LIFT OFF CORNS IT DOESN'T HURT

Get rid of every corn and callus for few cents

Drop a little Frezzone on an aching corn, instantly that corn stops hurting, then you lift it right out. It doesn't hurt one bit. Yes, magic!

Why wait? Your druggist sells a tiny bottle of Frezzone for a few cents sufficient to rid your feet of every hard corn, soft corn, or corn between the toes and calluses, without soreness or irritation. Frezzone is the much talked of other discovery of a Cincinnati genius.

AT FREDERICTON

Fredericton, April 9.—In order that the provisions of the bill amending the act relating to the right of soldiers to vote a civic and municipal elections should be applicable to the St. John primary elections on Monday, Lieutenant-Governor Pugsley appeared in the legislature this afternoon and gave his assent to this and thirteen other bills which were ready to become law. These bills form the first batch of completed legislation turned out by the house this year and there still is much ahead for the members. The number of bills introduced passed the century mark today, when several were added to the list, and of this number more than thirty are awaiting the consideration of the municipalities committee alone.

Assembly Chamber, April 9.—The house met at 3 o'clock.

Hon. Mr. Foster said that the lieutenant-governor had been informed of the subject matter relating to the manufacture of time stone for agricultural purposes and had recommended the same for the favorable consideration of the house.

Mr. Burchill presented the report of the committee on standing rules.

Hon. Mr. Byrne presented the first report of the law committee.

Mr. Mercereau presented the report of the committee on agriculture.

Hon. Mr. Roberts introduced a bill to amend the act relating to the registration of physicians and surgeons. He explained that the bill was being introduced by the New Brunswick council of physicians and surgeons who were anxious to eliminate cumbersome features of the act and bring it up to date.

Hon. Mr. Foster moved that consideration of supply be made the order of the day for Tuesday next at 3 o'clock.

The house then went into committee with Mr. Leger (West) in the chair, and agreed to a bill relating to the Sacred Heart college at Caraquet and to another providing for the incorporation of the village of St. Leonard's, and to give authority to acquire a system of water-works.

A bill to authorize and empower the Notre Dame Lumber Company, Limited, to erect and maintain booms and piers in the St. John River, a bill to amend an act to vest the property and trust of nautical bodies in a corporation and to provide for the dissolution of the New Brunswick Masonic Hall Company, and a bill to amend the act to incorporate the Miramichi Hospital were also agreed to. A bill to amend the schools' act section 10, and a bill to authorize the board of school trustees of the town of Chatham to issue debentures were agreed to with amendment. The bills were reported.

Mr. Murray (King's), in the absence of Mr. Sutton, introduced a bill to amend an act relating to assessment in the town of Woodstock; also a bill relating to sidewalks in the town of Woodstock.

KEEP URIC ACID OUT OF JOINTS

Tells Rheumatism Sufferers to Eat Less Meat and Take Salts.

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water. Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and are unable to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get on any pharmacy about four ounces of d Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

d Salts is inexpensive, harmless and safe from the acid of grapes and in juice, combined with lithia and with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, refreshing little water drink which overcomes uric acid and is beneficial to your kidneys as well.

THE PROVINCES AND EMPLOYMENT SERVICE

Minister of Labor Hopes the Maritime Provinces Will Act—Letter From Director Stewart.

In reply to an inquiry concerning the employment offices in the provinces Mrs. W. C. Good has received the following letter from the director of employment service, Ottawa:

Ottawa, April 6, 1920.

Mrs. W. C. Good, 40 Carmarthen street, St. John, N. B.

Dear Madam,—Your letter of the 31st inst. to the minister of labor has been referred to the undersigned.

In explanation of the present employment office situation in the maritime provinces I may say that the employment offices in all the other provinces are operated by the provincial governments.

As you are aware, under the British North America Act this function falls within the purview of the provincial governments and all the other provincial governments have stood upon their constitutional rights and have insisted that the establishment and administration of employment offices should be left to them.

The dominion government, however, was anxious to promote the better organization of the labor market as much as possible, especially in view of the demobilization situation, and accordingly the employment offices co-ordination act was passed in 1918, copy of which is enclosed, by which certain sums were set aside to assist the provinces in this work. The act requires that the distribution of the dominion government monies among the provinces shall be pro rata with their expenditures, but an additional sum has been provided to insure that the provinces shall in each case receive fifty per cent of their maintenance expenditure on employment offices. The total sum available for distribution to the provinces for the present fiscal year is \$250,000.

All the provinces, except the maritimes, have established their own employment offices and are receiving dominion government monies under the act. You will find enclosed a list of offices now in operation. The following

is a statement of the expenditures of the various provinces under the act for the fiscal year ending March 31, 1920:

British Columbia \$ 45,000

Alberta 40,000

Saskatchewan 30,000

Manitoba 50,000

Ontario 100,000

Quebec 20,000

The governments of the maritime provinces stated that they were not in a position to undertake the work and the dominion government, because of its responsibility to the returned soldiers, assumed this additional burden in as far as the maritime provinces were concerned and established offices in the leading cities and towns. This was done under the authority of an order-in-council passed under the war measures act, which enables the work to be carried on in the maritime provinces until April 30, 1920. This order-in-council, together with others under the war measures act, has of course been repealed and after April 30 there will be no legal authority for the continuance of the employment offices in the maritime provinces by the dominion government. It only remains therefore that the maritime provinces shall assume the same responsibilities that have been accepted by the other provinces. As has been indicated above, the work is entirely within their jurisdiction, and the dominion government has no authority to continue it.

