OFFICIAL QUEBEC TRIBUTES HOMAGE TO THEIR APPARENT

Prince Receives Addresses of Welcome — Great Enthusiasm in French Greeting.

Quebec, Aug. 22.—Official Quebec today rendered its homage to the heir apparent of the British throne. The second day of H. R. H. the Prince of Wales' visit to the old cradle of French Canada opened under glorious auspices. Throngs lined the streets and thoroughfares, and not since the days of Quebec's bicentenary celebration has the city seen such tremendous and enthusiastic crowds.

Quebec, as a province, paid its respects to the prince at a reception which was tendered the royal party at the legislative building. Sir Charles Fitzpatrick, the lieutenant-governor of the province, attended the reception as did also Sir Lomer Gouin, premier of Quebec, and the members of his cabinet. His grace, the Marquis de la Rivière, representing Cardinal Beaudry, Mgr. Pelletier, rector of Laval University, the members of the chapter of canons of the Quebec basilica, numerous clergy, the lord bishop of Quebec, Dr. Williams, the dean of Quebec and a large number of both the Protestant and Catholic clergy.

Address From Province
At ten thirty H. R. H. the Prince of Wales entered the parliament building. He was greeted at the door by Sir Charles Fitzpatrick, Sir Lomer Gouin, members of both houses and the mayor and city council. The prince was escorted to the oldest printing office in the province, the legislative council. Sir Lomer Gouin then read his address in the name of the people of Quebec province.

Sir Lomer Gouin in his address to the prince on behalf of the province of Quebec, extended a most hearty and sincere welcome to the eldest prince in the Dominion. He pointed out that the prince's visit continues the tradition which dates back to the time of the Marquis de la Rivière, the peace-maker, and to the present king, who was also the guest of the province on many occasions. In closing his address he expressed admiration for the young prince who valiantly and heartily shared the life and fortunes of our heroic soldiers in France.

Prince Replies in French.
The prince replied, in French, to the provincial government's address as follows:
"Gentlemen: I am deeply thankful for the loyal and cordial welcome which you have given me in the name of the government and people of the province of Quebec. I knew, even before my coming, the affection with which you have always received me in this ancient province, the dear, as you have just said, of the Canadian province, French by origin, and which has been the scene of the finest language in which you have welcomed me, with that genuine French warmth and cordiality which I have never accorded on this, my first visit to the city of Quebec, assures me of its historic and everlasting loyalty. In closing I give me the greatest pleasure to tell my father, the king, that this welcome was given me with no smaller cordiality than that which greeted me in London in 1860 and his majesty on various occasions.

Bravery of French.
"I thank you for the too flattering mention you have made in the modest part I may have played in the past."
(Concluded on Page 2, Column 4).

NEW ORGANIZATION OF ACTORS FORMING

George M. Cohan to Spend Time and Money to Free Stage From Labor Control.

New York, Aug. 22.—George M. Cohan, theatrical "King of the Bells," and a leading member of the Producing Managers' Protective Association, tonight was on the verge of retiring from play production in order to devote his life and \$100,000 of his fortune to the upbuilding of a new "independent" actors' organization, that effort to break the actors' strike and keep the stage free from the control of organized labor.

In a letter to Louis Mann, chairman of a meeting of nearly 900 actors and actresses, not members of the Actors' Equity Association, Mr. Cohan intimated that he would resign from the Managers' Association and give himself entirely to the interests of a new organization of actors, which would work "for the uplift of the spirit of the stage," as soon as a definite organization could be perfected and its aims outlined.

More than 450 actors and actresses signed up for the new association tonight under Mr. Mann's guidance, and immediately a committee was appointed to draft a constitution and by-laws and wait on Mr. Cohan.

Other developments in the strike situation today include a statement by Charles C. Shay, president of the International Alliance of Stage Hands and Motion Picture Operators, that next week at the meeting of the American Federation of Labor at Syracuse I shall introduce a resolution demanding that the federal industrial commission proceed with this strike and hold public meetings.

A fund of \$21,000 was raised at this meeting to provide for "actors who are temporarily impoverished because of the strike."

All cases of injunctions, filed by managers, asking that striking actors be restrained from "interfering" with production of Broadway shows, will be heard tomorrow by Supreme Court Justice Peter A. Herlick, he announced today.

