MINING COMPANY LIMITED LIABILITY.

SHARES FULLY PAID AND NON-ASSESSABLE.

ROSSLAND AND TRAIL CREEK

Location and Description.

The above claims are situate on the northeast slope of Lake Mountain, in the south mineral belt, three miles Southeast from Rossland, midway between that town and the town of Trail, where the smelter is situate, and a short distance east from the Crown Point group, which was lately sold to an eastern syndicate for \$450,000, the largest price ever paid for any claim or group of claims in this district.

The Golden Crown lies southwest of and adjoins the Boulder, upon which considerable work has been done with splendid results, an assay of \$28 in gold per ton having been obtained at a depth of 20 feet. The ledge upon which this work has been done on the Boulder extends southwesterly through the Golden Crown.

The Island Bell adjoins the South Bend on the southwest. The South Bend is considered one of the most promising mines in the south belt. At 30 feet an assay was had running as high as \$91.46. Three clearly defined leads run northeast to southwest through the South Bend, and can be plainly traced clear across the Island Bell.

The Golden Crown, Island Bell and Robert Bruce are adjoining claims, and are separated from the other three by the South Bend, Gold Dollar and Albany.

The ledge from the Deadwood which added the Colden Crown the other three by the South Bend, Gold Dollar and Albany. Secretary, C. O. TUCKER, Esq., Secretary and General Manager of the Duwamish Dairy Companies.

Treasurer, HON. ANDREW CHILBERG, Esq., a well-known Montreal man, for many years connected with the C.P.R., President of the Scandina-vian-American Bank, President of the City School Board of Seattle, and General Agent of Transatlantic Steamship Lines.

Solicity HON. JOHN W. BROWN Transatters Connected for the City. Solicitor, HON. JOHN K. BROWN, Esq., Corporation Counsel for the City Seattle. Mining Superintendent, J. J. HENACER, Esq. (one of the best-known min-ing experts in British Columbia), Superintendent of the Mascot and other works.

General Manager, EX-MAYOR WHITE, Seattle. Poronto References: James Booth of the T. Eaton Co., Ltd., H. G. Mc-Micken, General Agent Great Northern Railway.

Golden Crown, Island Bell, Emma G.,

Robert Bruce, Southampton, Free Silver,
All of which are Full Claims, thus making, with one exception, the largest block of property owned by any one company in this camp.

SALE OF STOCK.—No Treasury Stock has vet been sold, the promoters having out of their private moneys provided a fund out of which to pay the cost of development work.

50,000 SHARES are now offered for sale at the IOC PER SHARE FOR Further Particulars Apply

Brokers for the Company.

E. E. Powell, representative of the company, will cheeped the substrated at the above address. Albany.

The ledge from the Deadwood, which adjoins the Golden Crown on the west, and which is owned by C. W. Callaghan, Esq., the well-known mining expert, runs clear across the Robert Bruce; one of the ledges from the South Bend through the Free Silver; the Emma C. has the Albany ledge, which can be traced to the Imperial and G. R. Sovereign mines, and there is good surface showing on the Southampton. For convenience of location for mining and shipping purposes these properties cannot be surpassed. There is an abundance of timber; and Lake Creek, which runs from the summit of the mountain to Trail Creek and passes through these claims, provides a bountiful supply of water. There are splendid opportunities for tunnelling, and it is the intention of the company to, shortly, run a tunnel to catch the lead upon which the work is now being done, thus cheapening the cost of mining.

The property lies within about 2 miles of the Trail smelter. The Columbia & Western Railroad runs within one and half claims (about 2000 feet) from the present works, all down grade, thus affording almost unequated facilities for conveying ore to the cars and thence to the smelter. There is also a movement on foot to erect a smelter on the R. E. Lee or Maid of Erin grounds, which are in close proximity to the property. Should this be effected, the ore can be treated at the very lowest possible cost.

Development.

About November 1st last a cabin was built on the Golden Crown and work commenced by Mr. M. A. Green, an experienced mining man, who had taken a contract to do 100 feet of work on the property. The work thus far performed consists of a shaft 46 feet deep and a 48-foot crossout, and two test shafts, 8 and 10 feet deep. The shaft develops ledge 12 feet wide with a cyanide foot-wall, hanging wall being of porphyry. The pay streak in the bottom of the shaft is 26 inches in width, and is a diorite ore. The crossout develops the SOUTH BEND lead, which is open on the SOUTH BEND, and has ore on dump running \$91.

The ROBERT BRUCE, which adjoins the Deadwood (C. W. Callaghan mine), a shipping property, has on it 1700 feet of the Deadwood lead.

To Investors.

We would say that in determining whether or not they should platheir capital in the purchase of this company's stock they should consider 1. The number of claims owned by the company, and extent of groun to be worked. Purchasing stock in this company with its six full claims like buying in most other companies, which have only one claim, at a little better than 1 1-2 cents.

6. Three of the leads running through these properties are opened up at mineral depth, and some are shipping and prove good paying propositions, so that it is understood that all that is now needed is money to continue work and necessary machinery to make this one of the largest and best paying propositions that has ever been offered to the public.

7. The excellence of its management and the high standing of its officers.

A STRONG COMPANY COMPOSED OF WELL-KNOWN BUSINESS MEN.

