

and before the animals, all of which is unscientific. These are but a few of the misconceptions of the author of the Genesis record.

Laying the Genesis record aside, as a beautiful dream or myth, and the Evolution Theory at once appeals to your reason.

The Theory of Re-incarnation harmonizes beautifully with evolution. Evolution teaches progress. Re-incarnation points out that life returning to begin where it left off, is a reason for that progress. Therefore, Re-incarnation is reasonable, natural and scientific.