LAST NAILS DRIVEN AT NATIONAL FAIR

Directors Convinced Attendance Will Top Million Mark—Trophies of Victory Outstanding Attractions of Exhibition Destined to Overshadow Predecessors.

Thousands of men were engaged yesterday and all last night putting the finishing touches to the Canadian National Exhibition and when the gates open to the public this morning the big fair should be complete in every department.

There are so many new features it is difficult to particularize, but the war memorials and the war trophies are outstanding attractions sure to please the vast crowds expected. President T. A. Russell, General Manager and in charge of the members of the board of directors, together with the associate directors and the chairman of the various buildings, were constantly at work yesterday supervising the arrangements on the grounds and in the buildings and this evening they were jubilant over the wonderful progress made.

Both Mr. Kent and Mr. Russell are firmly convinced that the million and a quarter mark aimed at will be reached, providing, of course, that the weather is favorable.

"We are in splendid shape," declared Mr. Kent last evening. "It has been a tremendous task to get things completed this early, but our exhibitors have entered heartily into the spirit of the occasion and have co-operated splendidly. Our own Toronto people are more interested in the Exhibition this year than ever before and will attend, we believe, in greater numbers than ever. Labor Day established a new record last year, and this year workers say they will turn out 200,000 strong. I would not be surprised to see as many on the day H.R.H. the Prince of Wales is here."

President T. A. Russell was also very optimistic. "The people are with us and we are doing our best to make the year a record one. It is a new experiment opening on Saturday, but we have every hope that it will be successful."

Planes Give Display.
The grounds were thronged by sightseers yesterday afternoon and the visitors were rewarded by a display allowed to roam. They displayed a deep interest in the various exhibits, the guns and floral display, but the most popular was the airplane.

U. S. Senate Modifies Bill Which Would Prevent Aliens From Holding Them.

Washington, Aug. 22.—To obviate possible retaliation by foreign governments should oil land leasing legislation discriminating against aliens be enacted, the senate late today without a record vote adopted the Smoot amendment modifying the leasing bill to permit aliens to obtain leases to government lands under restrictions.

The amendment provides that no alien shall own any interest in a lease acquired under the leasing bill except with a provision authorizing the president in his discretion, to take over and operate the lease, saying just compensation to the owner for the use of tools, appliances, machinery and for the products. The secretary of the interior also might require the sale for consumption in the United States of any portion of the products of any leased property in which any alien has an interest by stock ownership or otherwise.

The amendment was "opposed by Senator King, Democrat, of Utah, who said the amendment would be "harmful and injurious" and might result in government confiscation of oil property as has been done in Mexico. Senator Phelan urged that some steps be taken to counteract British interests acquiring American oil lands and asserted that Great Britain already owned "vast producing oil fields in California."

"CHU CHIN CHOW" HELD UP.

As a result of the New York actors' strike, "Chu Chin Chow" will not appear at the Royal Alexandra next week. All tickets sold will be honored when the company makes its delayed appearance here or can be redeemed at the theatre any day. The Robins Company will again produce Belasco's success, "Call the Doctor."

Returning Soldiers

S. S. Battle landed troops at Halifax at 5 p.m. at 8.30 at Quebec yesterday. Men from both vessels are now en route for Toronto. Lists will be found on page 3.

S. S. Columbia with 181 Canadian officers and 1 other rank on board, left Liverpool on the 21st for New York.

Halifax, N.S., Aug. 12.—The Saxonia, with returning Canadian soldiers, advises she will dock at four o'clock this afternoon. The Belgic is due at six o'clock tomorrow morning and the Royal George at 10.40 o'clock tomorrow night.

MINISTERS ASSURES OUTRAGED TEACHERS OF INCREASED PAY

Hon. Dr. Cody Also Emphasizes Education as a Valuable Asset.

"The great thing is for the people of this province, led by the government—and we will give the leadership—to pay teachers salaries adequate for their work. Our people are making up their minds to it. The indications are on every hand, and you may read it in the columns of almost every newspaper, that the teachers of education and the trustees throughout the country are realizing that the teachers have not been adequately paid in the past and that they cannot get the best kind of teaching unless they want the salaries provided today."

