

SMART ARE THE HATS FOR SUMMER WEAR

AT the top of the page, to the right, is a hat of cherry-colored straw, smartly trimmed with cherries and cock plumes.

In the center, to the right, is a chapeau of blue satin, simply trimmed with white ribbon. Notice that the brim is wider than we have been wearing for some time.

Below this is a very stylish model of white straw, trimmed with gray ribbon and gray aigrettes.

On the left is a toque of black plumes and cell ribbon. A skirt of yellow duvetyne is worn by the central figure, and with it is worn a blouse of white crepe de Chine and a little pelerins of black satin. The aeroplane toque is trimmed with two pompons of clipped ostrich.
