FIGHTING THE PLAGUE 00.88 Health Officer Tells of Some of the

Troubles He Met With in India.

A gentleman who has been engaged as a health officer in India, tells the following story of fighting the plague in

lagers who furnish the soldiery and cul-tivate the vast grain-producing areas which constitute this province. Apart from purely humanitarian reasons, it is obviously of the greatest importance to lieved the exhausted crew, and soon exput an end to the serious mortality which | tinguisaed what remained of the fire. s proceeding among such an important The damage has not been estimated. class, and it was to this end that a special campaign was entered upon by Punjab government a year or two back.
One or two civil servants and a medical officer were told off to each district, aided by English medical officers specially engaged. It was the duty of certain of these officials to visit villages reported as newly-infected, and satisfy themselves as to the presence of plague, to ascertain how it was introduced, and to endeavor to limit the spread of infection.

and its usual unreliability when furnish bet nor has he asked for it. It is undered formed initial difficulties. The villager is a hard-working but ignorant agricultural laborer, and, except in villages of considerable size, he has no cognize mild cases of plague, and many severe attacks are put down to "fever."

Indifference, fatalism, and a natural bias in towards concealment also contribute to a delay in reporting the outbreak. Spreading Disease. One of the means of spreading the disease between the villages is the habit of women going to condole with the relatives of a friend dead of plague. They

will sit in the hut with the corpse, and then convey plague to their own village Much is laid to the door of the rats and one was often told by the natives that they had noticed the death of the rats before the first human case occurred The spread of contagion within the village itself is simple. A village consists of clusters of huts of sun-dried mud, ventilation, and separated by narrow people "burrow," regardless of infection, the island of Sakhalien and Kamtchatka and dust and flies are everywhere to assist. The plague officer has often to dis-

Chicago. "If at any time any change of policy nounced. We believe the strike should be confined to Chicago, and to as few men in Chicago as is possible.

"The general executive board is hope ful that peace will soon be established but any peace must be on honorable terms so far as the strikers are concerned. However, there is no intention on the part of the executive board or the While numerous small riots occurred to-day, the leaders of the teamsters' strike

The action of the building trades last night in withdrawing from the teamsters sion among some classes of women was also a difficulty though occasionally one was able to overcome this by private building trades, and demanded to know what the representative building trades, and demanded to know what the representative building trades, and demanded to know what the representative building trades, and demanded to know what the representative building trades, and demanded to know what the representative building trades, and demanded to know what the representative building trades, and demanded to know what the representative building trades are the representative building trades and the representative building trades are the representative building trade teamsters in the thickest of the fight. It was made plain to the teamsters that in the opinion of the building trades the drivers had overstepped their jurisdiction in causing members of their union to do constructive work. The particular cause of the complaint was that team sters employed in handling safes and vaults had placed the safes in buildings, This part of the work, the huilding trades contend, belongs to the builders. Several new efforts were made during the day to settle the strike, but none of them amounted to saything.

It is admited by the labor leaders that critical stage in the strike is at hand. The associated building trades having withdrawn both moral and financial sup port from the teamsters' cause, the first effect will be to cut off nearly \$1,000 a week from the strikers' funds.

TRAIN ROBBER CAPTURED.

Engineer and Express Messenger Re warded By Railway Company.

St. Paul. Minn., May 28.-Express Messenger Laub and Engineer Wilson to-day received \$1,000 each for capturon the Northern Pacific near Bearmouth, Montana. The robber had When the crew responded to the alarm it was found that it would be impossible to reach the fire without shifting the measures to grasp the extreme difficulty attendant upon attempts to control the spread of plague in India. My own experience of plague measures was recently obtained in the Punjab, among the villagers who furnish the soldiery and culold-up of the same train near Bear-

General Manager H. J. Horn, of the Northern Pacific, to-day received the details of the hold-up, as follows: "Northern Pacific north coast limited was held up about midnight two miles east of Bearmouth, Montana, by one man. After ordering the express messenger out Is Spending a Few Days in Paris—Has
