

INVASION OF PORTUGAL BY WAY OF SPAIN

Movements of Royalists Are Assuming More Threatening Aspect

Officers of Republic Stoned Amid Cheers for Church and Monarchy—Haytien Ports Closed Because of Revolutionary Outbreak There

(Canadian Press) Lisbon was today a hot and noisy city. An invasion by Captain Couceiro at the head of the Royalist forces appears imminent. All attention is now fixed on the north. The Portuguese monarchists possess thousands of rifles of the latest pattern smuggled into Galicia, Spain, from Normandy and Belgium and also many field guns and Maxim's.

When a detachment of the 20th regiment arrived at Guimaraes where it had been sent as a precautionary measure to prevent outbreaks, the soldiers were greeted with hostility by the people, who jammed the streets and cheered for the church and the monarchy.

Army officers who tried to harangue the populace were stoned with a mob and forced to seek refuge in the house of Governor Salgado which was immediately surrounded and besieged until reinforcements arrived. Advice from Coimbra reports street fighting there as a result of counter demonstrations. Many persons were injured.

The monarchists remain on the Spanish frontier conspiring against the Republic notwithstanding the continued assurances of the Spanish government. The socialists daily hold military drills and rifle shooting.

Influential opinion is convinced that the Spanish government is secretly protecting Portuguese plotters in Galicia and the press has begun a bitter campaign against Spain, alleging bad faith.

The government is anxious. It is difficult to obtain details of what is transpiring on the frontier. The newspapers are not permitted to publish anything sensational.

Port Antonio, July 21.—(Canadian Press) The government has proclaimed a blockade of the ports of St. Marco, Gonaves and Port Liberté. Having only one ship at its disposal, however, an effective blockade is impossible. The order for the bombardment of St. Marco and Gonaves has not been carried out, and the cruiser Antiope Simon, now anchored here, is being used to shell the coast.

General Septimus Marins, the minister of war, who failed to resign after his dismissal from office, has been dismissed from office. War reaches here that the pillaging of the island has been stopped by energetic measures taken by the revolutionary committee. The American, German and Italian legations have made urgent requests for warships to Haiti for the protection of their interests.

CITY AND PROVINCE TO OFFER HALF A MILLION DOLLARS FOR SHIPYARD?

Conference of Those Interested Here Said to Have Resulted in Determination to Make Strong Bid for Plant to Build Canadian Naval Vessels in St. John

It has been found necessary to deny once more an authority that the location of the Canadian ship-building plant had been decided. The Times several weeks ago pointed out that the tenders had not yet been dealt with and until they were the question of location could not be settled. There is still a possibility, therefore, that St. John may get the big shipyard. That is naturally the desire of the business and public world, but something will obviously depend upon the action taken by the city and province. For example, the Nova Scotia government are prepared to give something like \$500,000 to get a ship-building plant, and \$200,000 to get a ship-building plant, and \$200,000 to get a ship-building plant.

This aspect of the case has not, however, been overlooked, and as the erection of a great ship-building plant at St. John would involve such a great expenditure, and give employment to such an army of skilled workmen, it is recognized that the province as well as the city is interested. Hence there has been a conference of civic and provincial representatives, and the whole question has been considered. In view of what other ports are doing, it would not be surprising if the city and province announced their willingness to grant a quarter of a million each, or half a million in all, to ensure the establishment here of the plant that will construct the Canadian naval fleet. There is what an English engineer has described as an ideal site beside the proposed site of the ship-building plant will be heartily endorsed by the people.

It is understood that at a recent conference the proposal to make the city and provincial grant was in the neighborhood of half a million was favorably considered. The opponents of the early closing by-law are gratified at the decision of Judge Ritchie, delivered yesterday afternoon and the promoters are correspondingly cheered.

M. E. Grass, who was active in support of the early closing, speaking of the decision this morning, said that the promoters were of the opinion that the decision of the council had postponed action on the by-law pending the decision of the cases before the police court, and now the decision has been given it is the place of the council to move.

The legality of the provincial act had not, he said, been called in question. The act was similar to the Manitoba statute which had been sustained after an appeal to the supreme court of Canada. The standing cannot be altered by the act, he said, but it might be nullified only by an appeal to the provincial court.

