The season will see about 5,000,000 less go through the same number under the average, so that this year the number of feet that will make up the total for the season will be about 10,000,000 less than usual.

Up to September 1 the company had enjoyed a most satisfactory year's business with a gain of 13 per cent. in net profits, the increase in net for the eight months being equal to close to two per cent. on the \$3,000,000 stock. September and October to date have been rather poor months. It has been entirely a weather proposition and earnings for these two
