The market presented quite an animated appearance today, with the display of vegetables, seasonable fruits, such as apples, quinces and late grapes. CHICAGO.

Chicago, Oct. 23.—Wheat recovered from yesterday's panic in very short order, today's market displaying remarkable strength and prices regaining more than half their loss. Liverpool was the principal agent in bringing about the altered settlement. Instead of becoming demoralized at the news of our senstional slump, prices at that place declined only moderately. Traders here became encouraged that a general smash up was avoided, and some of the people who threw wheat indiscriminately at the close yesterday became sturdy buyers at the opening this morning. Many who went short of the market, finding the prospects of a recovery bright, covered freely. Generally speaking, there was a healthier sentiment all around. The greatest strength was noted near the close, a report of another cargo sold for shipment to Calcutta helping prices materially. December wheat opened from 72c to 72%c; sold between 714c and 734c, closing at 734c—23c higher than yesterday. Cash wheat was firm and 2c higher. Corn advanced let to 14c for May and 4c higher for cash, Provisions were higher.
