ascribes to poor Albert Smith-evidently the model whom Mr. Spurgeon imagines he is surpassing in his itinerary patter. It's a hard thing to say of a minister of the Gospel, but we cannot refrain from saying that Mr. Spurgeon's recollections of fravel remind us very forcibly of the airs assumed by the monkey that had seen the world. His pride in his wanderings is doubly ludicrous from their very limited extent and the hackneyed nature of the spots whom Mr. Spurgeon imagines he is surpassing in his he visited. He advised his hearers, if they had any money to spare after they had cleared off the debt of the chapel, to take a continental trip for the sake of intellectual expansion; assuring them that they would feel their brains if they had any, growing on both sides of their heads, owing to the stimulus of the novelty around them. They are not likely to be encouraged to the experiment by the effects visible on their pastor. - Scotsman.

EFFECTS OF SPIRITUALISM. - A writer in the Gospel Herald, who has been traveling over considerable portions of Connecticut, says: "Spiritualism has made terrible ravages here and everywhere in this common schools have been closed. Domestic discord prevails, Marriage contracts are made to be dissolved in a few weeks or months. Families that were a few years ago esteemed respectable, are now clad in rags, and wanting the most common necessaries of life and their earningg are given to support the idle rabble who constantly hang on them, to hear or tell some new and strange thing."

Millinery.—A young lady, who lately gave an order to a milliner, said, "You are to make it plain, but at the same time attractive, as I sit in rather conspicuous place in church."

JOY TO THE WORLD.

DEAR Sin-I feel that it is a duty I owe to suffering humanity that I should give a relation of the great benefits I have derived from the use of Perry Davis's Pain Killer. Last summer I had the misfortune to lose two of my children by that dreadful scourge—the cholera—and in all human probability should have fallen a victim to the pestilence myself if a kind Providence had not provided me help in the hour of need. I first became acquainted with the Pain Killer whilst travelling on the river with my husband. A gentleman passenger had some with him which he recommended in the highest terms as a remedy for cholera. I thought no more of it at the time, but the same night I was nttacked by the cholera in the worst form. I resorted to various remedies used to arrest its progress, but all in vain. I was seized with violent cramps, and my discharges began to assume the same character as those of my dear children previous to their death. I was looked upon as lost, but all at once thought of the PAIN KILLER. My husband obtained the bottle from a fellow passenger, and administered to me a Prepared by S. W. Fowls & Co, Boston, and for sale by dose. I experienced almost immediately a cessation of pain. The dose was repeated at intervals of fifteen minutes, four or five times, and the result was my complete recovery. I feel confident that I owe my life to the Pain Killer, and only regret that I had not have known of its extraordinary virtues carlier, I then might have saved the lives of my dear children. Since that time I have used the Pain Killer in my family extensively, and the more I use it the better I like it. As a great family medicine, it has

The object of this new Academy is to benefit families who are desirous that their children should receive a complete course of instruction in the English language.
