GOVERNMENT PLANS

Military Projects Include Militia School Here — Hudson Bay Railway Change

Ottawa, Dec. 14.—Colonel Hughes is proceeding with his programme for the militia. In addition to the new barracks at Toronto he also is preparing to promptly carry out the plans of his predecessor, Sir Frederick Borden, for new militia quarters at Montreal, Ottawa and other centres.

At Montreal \$200,000 will be spent on new barracks on the St. Lambert road, and last spring by the late government, a permanent corps will be established there.

The minister has also inaugurated a reform in regard to the annual schools of instruction for officers and non-commissioned officers. Hitherto these schools have been held at a comparatively few fixed points through the dominion, and in some districts the men have to travel considerable distances to reach them. Under the new arrangement the instruction will be given at the homes of the officers, and the men will be sent to the schools in small parties.

The first of the schools of instruction will open in St. John on January 1. Lieut.-Col. Hardin has been appointed inspector of arms and ammunition for the dominion—a new office.

The government has under consideration the enlargement of the Hudson Bay railway scheme to include an extension of the projected line westward from LaPaz, the present starting point of the railway, through Milford or some point in that neighbourhood to Saskatoon. The late government had this in view and would have eventually constructed a through line from Saskatoon to Port Nelson.

The minister of railways, Hon. Frank Cochrane, and the western members of the cabinet are understood to be impressed with the desirability of having the western terminus of the line at a central point in Saskatchewan, such as Saskatoon, where all the western lines converge, so that at LaPaz which now is only the terminus of what is practically only a branch line of the C. N. R.

PASTORS RESIGN

Rev. Mr. Rutledge, who has been pastor of the United Baptist church at Southampton for the past seven years, has tendered his resignation, to take effect after Christmas.

Rev. David Patterson is about to resign from the Oromocto pastorate to become pastor of one of the Baptist churches. The people of Oromocto will sincerely regret his departure. He will remove to Hamptonstead about the first of the new year.

Rev. James McClure has been pastor of the church at Harrowsville, N. B., for the last two years, will leave soon for McKeppert, Pa., to take charge of the church there.

"SALT RHEUM"

Had It On Hands For Two Years.

ITCHED SO DID NOT KNOW WHAT TO DO.

Tried Three Doctors and Went to Hospital.

All skin diseases are more or less occasioned by a bad state of the blood, and no one can expect to be free from some form or other of skin trouble unless the blood is kept in good shape. All skin diseases can be very easily cured by the wonderful Blood-Cleansing properties of Burdock Blood Bitters. This is due to the universal purifying action of Burdock Blood Bitters on the blood, coupled with the thoroughness in which it cleanses and expels the impurities from the body.

Mrs. Richard Couture, White Head, Que., writes: "I have been bothered with salt rheum, on my hands, for two years, and it itched so I did not know what to do. I tried three doctors, and even went to Montreal to the hospital without getting any relief. I was advised to try Burdock Blood Bitters, so I got three bottles, and before I had the second used I found a big change, and now to-day I am cured."

Burdock Blood Bitters has been on the market for about 35 years and is manufactured only by The T. Millard Co., Limited, Toronto, Ont.

HOTEL LIQUOR CASE

Statements of Interest by Court in Imposing Fine of \$5

That all barrooms must be exposed to full view from the streets was the judgment given by Magistrate Ritchie in the police court yesterday afternoon in which he found the Dufferin Hotel guilty of a violation of the liquor law in this respect and imposed a fine of \$5. In giving his judgment the magistrate laid down the principle that the present liquor license law, unlike the old, made no distinction between an ordinary liquor saloon and a hotel bar. There was but one law for both and that law made it necessary for the bars to be so placed and constructed that citizens passing through the streets could get "not a half a quarter, a part, but a full view of them."

As the proprietors of the Dufferin Hotel were guilty of a technical violation of the law, he said, he would not impose the full penalty of the law on them but would merely impose a fine. He pointed out that for every day a liquor license business was not conducted according to the law—that is, not having the barroom exposed to full public view—the proprietors were liable to a fine of \$5. The fines in the run of a month would aggregate \$150. He said that in future those who did not carry on their business in accordance with the law would have to look out.

"Why should there be a full view," the magistrate asked. In answering his question, he said: "The sensible, reasonable and legal answer is that in order that the father, brother, wife, sister and employer might be able to see the man, father, husband, brother or employee in the bar. Moreover, in order that an interdict or drunkard may be seen in the bar. If that is the intention nothing can be accomplished unless there is a full view of the bar." The law was not passed for mere idle curiosity. In addition to affecting the liquor dealer it also had a pathetic side to it, since it is in the interest of the home, order and sobriety.

In referring to this the magistrate said: "Sometimes ago a liquor dealer sued a man in the city court for liquor purchased. The liquor dealer showed where the man purchased sixty cents worth of liquor one day, forty cents another day, and like amounts. I inquired of the liquor man if he knew whether or not the man had any income and he replied yes. I then asked him if his income amounted to \$300 and he replied no. Well, I said, I receive \$300 and I cannot afford to be spending money in rum. I trust then that a law will be passed making it impossible for a liquor dealer selling rum on credit, or for a promissory note, or the like, to enforce the payment of it."

