, Prices of export cattle are considerably lower than at this time last year, the difference being about \$20 per head, which is not surprising in view of the depression on the other side. The exports from Boston last week were 752 head cattle, 395 sheep, 3,479 quarters beef, and 160 carcasses mutton. At Viger market to-day the receipts were somewhat less than 300 head, for which there was sellers were disposed to ask an advance from last week's quotations. Good to choice cattle were at 41 to 41e per lb. live weight, and very fair lots in good condition sold at 4... Medium grades went at about 3 to. Calves continue in light supply and 1 etch good prices. Good sheep soid at \$4 to \$4.50 each. Live hogs were firm at Se per lb.
