

CHEAPEST EDGERS AND TRIMMERS ON EARTH

Our Edgers and Trimmers are pre-eminently simple and practical. They have everything that is essential and nothing that is superfluous. That is why we can afford to sell them at such extremely low prices.

Our line of Edgers and Trimmers comprises:

The Tower 2 and 3-Saw Edgers, Improved
For mills cutting not to exceed 20,000 ft. in ten hours.

The Tower Extra 3-Saw Edger

A larger and heavier edition of the TOWER, for mills cutting up to 30,000 ft.

The Tower One-Man 2-Saw Trimmer

With this trimmer one man can easily trim the output of a mill cutting up to 30,000 feet in ten hours.

We also manufacture the celebrated

Gordon Hollow Blast Grate

which burns wet, green or frozen sawdust or other refractory refuse readily giving as good results with them as a draft grate gives with dry wood

GEORGE LUMBER REGISTER

The Only Perfect Register on the Market.

We will send one of these Registers FREE on 30 days trial to any address and pay return charges if not entirely satisfactory.

The GEORGE REGISTERS

is being used by the largest Planing Mills in the country, who have given their written testimonials.

Here is a sample:—

THE STOUFFVILLE BRASS & STEEL WORKS,
Stouffville, Ont.

GENTLEMEN—In answer to your inquiry with regard to the S. George Lumber Register, we desire to say that it has given every satisfaction. We put in one of 8000 ft. capacity lineal in the spring of 1902 and have used it constantly ever since and it has never given any trouble whatever, has never been out of order or laid up for repairs. We may further say that we are so well pleased with it that we have ordered another of the larger capacity of 60,000 ft. lineal, which we intend to use on another machine. In conclusion we may say that we do not see how this machine could be improved upon and we feel certain that it will be a long time before a lumber register is produced which will be superior to the S. George. Yours truly,

THE KNIGHT BROS. CO., HENRY KNIGHT, Manager.

EMERY GRINDERS

The annexed cut represents our latest and most improved style of Emery Stand and the incessant demand for a frame that will resist the vibration of the stone when running at full speed has made us particularly careful to make "rigidity" one of the principal features of the same.