The minister sincerely hopes that the province of New Brunswick will be able to make some provision whereby this service may be continued. Even if the impossible could be achieved and some authority could be gotten for the dominion government to continue these offices, such action would not be fair to the other provincial governments that are administering their own offices, and meeting fifty per cent of the expenditure.

May I hope that this information will be of some service. Please call upon me further if I can help you in any way.

Yours faithfully,
BRYCE M. STEWART,
Director of Employment Service.

Honesty in Quality and Value fuses the mutual interests of seller and buyer

"SALADA"

Sales are enormous, and ever increasing
Black Green or Mixed Preserved and sold only in Sealed Air-tight Packets—

A and B each own a 40-foot lot.

A has a \$2,000 house.

B has a \$15,000 house.

Both pay the same for paving in front of their houses.

Is this a fair proposition?

Vote NO on Monday.

We insist rather strongly on the industrial and non-philanthropic character of the government employment service. The function of the service is to supply employers with information as to where they can secure the labor they require, and to advise employers as to where they may secure suitable employment. We cannot understand why this should appear philanthropic. Governments maintain departments of agriculture to supply farmers with information as to the best seed to sow in certain kinds of ground, the most advantageous rotation of crops, how to combat diseases in plants and animals, etc.; mines departments tell mine corporations where they are most likely to find ore they seek; the weather service gives information about the weather; the naval service about the sea routes, shoals, etc. One could multiply examples. All this it should be noted is free. Why does government service become philanthropy only when it has to do with the employment of the worker?

As to proposed expenditure in your province, I find that the cost of maintaining the employment offices at St. John, Moncton, Fredericton and Bathurst is about \$17,000 per annum. The two smaller offices at Campbellton and Newcastle will cost about \$7,000, making a total of approximately \$24,000 for the six offices. This total does not include rentals, which I presume would be met by the municipalities as at present. The cost of all forms is met by the dominion government.

The minister sincerely hopes that the province of New Brunswick will be able to make some provision whereby this service may be continued. Even if the impossible could be achieved and some authority could be gotten for the dominion government to continue these offices, such action would not be fair to the other provincial governments that are administering their own offices, and meeting fifty per cent of the expenditure.

HART Battery—

As Soon As You
Get Your Car Out!

Equip with a HART Battery. Thirty years' experience has evolved a powerful battery that is really dependable. It is made in Canada (at St. Johns, Que.) and is adapted to meet Canadian needs from the British models.

For a quicker start, brighter lights, a better spark, and freedom from battery troubles, start the season with a Hart Battery.

Prompt service at all times.

THE CANADIAN HART ACCUMULATOR CO., Limited
Sole Office: Drummond Bldg., Montreal.
Works at St. John, Que.
SOLD IN TWELVE COUNTRIES.

ture. The minister feels sure that the provincial government will agree that workers should not be compelled to rely on commercial agencies. For your information I might add that the provinces of Manitoba, Saskatchewan, Al-

berta and British Columbia have passed legislation abolishing commercial agencies, and the province of Ontario has greatly reduced the number of commercial agencies and will probably abolish them entirely shortly.

Mid-Month List of Columbia Records

Jolson's "Swanee" Whistling Song

Al Jolson, exclusive Columbia artist, not only sings but melodiously whistles this song of longing for the South, his latest Sinbad hit. Coupled with "My Gal," sung by Frank Crumit, new exclusive Columbia tenor.

A-2884-\$1.00

Big 6" Saxophones "Buddha-Dardanella"

The Columbia Saxophone Ser-tette plays this rollicking, rhythmic record of the "Buddha-Dardanella" fox-trot, punctuated by the popping of the big brass saxophone, which sounds just like a kettle-drum. Coupled with "Limehouse Nights," a novel one-step by these exclusive Columbia artists.

A-2876-\$1.00

Bert Williams Has the Blues

"I'm Sorry I Ain't Got It, You Could Have It If I Had It" is the answer this exclusive Columbia artist always gets in this side-splitting song of the "Blues."

Easy on! Easy off!

WOMEN who drive cars need Tire Chains that are easy to put on and easy to take off. Chains that fit snugly. Chains that are sure to do their work in any emergency.

Dreadnaught

Tire Chains are used by the most experienced motorists, hence their enviable reputation.

Because of their growing popularity, the name and features of DREADNAUGHT CHAINS are now being imitated — not their quality and serviceability.

The "Just as Good" argument will not do for the motorist who knows. Therefore ask for Dreadnaught Chains.