"Everything I can possibly do by persuasion by effort and by way of government grant, I shall gladly do, and in doing it I know that I have the backing of the government and the legislature of the province. I am sure that the only way in which this can be done, and permanently done, is by making the public at large realize how valuable an asset education is to the province as a whole."

Meets Veteran Students.
Following are the officers elected: President, J. P. Hume, B.A., Goderich; vice-president, F. H. Briscoe, Chatham; secretary-treasurer, W. S. Bowden, Goderich; directors, W. H. Sanderson, St. Thomas; W. G. Ransley, Milton; R. H. Bellamy, Mount Brydges; P. F. Reilly, Petrolia; John Smith, Thamesford, and Dr. H. C. Atkinson, Embro.

Dr. Cody, who had an enthusiastic reception, said he looked forward with an eager anticipation to that cooperation. (Concluded on Page 9, Column 4).

DEMAND RESTORATION OF WEST AUSTRIA

Paris, Aug. 22.—The vice-minister of foreign affairs at Vienna has handed to the French commissioner in that city a communication saying that West Austria must be restored to the Austrian government, according to advice from the Austrian capital today.

WHEAT BOARD SETS PRICE PER BUSHEL

Figure of Two Dollars and Thirty-Three Cents for Sale to Mills.

Following is the full text of the statement handed out to the press tonight by the Canadian wheat board: "The order-in-council fixing the price of wheat in Canada by the board was subject to such conditions as the board saw fit, the price of sale being governed as nearly as may be by the price obtainable at the same time in the world's markets for wheat of equal value, regard being had to the cost of handling, transport and storage."

The Canadian wheat board has today, until further notice, fixed the sale price of wheat to mills in Canada by the board on the following basis per bushel, namely: \$2.33 per bushel, including five cents per bushel carrying charges, basis No. 1 Northern in store public terminal elevators, Fort William and Port Arthur; \$2.33 per bushel, including five cents per bushel carrying charges, basis No. 1 Northern in store, Ontario and Quebec wheat in store, Montreal; \$2.27 per bushel, including five cents per bushel carrying charges, basis No. 1 mixed wheat in store, Ontario and Quebec wheat in store, Montreal; \$2.27 per bushel, including five cents per bushel carrying charges, basis No. 1 British Columbia wheat, in store Canadian government elevators, Vancouver.

THE DINNER-DANCE.

Toronto was much interested in the explanation in an evening paper last night of the dinner-dance to be given at the Yacht Club on Tuesday, at which the Prince of Wales is to be present. According to it, the officers asked are only those Canadians who had met the prince on active service in France. The ladies are wives, sisters and near relatives of these officers, including surviving sisters of the prince, but who had died in the war. General Gunn, who has charge of the arrangements, may have to take a few demobilized who are not of the kinship set out. But the rule of comradeship in service is to be strictly observed.

MAYOR CHURCH IS IN FAVOR OF CONSERVATIVE CONVENTION

Mayor Church is in favor of a Conservative convention for the Dominion, as well as the province. "Now that the war is over, Conservatives should close their ranks, sit down and talk things over, and come to a broad platform," he declared. "We have many problems of national importance to consider and I think nothing but good could come from a convention. Hydro radicals is one matter which cannot be overlooked. If there isn't a Conservative convention there will be a Hydro convention. I think there will be a Hydro convention this fall."

DEWART DENOUNCES HEARST GOVERNMENT FOR NICKEL BLUNDER

Special to The Toronto World.

London, Aug. 22.—H. H. Dewart, provincial Liberal leader, spoke on the nickel issue here tonight for an hour and a half, contending that by the negligence of the government of Ontario and the government of Canada shipments of nickel reached Germany in the early years of the war. He focused his case upon the connection of Hon. Frank Cochrane with the International Nickel Company, controlling the Canadian Copper Company. If that intimate connection had not existed Ontario nickel would not have reached Germany as unfortunately it did during the war. Connected with the nickel interests as he was, Hon. Frank Cochrane did nothing at a time when devoted our nickel supply to an enemy in the terrible emergency of Canada, of the empire and of civilization.

EXPRESS TARIFFS CHANGE SEPT. FIRST

Montreal, Aug. 22.—The transportation bureau of the board of trade has advised that the new express tariffs and classification issued under the judgment of the board of railway commissioners have been completed and will become effective on September 1st.

