

PROSPECTUS OF THE MELROSE BLACK FOX COMPANY, LIMITED

into 850 shares of \$100.00 each, being a sum sufficient to complete the purchase of five pairs of Foxes and pay all necessary organization expenses.

THE RANCH

has been located at Marshfield, six miles from Charlottetown on the farm of Peter McN. Robertson. It is built in an ideal grove of fir and birch, sheltered in winter, cool in summer. is built within a stone's throw from Mr. Robertson's dwelling, who is the care-taker, and who has had a most successful experience in caring for foxes both young and old. This ranch is one mile from the public high way, thus securing the greatest possible freedom from noise or other distractions so injurious to a fox ranch. Its immunity from forest or other fires enhances its value.

COST OF RANCHING

The owners of the ranch will supply the pens, food, keeper, night watchman, attendance of a veterinary surgeon, and everything necessary for the health, comfort and safety of the animals, the ranch retaining to itself 15% of the offspring.

THIS IS YOUR OPPORTUNITY

The cost of foxes is advancing year by year. The sooner you get into the business the sooner your wealth begins to accumulate. If the litters average