250,000 in Treasury to be Sold for Development Purposes

GOLD MINING COMPANY, Limited.

DIRECTORS.

Solicitor for the Company - - - - - - - - - - W. J. Millican, Esq., Barrister, Galt. The Trustee Board consists of the following gentlemen: Dr. R. R. Hopkins and Major J. A. V. Preston of Grand Valley, also Messrs. E. Moore (of D. Moore Co., Ltd.). R. M. Biggar and E. H. Robson, of Hamilton,

SuperIntendent of the Company's Mines - - - - - - - Mr. James McCreathe

CAPITAL \$1,000,000

THIS IS A DEVELOPMENT COMPANY.

This Company already owns three most valuable mining properties, viz., the Mississippi, near the famous Crown Point mine, in Rossland, B.C., also the lowa and Tennessee properties in Salmon River, B.C. The surface showing on the Tennessee is exceptionally good, assaying \$46 to the ton in gold, silver and copper. A tunnel is being driven at a depth of 180 feet to cross-cut the ledge, and as the tunnel is now in over 50 feet and the ore is becoming heavily mineralized, it is expected that the ledge will be struck at any moment, giving extraordinary results, as it is generally known that the greater the depth the richer the ore becomes.

The Directors of this Company are in negotiation for securing very valuable water power privileges, also for purchasing a large portion of a new town site that is being surveyed in the immediate neighborhood of the Company's mining properties. An enormous source of revenue will be derived from the investments made in this particular branch of the Company's business, and it will reflect great credit on the ability of the Company's officers for their enterprising business tact.

The shares are now quoted at 10 cents, but on account of the exceptionally good news received from the Superintendent it has been decided to raise the stock to 15 cents per share on or before the 15th inst., after which date it will be an open question whether or not the stock will be entirely withdrawn from the market.

As there are only a few days remaining before the stock will be raised, the public should make early application for shares to the SECRETARY, 30 and 32 Main Street East, Hamilton, who will be pleased to give the fullest information desired. Write for revised prospectus.

The Investors' Mining and Development Co.

Will be incorporated under the Ontario Joint Stock Companies' Letters Patent Act and section 18 of an Act Respecting Mines and Mining Lands, 57 Vic., Cap. 16. Authorized Capital, \$1,000,000—Divided into 1,000,000 shares of \$1 each par value. Fully paid and non-assessable. Non-Personal Liability.

All the objects for which a charter can be granted are sought—not omitting the right to carry on a brokerage business in connection with buying, selling, leasing, bonding and floating mineral claims and mines. Our initial ventures will be in the Slocan and surrounding districts. We have also offers of copper and gold properties at reasonable prices in Ontario. No properties will be bought until they have been thoroughly examined and reported on by the company's expert and records searched and title perfect.

The officers and directors will be chosen from among the following subscribers: J. W. St. John, Esq., M.P.P., Toronto; R. McGregor, Accountant, Toronto; Affred Robinson, Esq., Secretary Commercial Travelers' Association, London; Oscar Bixell, Esq., (Bixell & Co.), Brantford; John A. Ferguson, Barrister (Messrs. Ferguson, McDonald & Glassford, Toronto; E. C. A. Sutton, Esq., Broker, Detroit, Mich.; Jas. W. Gidley, Esq., Penetanguishene; H. Yates, Esq., Merchant, Cornwall; George S. Wallis, Esq., Financial Agent, Beaverton; Hector Logan, Esq., Merchant, Beaverton; James Burton, Walliam Spittall, Esq., Sec.-Treas. People's Building and Loan

READ CARBRULLY.

San Francisco Examiner.

Have you read the news from Cuba?—it is great!

Have you read the news from Turkey?—it is shares are sold and none are set aside to be distributed now or at any time amongst promoters. The proceeds from the sale of the 300,000 shares defray expenses of organization of the company, promoting, etc., and a balance of several thousand dollars in hand; 700,000 shares are to be sold and proceeds, together with funds on hand, will be the working capital of the company. As regards capital, we will be as strong financially as companies capitalized at \$2,000,000.

POOLING PROMOTION.

The Sultan boils his grandmother in wine.

POOLING PROMOTERS' SHARES—No other development company have stated in what manner their promoters' shares were pooled. We desire to merit the entire confidence of investors, and have no hesitation in stating plainly our plans of operation and the security we provide to prevent promoters' stock being put on the market in competition with treasury shares.

A CAST-IRON AGREEMENT—The holders of the 300,000 shares subscribed have agreed to pool their holdings until not less than one-half of the

treasury shares are sold. Receipts will be issued to them, on which will be printed the words "Not negotiable." To absolutely insure the interests of investors, it is further agreed that no promoter shall sell his or her shares before first having offered the company the refusal of purchase. And such shares will not be transferrable on the books of the company until they have signified their refusal to purchase at the advertised or market price. This company is being organized to invest the moneys entrusted to them in buying and selling mineral claims and mines, and all business in connection with mining interests, from which a profit can be derived. The first issue of Treasury Shares are offered at Ten Cents per share, in blocks of not less than one hundred.

Interim receipts will be issued and all moneys received deposited in a bank. Scrip will be issued when charter is obtained. Applications and remittances should be addressed to

R. McGREGOR, Secretary-Treasurer, McKinnon Building, Toronto.
