Mr. Kevin Hruska, President

Bridgeview Manufacturing Inc. has been in business for six years. The company's main product lines are hopper cones, construction cranes and cattle squeezes - all agriculture-related products designed to ease farming operations. The products are entirely designed and manufactured by Bridgeview Manufacturing Inc., and are fully warranted.

Bridgeview Manufacturing Inc. has established its reputation through excellent workmanship and design of its products. Products can be customized to meet specific customer needs. All products are manufactured using up-to-date techniques and materials. A recent expansion has enabled the company to produce more effectively and efficiently than ever before.

Bridgeview's main market is the agricultural industry. Through a dealer network, successful markets have been established in Saskatchewan, Alberta, and Manitoba.

Bridgeview Manufacturing Inc. has recently begun exporting to the United States. Currently most exports have been to North Dakota, but the company is confident that there is good market potential in other states that require agriculture-related products. The company plans to expand its dealer network in the Northern U.S.A. Prices and products are very competitive and the experienced staff and top service are all aimed at opening a larger U.S. market.