The case against Mrs. Elizabeth Cronin, charged with having two doors in her bar in German street was heard in the police court yesterday afternoon. H. D. Forbes appeared for the defense and A. A. Wilson for the prosecution. The matter was allowed to stand over until two o'clock to-day.

WHOLESALE PRICES WERE FIRM

The Canadian department of labor index number of wholesale prices for November shows that about the same level was maintained during the past month as in October, though prices are considerably higher than at the same time in 1910. The index is 130.8 for November, compared with 129.7 for the preceding month, and 129.0 in November 1910. Over two hundred and fifty articles, carefully selected to represent the entire field of Canadian produce and consumption, are included in these calculations.

The numbers represent in each case the average of the average prices of the prevailing during the decade 1880-1890, the period selected as the standard of comparison. The detailed figures show that the chief feature of the price movement during November was a continuance of the upward trend of grains and dairy products, with a drop in animal and meat. Miscellaneous foods, especially canned goods, flour and sugar, were higher, but textiles were slightly lower owing to a fall in cotton. Under paints and oils, turpentine dropped, but linseed oil advanced. Pulp and rubber were lower.

SUSSEX ELECTIONS.

Sussex Record.—There have been no new developments in civil election matters during the last week. So far there is only one fight in sight, that for Alderman-at-large. It is hardly likely that there will be any further nominations for the ward seats or for mayor.

WHOLE TOWN UNDER A ROOF

Two Hundred Flats and 300 Bachelor Apartments and 1000 People

London, Dec. 14.—An immense building to be erected at Clapham Junction. This building is to be in itself a town, and the architect, J. S. Gibson, has explained the scheme to a representative of the London Standard.

There are two tendencies observable, he says, in the cities of today. One is for people to live in great masses in large tracts of country, the other is for them to be gathered together in immense buildings near their work. The Clapham scheme is to carry out the latter alternative.

There is at present no great distributing center for the south of London. People have at present to go to Covent Garden market. Clapham Junction, with all its converging railway lines, is an excellent spot for a center and the sub-basement of the buildings will be a great market that will serve the whole of South London. The London and North Western railway is to run a siding right into the building so that there will be every facility for the cheap and speedy centralization and distribution of supplies.

Above the underground market there will be an arcade running right round the building with large shops on each side. It is hoped that a universal store, such as Harrods, or Whiteleys, or Selfridges, may take the shop floor.

Above the shops will be five floors containing 200 flats, ranging in size from two to five rooms, and 300 bachelor apartments of one room each. Each flat will have its own telephone and its own bathroom. At the top of the building and covering its entire area, will be a glass-covered roof, garden, with a skating rink, children's playground and band stand. The center of the building will be occupied by club premises for men and women, with restaurant, gymnasium, concert hall and other rooms. The rooms will be let furnished and the rent will include membership of the club, electric lighting and heating and the keeping of the rooms clean and in order by the building staff of attendants.

The rent will average about 12 shillings (\$2.88) a room with a reduction in the case of the large flats. It is calculated that 1,000 people will live in this building, which will be commenced in about two months' time. The cost of the structure itself will be \$850,000 but this will not include the furnishing of all internal fittings. This is the first building of its kind to be erected in any city of the world.

Remember, you obtain it only at my store—The Reckall Store, 59 St. Wason, 100 King Street.

C. P. R. DESPATCHING BY TELEPHONE IN WEST

Calgary, Alta., Dec. 14.—The entire Canadian Pacific railway, west from the great lakes to the Pacific coast, will be equipped with a telephone train despatching machine within a short time, and before a few weeks have passed that portion of the line between Swift Current and Pelly will be operated by telephone train despatching apparatus.

At the present time all the dispatching on the main line between Calgary and Pelly (R. C.) is being done by telephone. The system is working splendidly and it is the intention of the company to project the telephone lines east, to Medicine Hat, where it will connect up with the link and in operation between that place and Swift Current.

Other lines are now in operation in British Columbia, and the line between Swift Current and Winnipeg is being connected up, according to General Superintendent Price.

The Weak, Lame, Aching Back Comes From The Kidneys.

Those who have never been troubled with kidney trouble do not know the suffering and misery which those afflicted undergo.

On the first sign of backache Doan's Kidney Pills should be taken immediately so as to avoid years of suffering from kidney trouble.

They go right to the seat of the trouble, heal the inflamed lining of the kidneys and make them perform regular and natural duties.

Mrs. Joseph Thompson, Upper Grant St., N.B., writes: "I cannot speak too well of Doan's Kidney Pills. For two years I was so tired and so lame I could hardly get up. I took different kinds of medicine, but none of them did me any good until a friend advised me to try Doan's Kidney Pills. I did so, and to-day I don't know what it is to be tired, and my lame back is all gone. I can recommend them to any person suffering with lame back and that terrible tired feeling."

Price 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Millard Co., Limited, Toronto, Ont.

When ordering direct specify "Doan's."
