COAL TENDERS WERE HIGH

Scavengers After the Board of Control Again for Shorter Work Day.

OPPOSED TO CITY ANNEXATION

Commissioner Fleming Says City Derives No Benefit From Acquiring New Territory.

board to grant the concession that the men shall not have to clean their horses. This morning. He complained that now the men have to be at work early enough to clean their horses, harness up and meet the foreman wherever they have to start work, by 7 o'clock. Another proposition was to give the men Saturday afternoon all year round. In the course of his remarks Mr. Wheat styled the two solid weeks holidays in the summer as a white elephant on a working man's hands. Street Commissioner Jones will be consulted by the board.

Coal High in Price. Coal High in Price.

A state of affairs, rather out of the ordinary, was demonstrated when tenders for the city supply of coal were opened. The price per ton ranged from \$6.35 to \$6.50, according to grade. Hardwood was quoted at \$7.40 per cord, and soft coal ranged from \$3.30 to \$4.05. The controllers thought it wise to have a report from the Engineer before awarding contracts.

Are Hard Worked.

The Court of Revision want more salary. The members say that the they may not work all the time at the Hall, still ther time is entirely taken up by the work of the court and \$750 per year is not enough. Like all others who are after a raise in wages this spring, they referred to the high cost of living in Toronto. Controllers Louden and Richardson favored an increase to \$1000, but the Mayor dissented, as there was no provision in the estimates.

Doesn't Like It.

Doesn't Like It.

"That's an awful injustice, It's ande ent," said Controller Richardson in referring to the new act of the legislature fixing the election of the Board of Control by the city at large and striking off one member of council from each ward. "Yes," said Controller Oliver, "but you will have to stand it." Controller Richardson, however, preposes to fight it out in Council when it comes up.

The Massey Hall management made an offer to the board to the effect that if given exemption from taxation, they would go on with installing a \$35,000 organ and would erect a smaller concert hall at a cost of \$65,000, The Assessment Commissioner will report. Firemen's Clothing.

The board decided not to recommend the extension of the fire brick limit for the district bounded by Yonge, Belmont, Roboro and Avenue-road. Controller Louds thought the limits prohibiting the erection of houses renting at about \$15 here to large already.

Opp sed to Annexation, Assessment Commissioner Flemong wasked to report upon the advisability annexing the district bounded by Kingstread, Queen-street, 1200 feet north Queen, and Lee-avenue. He says there no advantage to the city to be gained such an acquisition. It would only me a competition for the vacant lands alread the city and which pay heavy taxes, would be much better to build up the cant land. Again, when new districts annexed, sewers have to be laid, and kinds of improvements gone on with, when benefits do not equal the outlary.

Contracts Awarded.

The contract for carting coal and ashes for the Wattrworks Department was awarded to James Findiay. The contract for paving York-street bridge went to W. F. Grant & Co., for \$9260.

The Warren Bitumizous Paving Company tendered on the pavement, but not for a block pavement as the specifications called for. They were desirous of laying a bitualitie roadway. This is laid in blocks composed of a mixture of asphalt and crushed granite and 4s claimed to be non-slippery. The company's tender was nearly \$500 less than for the block roadway, but the Engineer was dublous about laying a pavement of this kind on the bridge. The figures quoted were especially low, as the company is anxious to get the material introduced in Toronto. London, Kingston and other Ontario cities already have roadways of these blocks.

SCARLET FEVER IS SPREADING. Provincial Board of Health Sounds Note of Warning.

The annual meeting of the Provincial The annual meeting of the Provincial fire at once. Three volleys were board of Health was commenced yes charged. A terrific storm stopped terday morning at the Parliament end Buildings, and the feature of the day's enced by the authorities in dealing with contagious diseases. According to Dr. Bryce, the scarlet fever situation is most dangerous. The outbreak has been widesrpead and of a very severe nature, and the sate of most like. had found an effective way of dealing Northern Norway. with the scarlet fever and diphtheria outbreak there by using a tent as an isolation hospital.
