

7. The respective management entities shall consult closely and where possible co-ordinate pre-season management planning and in-season responses to run assessments. If it is determined in-season that pre-season management measures agreed to by the Panel are insufficient to achieve agreed spawning escapement objectives, the management entities shall consider taking further conservation measures to meet the escapement objectives.
8. The harvest sharing arrangement for Canadian-origin Mainstem Yukon River chum salmon shall be specified in Appendix 1, as amended from time to time by agreement of the Parties.
9. The harvest sharing arrangement for Canadian-origin Mainstem Yukon River chinook salmon shall be specified in Appendix 2, as amended from time to time by agreement of the Parties.
10. Subject to budgetary limitations, the Parties shall seek to implement the fisheries research and management programs recommended by the Panel on the advice of the Joint Technical Committee (JTC) for co-ordinated management of Yukon River chum and chinook salmon stocks.
