92.20 Cattle From Canada.

- a. Health certificates; detention at port of entry. Cattle offered for importation from Canada shall be accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing that said cattle have been inspected and found to be free from any evidence of communicable disease and that, as far as can be determined, they have not been exposed to any such disease during the preceding 60 days. Any such cattle may be detained at the port of entry and there subjected to such tests as may be required by the Deputy Administrator, Veterinary Services and the importer shall be responsible for the care, feeding, and handling of such cattle during the period of detention.
- b. Tuberculin-test certificates. Importation of cattle from Canada, for purposes other than immediate slaughter as provided in 92.23 shall be in compliance with the following conditions and requirements:
 - 1. Cattle from Canadian-listed tuberculosis-free accredited herds shall be accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing them to be from such herds and that said herds have been tuberculin tested within one year of the date of importation. The date of such tuberculin test shall be shown on the certificate.
 - 2. Cattle from herds in accredited areas in Canada, other than accredited herds, shall be
