

Triumph in Horse Surgery.

Success of Griffith G. Williams, M.D., at Utica, in treating and saving a valued horse that had a broken hock, proved to be complete, and is highly instructive to the profession, and a no little discussion among the horse men of the country. The horse was a black mare that made her mile in three minutes, and of such a disposition that women and children were afraid to ride on her. She was valued at \$1,000, not so much for her speed as for her rare qualities. A twist in the hock broke her right hind leg between the hock and the gambrel joint. The horse was in a very bad way, and the veterinarian who attended her was killed by the animal. The mare was slung up in a blanket, and precisely the same operation was performed on the hock as was done on the limb of the injured horse. The bones were carefully in position, the limb was dressed, and then set in plaster. The animal could bear her weight, and in seven weeks she was able to walk. At the expiration of three months she was considerably enlarged, and there were not wanting evidences of the limb's weakness. The mare was sold to a gentleman who was widely commented on at the time, and the prediction of those who were given as to the result of the operation was unfavourable to the mare. The New York sporting journals and other papers expressed the opinion that the mare would not be able to bear her weight, and that she would be a burden to her owner. The mare was sold in March, 1876. The mare was visited by the Utica Morning Herald, and she was found to be in a very good way. THE GREAT CAUSE OF HUMAN MISERY.
We have recently published a new edition of Dr. CULVERWELL'S CELEBRATED ESSAY of the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc. resulting from excesses.
Price, in a sealed envelope, only 6 cents, or two postage stamps.

The celebrated author in this admirable Essay clearly demonstrates, from thirty years successful practice, that alarming consequences may be radically cured, without the dangerous use of internal medicine, or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.
This Lecture should be in the hands of every youth and man in the land.

Parks' Cotton Yarns!
Awarded the Only Medal Given at the Centennial Exhibition
For Cotton Yarns of Canadian Manufacture.
No. 15's to 10's.
WHITE, BLUE, RED, ORANGE and GREEN.
Made of Good American Cotton with great care
Correctly numbered and warranted Full Length and Weight.

WE would ask the purchasers of Cotton Yarn to remember that our Yarn is spun on Throsping Frames, which make a stronger Yarn than the Ring Frames, used in making American Yarn.
It is also better twisted and more carefully reeled; each hank being tied up in 7 leas of 120 yards each. This makes it much more easy to wind than when it is put up without leas - as the American is - and also saves a great deal of waste.

Those acquainted with weaving will understand the great advantage it is to them to use yarn put up in this manner.

COTTON CARPET WARP.
Made of No. 10 Yarn, 4-Fly Twisted, &c.
WHITE, RED BROWN, SLATE, &c.
All fast colors.
Each 5 lb bundle contains 16,000 yards in length and will make a length of Carpet in proportion to the number of ends in width.
We have put more twist into this warp than it formerly had, and it will now make a more durable Carpet than can be made with any other material. Since its introduction by us, a few years ago, it has come into very general use throughout the country.
All our goods have our name and address upon them. None others are genuine.
