39.   "Convention" means the United Nations Framework Convention on Climate Change adopted on 9 May 1992, and unless the text otherwise indicates, the terms defined in Article 1 of the Convention shall have the same meaning in this Protocol.[24]

40.   "Convention" means the United Nations Framework Convention on Climate Change, adopted at New York on 9 May 1992 [and adopted for signature in Rio de Janeiro on 4 June 1992[25]][26].

41.   "The Convention" means the United Nations Framework Convention on Climate Change.[27]

42.   "The Convention" means the United Nations Framework Convention on Climate Change done at New York on 9 May 1992.[28]

43.   "Depositary" means the Depositary designated in Article 9 of the Convention.[29]

44.   "Emission intensity of exports" means: the ratio of emissions generated domestically by the export sector with the total value of exported goods and services, for the agreed reference period.

45.   "Emission intensity of GDP" means: the ratio of emissions to GDP, for the agreed reference period.

46.   "Fossil-fuel intensity of exports" means: the emissions content of fossil fuel exports as a proportion of the value of total exports of goods and services, for the agreed reference period.[30]

47.   "Global warming potential" means the numerical parameter used for the calculation of the emission of one metric tonne of one or more other greenhouse gas in such an amount of carbon dioxide which causes the same greenhouse effect as one metric tonne of this gas.[31]

48.   "Greenhouse gas" means any greenhouse gas for which a global warming potential (GWP) is set forth in Annex C of this Protocol.[32]