The new tariffs will apply only on Canadian express traffic, having no reference to business for or from the United States. It is interesting to note that under the tariffs a reduction of 15 cents from the full express rate is made to and from non-carriage points. Thus in traffic from carriage point to a non-carriage point the rate will be 15 cents less than the tariff rate, while in traffic from a non-carriage point to a non-carriage point the rate will be 30 cents less than the full tariff rate.

Another important feature is that heavier express companies shall not be required to collect or deliver above the ground floor of any building or residence any article of such size or weight as cannot be handled by one man, unless elevator facilities are available, nor are the companies required to collect or deliver shipments of extraordinary weight or bulk.

MEXICANS CO-OPERATE WITH AMERICAN FORCES

Marfa, Texas, Aug. 22.—After a day of limited operations, the American punitive expedition faced the probability of a forced march tonight and tomorrow, when the troops will scout tomorrow for the bandits who held two American army aviators for ransom.

Reports from the Mexican consul at Presidio, Texas, stated that cooperation between Mexican troops and the American was continuing satisfactorily, and that there was no anxiety over possible friction.

Dutch Steamer Strikes Mine Near the Harbor of Calais

Calais, Aug. 22.—The Dutch steamer Luna today struck a mine among five miles east of the harbor of Calais. The crew was saved. The Luna was a vessel of 1,260 tons and was owned in Amsterdam.

CANADA SENDS FOUR TO LABOR CONFERENCE

Special to The Toronto World.

Ottawa, Aug. 22.—The government has been notified that the international labor conference will convene at Washington on Oct. 29. Canada will send four delegates—two from the government and one representing capital and another representing labor.

NEW RATES AND CLASSIFICATIONS WILL THEN BE EFFECTIVE

The new tariffs will apply only on Canadian express traffic, having no reference to business for or from the United States. It is interesting to note that under the tariffs a reduction of 15 cents from the full express rate is made to and from non-carriage points. Thus in traffic from carriage point to a non-carriage point the rate will be 15 cents less than the tariff rate, while in traffic from a non-carriage point to a non-carriage point the rate will be 30 cents less than the full tariff rate.

Another important feature is that heavier express companies shall not be required to collect or deliver above the ground floor of any building or residence any article of such size or weight as cannot be handled by one man, unless elevator facilities are available, nor are the companies required to collect or deliver shipments of extraordinary weight or bulk.

25 PER CENT OF FACTORY COST MUST BE DUE TO EMPIRE LABOR

London, Aug. 22.—The commissioner of customs has issued an explanation of the new 25 per cent preference rates mentioned in the budget speech, which become operative on Sept. 1. In the case of manufactured goods, the preference is only claimable if 25 per cent of the factory or workshop cost of the article is due to labor within the empire. The exceptions are manufactured tobacco, refined sugar, syrup and molasses. The onus of proof as to the origin of the goods rests with the importers.

U. S. HOUSE WIDENS THE SCOPE OF THE FOOD CONTROL ACT

Washington, Aug. 22.—Without amendment, and with practically no opposition, the house late today voted to amend the Lever food control act to extend its provisions to include clothing, containers of food, feed or fertilizers, fuel oil and implements used in production of necessities. A \$5000 fine or two years' imprisonment.

SALES IN NEW YORK OF ARMY FOODSTUFFS

Special to The Toronto World.
New York, Aug. 22.—Following are the figures of the first day's sale yesterday of surplus army foodstuffs in this city:
More than one million pounds of the army stores were sold.
The purchases aggregated slightly more than \$60,000.
Thirty thousand customers took advantage of the sale, representing about 150,000 consumers.
The army food purchased comprised about two per cent of the city's average daily expenditure for food. New York City spends \$1,100,000,000 annually, or \$5,613,698 daily.
At yesterday's rate of purchase 25 per cent of the surplus army foodstuffs will be required to dispose of the 400 carloads ordered by the city.
Fifty-three schoolhouses, 100 automobile trucks, 800 volunteer workers and 200 city employees handled the sale.
Commodities sold on an average of 25 per cent below prevailing market prices.
A number of dealers reduced their prices to the level of the city's, and the majority did not alter their quotations.