The error, according to the decision of Judge Ritchie, was in a disgression of the city by-law from the provincial act in that it was based. The elimination of imprisonment as an option to fines and placing the prosecution in the hands of the chamberlain were cited as cases where the original act was departed from in a material degree. He commented on the fact that the by-law had not been brought to a referendum, and that the promoters of the early closing had not been consulted.

Several persons expressed themselves of the opinion that the council should have repealed the law, while others were strong in the opinion that it should be enforced. The decision of Judge Ritchie yesterday set aside several cases, but it was pointed out that the decision was not a precedent for the future.

It would be another matter to bring before the court a case which would nullify the by-law, and it was pointed out that the decision of Judge Ritchie was not a precedent for the future. The decision of Judge Ritchie was not a precedent for the future.

TEN ROUND BOUT TO BE FOLLOWED BY LONG DISTANCE ONE

Wolgast and McFarland Have Signed—Matt Wells Wins in Contest With Hyland in Albany—Late Sport News

Chicago, Ill., July 21.—(Canadian Press) When representatives of Ad Wolgast, lightweight champion, and Peaky McFarland, of Chicago, signed articles last night for a ten-round bout in Milwaukee on September 18, it was agreed that they should meet in a contest for twenty rounds in more in California some time before the first of the year.

McFarland has agreed to accept \$10,000 as his share of the purse in the Pacific coast contest. Albany, N. Y., July 21.—(Canadian Press) English lightweight champion, won a popular decision over "Fighting Dick" Hyland of California in a fast ten round bout last night. Wells led the lead in all but two rounds, the seventh and eighth, when Hyland had an advantage by landing hard body blows.

Porter, Ore., July 21.—(Canadian Press) Former lightweight champion, won a popular decision over "Fighting Dick" Hyland of California in a fast ten round bout last night. Wells led the lead in all but two rounds, the seventh and eighth, when Hyland had an advantage by landing hard body blows.

New Haven, Conn., July 21.—The scoring of an aggregate of five runs by the six teams of the Connecticut baseball league in the four games of yesterday and the fact that each winning team hit its opponent for a home run by followers of the game here to have established a new record in baseball.

BODY OF 'LONGSHOREMAN' FOUND IN WATERS OF HALIFAX HARBOR

Mystery of Disappearance of Leo Murphy is Solved—Brother Identifies Clothing

Halifax, N. S., July 21.—The body of Leo Murphy, whose disappearance nearly two weeks ago, caused much anxiety to his relatives, was found this morning in the Plant Line dock, badly decomposed. It was unrecognizable, in fact, but a brother identified the clothing and a membership card in the 'longshoremen' union was found in a pocket of his coat.

On the evening of July 8 he left the house, and when he failed to return, his brother, who had left the Plant Line wharf, where he frequently worked, observed. His brother said this morning there could have been no reason for any but accidental death.

A NOTED MISSIONARY

Dr. Baldwin Dead at Age of 91—Half Century in the Work in China

East Orange, N. J., July 21.—(Canadian Press)—Rev. Dr. Caleb Cook Baldwin, who passed half a century as a missionary at Foochow, China, and for whom the Baldwin library was erected in that city, died at the residence of his son here from infirmities incident to his advanced age.

He was born near here in 1820. Ten children were born to Dr. and Mrs. Baldwin in China and it was necessary, owing to the hostility of the Chinese, to build a wall of masonry around their home for the protection of the first child, who is now Mrs. Harriet Gerry of East Orange.

VOTED DOWN SCHEME OF A GENERAL STRIKE IN CANADA AND STATES

Yet 124 Delegates at Miners' Meeting Cast Ballots for Such Action on Day of McNamara Trial

Butte, Mont., July 21.—(Canadian Press) The proposal to declare a general strike in Canada and the United States on the day of the trial of the McNamara brothers in Los Angeles, was voted down 124 to 128, after heated discussion at last night's session of the conference of the Western Federation of Miners.

It was finally voted to levy a monthly assessment of twenty-five cents on each member, the assessment to continue as long as the executive committee should deem necessary for the purpose of a defence.

