

Revised Edition Gage's New Map Geography

Primer. Price 10 cents.

For Pupils preparing for Promotion Examinations.

For Pupils preparing for Entrance Examinations.

For Pupils preparing for Junior and Senior Leaving Examinations.

For Pupils reviewing for Certificates or Final Examinations.

TO overcome the great difficulty of preparing students for these examinations, some masters throughout the province have taken the ordinary text-books in use, and from the multitude of sentences, selected what they deemed necessary to be learned by the pupil. Others again have used the blackboard or the dictation book for the facts to be memorized. These plans are objectionable, as the one does not present the words from the text-book so as to be remembered readily, and the others necessitate the loss of much valuable time. Further, the pupil does not recognize the word in its written form, and thus the spelling is not taught. Of still more importance and what in itself should commend the work to teachers and the public generally, is that *the exercise book required for the dictation exercises in Geography alone costs as much as this primer.*

The work is arranged in tabular analysis, to prevent the waste of time in poring over a prosy text-book. Brief notes are inserted at intervals to convey information of special interest. Although merely preliminary, this book will be found to contain all that is necessary to fit a student for any of our examinations in the subject, Geography.

As to *what* and *how much* to teach, those in charge must exercise their own judgments.

The attention of both teacher and student is directed to the Railway Map and to its analysis as special features of the book.

The new matter thus added relates to such interesting portions of the earth as Australia and parts of Oceania, Africa, the West Indies, and Central America. These places, containing as they do sister colonies, claiming a common origin with ourselves from British stock, cannot fail to be of deep interest to all loyal Canadians.

The statistics of the various countries, particularly those speaking the English Language, have been brought down to the latest date; this is possible at this juncture owing to the prevailing custom of taking the census every decade.
