BOER ENVOYS IN BRITISH LINES

BOTH TELEGRAPHS TO KRUGER

London Sun Declares an Appeal is Being Made to the President to Sue for Peace—General Delarey's Stroke Causes Misgivings Over Lack of Details

BOTH WIRES KRUGER.
LONDON, June 1.—The Sun today publishes a sensational story to the effect that General Botha has arrived at Standerton and is communicating by telegraph with Mr. Kruger, thru the Netherlands government, appealing to Mr. Kruger to sue for peace. Lord Kitchener is said to have given Botha permission to adopt this course.

The Sun further hears that 10,000 Zulus have gone on the warpath owing to Boer raids in Zululand. A despatch received Sunday night from Standerton, Transvaal Colony, says Gen. Tobias Smit and Dewet, secretary to Gen. Louis Botha, arrived there on the morning of June 1. Their mission is not explained.

GENERAL DELAREY'S STROKE

New York, June 2.—The Tribune's London correspondent writes: Suspicion is again excited by the lack of details respecting the battle fought at Paardeburg. It is not probable that the War Office is deliberately suppressing despatches from Gen. Kitchener, and that a serious reverse has occurred. Gen. Kitchener has told the story of the battle before, and is not disposed to magnify the importance of anything connected with the campaign, but cannot withhold the list of casualties. The absence of Mr. Delarey may explain the reticence of the officials in Paardeburg. The report of a stroke, and the details of the battle may not be accessible to the few stragglers who remain in the field. There is no anxiety among military men, since the Boers are known to have been nearly repulsed, but there are strong sus-

BOERS SLIPPED THRU THE MESHES OF DRAG-NET SET BY KITCHENER

Enemy Crippled Thru Lack of Supplies and British Handicapped by Having to Devote Five-Sixths of the Army to Guard Lines of Communication.

New York, June 2.—The Sun's London correspondent, writing for anti-British readers, says: The men of the latest South African operations is that the Boers have again evaded British strategy. Lord Kitchener had planned to force them to winter in the Northern Transvaal and fight there, at least to hold them until the Midland district of Cape Colony, where, instead of the North Transvaal, Lord Kitchener may have to direct his winter campaign.

Gen. Delarey is unlikely to seek to operate there, as the Boer leaders have consistently chosen areas they know best. But such a severe attack as that delivered by Gen. Delarey at Vloerfontein last Wednesday, saved reviving the panic theory of the British, and the Boers are moving without loss of knowledge of the situation. The Boers are now in the Midland district of Cape Colony, where, instead of the North Transvaal, Lord Kitchener may have to direct his winter campaign.

ROYAL BABY BORN IN ITALY

First Child of the King and Queen, However, is Not an Heir to the Throne.

Rome, June 1.—Queen Helena of Italy gave birth to a daughter this morning. The Queen and her infant daughter are doing well.

The Princess will receive the names Yolanda Margherita.

A thousand carrier pigeons were released at the Quirinal at midday to convey the tidings of the birth of the Princess to all parts of the country that were inaccessible by telegraph.

CHAFFED THE ROYAL DUKE

Australian Students Sang "John Brown's Body" While He Was Being Made an L.L.D.

Sydney, N.S.W., June 2.—While the degree of L.L.D. was being conferred on the Duke of Cornwall and York by the university yesterday the students who filled the hall had an uproarious time. They delivered snock snoring songs and sang snoring and mimicked royal presentations before the ceremony began. During the conferring of the degree and a word could be heard as the students sang "John Brown's Body." "He's a Jolly Good Fellow" and other popular songs. The singing was very all-pitched. The Duchess of Cornwall and York, Countess Hopetoun, wife of the Governor of the Australian Commonwealth, and Lady Mary Lyon were present.

TO CURE DIABETES.

Paris, June 2.—There is probably no country in the world where more people die of diabetes than France. It is, therefore, not surprising that the doctors are seeking their brains to find a remedy. The latest discovery of medical science seems to have located the spot. A Bordeaux doctor, M. Beyer, has been giving his patients a treatment with remarkable success. Two others have done even better. In one case the saccharine matter was reduced from 25 grammes to 10 grammes, and in another from 100 grammes to 10 grammes, accompanied with the cure of a general foot. It appears that the yeast in the saccharine matter as a fast food, and that it can be obtained by giving it in dry form.