INDUSTRIAL AND LABOR CONDITIONS VERY SATISFACTORY

Prosperous Conditions in all Branches of Manufacture in Canada Reported—Review for Last Month

Ottawa, July 20.—Very satisfactory industrial and labor conditions in Canada, as reviewed by the July Labor Report. In its general summary it says: There was general activity in nearly all branches of industry throughout Canada during the month of June. Prospects of an abundant harvest continued to be exceptionally good, sufficient rains have fallen during the first two weeks of the month to insure every prospect of good yields. While the coal-mining industry in Alberta and eastern British Columbia was impeded by labor disturbances, there was on the other hand, exceptional activity in the coal mines of Nova Scotia. In all branches of manufacture prosperous conditions prevailed, and arrangements were being made for the establishment of many new industrial undertakings.

The general tone of the lumber trade was healthy. Unskilled labor was well employed, railway construction absorbing a large number of men. Generally speaking all classes of labor were well employed, except in a few instances where the supply of labor generally equalled the demand, though arrangements for the additional help which will be required later in the season had not been completed.

Returns of immigration, trade and transportation, continue to show large increases over those of the preceding year. The number of trans-Atlantic passengers to have been in existence in Canada during June was twenty-seven, a decrease of seven compared with May, but an increase of nine compared with June, 1910.

About 298 firms and 15,010 employees were involved in these disputes. About 160 firms and 8,071 employees having been involved in new disputes of this month. Industrial accidents occurring to the individual work people in Canada during the month of June, 1911, were reported to the Department of Labor, of these eighty-two were fatal, and 110 resulted in serious injuries.

NEW YORK STATE PEOPLE TO MOVE TO PRAIRIE PROVINCES

Toronto, Ont., July 21.—(Canadian Press)—From the number of inquiries about western railway rates and about western lands, it looks as if the Canadian prairies will soon have a strong influx of settlers from New York state. This assertion was made yesterday by R. L. Thompson, district passenger agent of the C. P. R.

He showed files of letters asking information about the prairie and many of the correspondents expressed their intention of moving westward in the near future.

ARREST BALLETT DANCER IN ST. PETERSBURG AS SPY

CANADIAN IS SECOND TO OXFORD MAN

Silver Medal in Second Stage in King's Prize at Bisley

(Canadian Press) Bisley, July 21.—Private Gerard of the Oxford University Corps, won the silver medal offered for the highest score in the second stage of the King's prize competition today. His aggregate for the two stages was 103 out of a possible 208. Corporal Trainor of Canada, winner of the first stage, was second with a total of 102.

London, July 21.—Some of the London morning papers are beginning to express uneasiness at Germany's rumored demands of territory in the French Congo, and for a sphere of influence in Morocco, while they are inclined to believe that the rumor exaggerates the real demands, they point out that if it is true Germany's attempt is suspiciously provocative.

The option also is offered that Germany's intention is to test the strength of the Anglo-French entente or endeavor to drive a wedge into it, and the government is counselled to stand firmly by France.

Cardiff, Wales, July 21.—Five hundred Llanabryne fusiliers arrived here today and occupy the buildings in the dock district. There was rioting by the shipping strikers throughout the night. The streets are strewn with wreckage and the hospitals are filled with the victims of mob violence. Efforts are being made to open negotiations between the shipping men and the strikers in the hope of reaching a settlement.

Cardiff, Wales, July 21.—(Canadian Press) The strikers yesterday held up wagons loaded with the belongings of the police, and after overpowering the police, turned the wagons in a side street and looted them. The wagons were filled with much valuable booty in the form of furs and typewriters, and when they did not wish them they burnt them.

There are 6,000 idle seamen and dockers in Cardiff and 100 ships are detained in the harbor.

CANCER STILL Baffles SKILL OF PHYSICIANS

Small Progress Made in Efforts to Combat the Scourge—Experiments Not a Success

London, July 21.—(Canadian Press)—A report of the Imperial Cancer Research Fund yesterday disclosed the fact that small progress has yet been made in the experimental laboratory in combating the scourge. Sir William Selby, Church, president of the Royal Society of Medicine, said that methods for preventing the occurrence of cancer had been tested on mice affected by spontaneous cancer and had given "no evidence of power either to hinder the growth and the dissemination of the disease or to prevent recurrence of spontaneous cancer after the removal of the primary tumor."

Some methods by which other investigators said they obtained immunity against protracted cancer with vaccines and serums had been tried in the laboratory but the results had not yet been successful. Dr. Balfour offered evidence that the cancer cell is a modification of the normal cell.

SLAVE GIRL WHO BECAME A POWER AT KOREAN COURT

Seoul, Korea, July 21.—(Canadian Press)—Lady Om, consort of Emperor Yi Hui, who abdicated in 1907, died yesterday. She was a palace politician of great skill. She was attendant upon the Queen of Korea, who was murdered. She gained the favor of the emperor and was finally compelled to flee from the palace. After the death of the queen she was restored to the court with the rank of an imperial concubine. This conferred imperial rank upon her two children. She was originally a slave who became a power in the court.

WEATHER BULLETIN

Table with columns: Max, Min, Dir, Vel. Rows for Toronto, Montreal, Quebec, etc.

Forecast—Moderate south and south west winds, a few local thunder storms, but mostly fair and warm today and on Saturday.

Synopsis—Moderately warm from Ontario to the Maritime Provinces, and cool in the eastern provinces. To Banks American ports, moderate south and south west winds with considerable fog.

Lightning sets fire to great gas well

Chatham, Ont., July 21.—(Canadian Press)—Lightning struck a gas well on the farm of Joyce Bros. near Merin, last night, and ignited the gas.

The fire could be heard for miles, and the illumination was so bright that a newspaper could be easily read a half mile from the burning well. The gas is still burning in a gigantic jet.

A GREAT GAME TODAY

The Shamrock grounds have been selected as the scene of conflict between the team from the street railway and the Royal Hotel nine for this afternoon's sparring contest. Each is confident of victory, but the only question is as to how many innings they can last. A search has been going on quietly for the man to offer himself as a sacrifice in the umpire's box, and it was said today that one had been imported from Saginaw.

For the Royal's the following is the lineup: Carpenter, catcher; McEugan, pitcher; Burns, 1st base; Moore, 2nd base; Gibbons, 3rd base; Robinson, shortstop; Short, left field; Kane, centre field; Phinney, right field. The car men will be captained by Tyranka Cobb Wayne, and are relying on the strength of Johnny Evers (manager) on second to help them too. The lineup will be: McKel, c.; Cormier, p.; Wayne, 1st; Ramsay, 2nd; Mackin, 3rd; Heatley, s.; Humphreys, r. f.; White, l. f.; and Summerville, o.

King's thanks to St. John

At the mayor's office this morning the following letter, which is self explanatory in answer to the cablegram sent by the common council conveying a message of loyalty and goodwill from the people of St. John was received.

Dear Sir:—Referring to your cablegram of the 21st ult. and to my acknowledgment before you of your message daily received and read with interest and appreciation. Believe me, Yours very truly, (Sgd) STRATHOONA. JAS. H. FRINK, Esq., Mayor's Office, St. John, N. B., Canada.

Water service

Peter Clinch, secretary of the New Brunswick Board of Fire Underwriters, and Edmonton to look over the water systems being installed in these places for the purpose of formulating a tariff, has returned to the city. Mr. Clinch says that the work is going on satisfactorily, but that there could be no tariff until the system was completed. In both places, he says, the operations are of an extensive nature, there being pipe and hydrant system with elevated reservoir and pumps. It will be a year, he says, before the work is completed.

THE TIMES' NEW REPORTER

A YOUTHFUL SKEPTIC

The Times' new reporter discovered a boy sitting in a doorway on a side street this morning reading a book entitled: "Jimmy the Terror on the Big Was Up."

"Do you ever go to the playgrounds?" asked the new reporter.

"No," said the boy. "Only kids goes there. Notin' but swings an' teeters. Can't play ball—can't do anything. Them grounds is only for kids."

"Is that a very interesting story?" asked the new reporter.

"New! no good. I've read ten pages and there ain't nobody killed yet."

"I suppose you know," said the reporter, "that the mayor and aldermen are going to fix up a big playground, where you can play base ball, football, tennis, cricket and all the other games, with an outdoor gymnasium and all that sort of thing?"

"The boy passed at the new reporter for some time without saying. Then he said: "Live home, and you'll get grass."

"Then he returned gravely to a perusal of the thrilling story of Jimmy the Terror."