NIGHT CARS TO THE JUNCTION.

A night service on the Toronto Railway Company's Dundas-street route will commence to-morrow. Night cars will leave the Junction at 12 and 1.38 a.m. Night cars leaving the city for the Junction will leave at 12 and 1.38 a.m. This car will arrive at the Junction at 2.53 a.m. This car will arrive in the city at 11.30 a.m. The car will arrive in the city at 11.30 a.m. The car will arrive in the city at 11.30 a.m.

BOER WAR

MACHINISTS' EMPLOYERS SAY WAR TO THE KEEF AND EMPLOYEES HURL BACK THE BOER DEFIANCE

Administrative Council of National Metal Trades' Association, Employing 60,000 Workmen, Abrogates All Agreements With International Association of Machinists—Convention Meeting in Toronto To-Day Will Prepare for a Bitter Conflict—President O'Connell on the Situation.

After a few days, the employers asked for a conference and this was held at the Astor House. To the men a proposition was made that they should return to work after which other differences should be submitted to arbitration. The men refused to agree to this, and they were sent to the International Association of Machinists. On Tuesday last the Administrative Council of the National Metal Trades Association met in Chicago, and the result of that deliberation has just been made public by Henry T. Devens, the secretary.

EMPLOYERS' BILL OF RIGHTS.

We must have full discretion to designate the men we consider competent to perform the work.

We will not admit of any interference with the management of our business.

We will not admit of any man on our staff who is not a member of our membership in any organization.

The number of apprentices, helpers and handy men to be employed will be determined solely by us.

We shall be free to work our people at wages mutually satisfactory.

It is the privilege of the employer to leave our employ whenever he sees fit, and it is the privilege of the employee to discharge any workman when he sees fit.

Hours and wages, being governed by local conditions, shall be arranged by the local association in each district.

Should any member refuse to comply with this recommendation he shall be deemed to have resigned from the association.

The above principles being absolutely essential to the successful conduct of our business, they are not subject to alteration.

DEFIANCE HURLED BACK.

At 10 o'clock this morning the annual Convention of the International Association of Machinists will open in St. Andrew's Hall, and continue for 10 days. It is expected that from 350 to 400 delegates will be in attendance from all parts of the United States, Canada and Mexico, and the business transacted will have an important bearing on the machinists' strike. President O'Connell will call the convention to order at 10 o'clock, and addresses of welcome to the visiting delegates will be given by Mayor Howland, Adm. Cox, chairman of the Reception Committee, and President Wilson of the Toronto District Trades and Labor Council.

DECEASED DID WONDERFUL WORK

The East, Where He Labored for Thirty Years.

"Mackay" died was the cablegram received yesterday, announcing the death of the most prominent foreign missionary of the past century.

Rev. G. L. Mackay, then a young Canadian Presbyterian minister of 28, left Canada for Formosa, a land of savages, 30 years ago. A native of East Toronto, Ontario, Canada, he was noted for physical courage and intense nature, qualifying him to arouse enthusiasm in any cause he adopted. He was the first missionary to set foot in Formosa, where, as the trait of his pioneer days, there are now 100 flourishing churches, 54 native preachers, 1000 natives in the employ of the mission.

BRITISH CHEERS AND WREATHS GREETED LORD MILNER AT HOME

Warmth of Welcome to High Commissioner on Return From South Africa Was Largely Personal, But Settlement of War is Still a Riddle of the Future.

New York, June 2.—The Herald's London correspondent, writing of Lord Milner, says: The prominent figure of the week has been Lord Milner of Cape Town.

His return—his reception by the King—his peacemaking and his speech have been the general theme of political conversation. The government did all it could to make Lord Milner's arrival imposing. Mr. Chamberlain got up a luncheon in his honor the very next day. On the other hand the leader of the Opposition took very little part in the proceedings.

Lord Milner's arrival in London was highly commensurate with the high position which he occupies, and would have been extremely embarrassing to any opponent of his policy who had happened to be present.
