There are prospects of two cheese factories being in operation in this parish next summer. One is being built at Elgin and the other at Pleasant Vale.

Owing to unfavorable weather the farmers have done very little ploughing this fall, which they will find against them next spring.

CARLETON CO.

WOODSTOCK, Nov. 18.-There can be no doubt that the parties who are interested in the silver discovery in the heart of the town are in earnest, and think that they have struck it rich. It is something over three weeks ago that W. H. Lawrence of Keswick came here and began chucking up the dirt almost directly in front of the door of the Woodstock wood working factory. He found that he had made a mistake as to the exact location of the vein, and started a new hole some few feet distant from the first that he had opened. Here he found the vein that he was after. Something tike one hundered nounds of the open was telescoped and sixty six dollars, was last week effected on the lumber cut of dred pounds of the ore was taken out, and sent to Montreal to be assayed. Word has been received by Ed. Greer, who is interested in the work, having been the original discoverer, that the ore taken out contains silver, and sold enough to contain silver. and gold enough to pay for work-ing it well. Digging somewhere in the same vicinity resterday Mr. Greer struck water some seven feet below the surface, which spurted out of the vein. He has taken out a couple of hundred pounds of ore, more, and will forward fit at once Ore has also been taken from otther parts of the town, where the vein runs. Naturally the sceptics are more numerous than the believers in the successful outcome of this discovery, but it is a matter which will soon be settled one way or the other.

At the annual meeting of the Carleton Co. Agricultural society the following officers were elected; C. L. Smith, M. P. P., president: Samuel Watts, 1st vice-pres.; Chlas. P. Buel, 2nd vice-pres.; C. R. Carman, secre-tar.; Chas. Appleby, auditor. It is fully the intention of the society to work for a county exhibition next fall, and they expect to get a govern-ment grant for the purpose if the societies within the county will join in seeking the desired aid.

Wm. Dibblee, police magistrate, gave his decision this morning in the case against D. McGaffigan of Florenceville, charged with having tobacco for sale in his store which was not in the covers in which the tobacco reached there. Mr. Dibble records a conviction, while at the same time he expresses the opinion that the clause in the inland revenue act under which the information is taid was not intended to cover cases like that of Mr. McGaffigan's, who never dealt in contraband tobacco, and where the tobacco was only removed from the covers for convenience. It is under-stood that the magistrate has repre-sented his views to the department, with the hope of having McGaffigan's fine remitted and his setzed tobacco

town yesterday afternoom by the ar-rest of a young man who had to be handcuffed before he could be taken handcuffed before he could be taken to jail. The story appears to be that the youth volunteered to give information as to illegal fiquor selling, and received from the Scott act prosecutors money wherewith to secure the liquor. At the same time he promised to give evidence against parties implicated. It was found that he with two chums who were also en with two chums who were also engaged as informers were about to play a slip-out game, and having secured the money make themselves scarce. The inspector, it appears, got on to their game and had the informforcibly arrested. He was taken to er forcibly arrested. He was taken to jail with some difficulty, and lies there till his evidence is needed. His two "pals" have skipped the town.

CHARLOTTE CO. GRAND MANAN, Nov. 13.-The 10th Grand Manan boat club for their annual race for the club's cup. It blew a gale from the northwest and only one of the boats put in an appearance, the Ethel and Carrie, owned by Albert Wooster, and built by Alward Harned of St. John. Despite the heavy wind and rough sea, she sailed over the course in two hours, four and one half minutes, breaking all previous records over that course, showing fine racing and sea-going qualities. She still holds the cup against all comers. She carried a three-reefed mainsail and two-reefed jib. Captain Judson L. Guptill, jr.'s boat, Arminta, also sailed over the course on a wager, but was not in it for speed and endurance with the Ethel and Carrie. Capt. Warren Cheney's boat Giaour fouled with a vessel and had her sail

badly torn on the same day. Herrings are very scarce in the weirs now, and are selling for Klondyke prices, when large enough for bloaters or barrelling.

WESTMORLAND CO.

MONCTON, Nov. 19.—There is no doubt that Father Bradley, whose lealth was reported on Wednesday, set in his room. Father Bradley was in the habit of reading after retiring, and it is supposed he fell asleep and left the lamp burning, which set fire in some way to the bed clothing. He had got up, but was unable to make his escape from the room. Intelligence has been received of the

attempt to murder Dr. P. R. Moore, formerly of Sackville, now of Los Angeles, California. The would be murderer was a boy named Glover, 15 years of age, who was acting as guide for the doctor and brother, who were out shooting. Glover purposely separated the doctor and his brother and shot the doctor in the head. He admitted that the motive was robbery. Dr. Moore will, it is thought, recover, Gaius Wright, farmer and scowman, arrested for alleged forgery of his brother's name to a note on complaint of Abraham Wilbur, was today released from custody, it appearing that he had his brother's authority to sign his name. Hours.

Geo. W. Platt, Manager "World's" Newspaper Agercy, Toronto, says: "I am at a loss for words to express my feelings of sincere gratitude and thankfulness for what South American Rheumatic Cure has done for me. As a result of exposure I was taken with a severe attack of rheumatic fever which affected both my knees. I suffered pain almost beyond human endurance. Having heard of marvellous cures by South American Rheumatic Cure, I gave it a trial. After taking three doses the pain entirely left me, and in three days I left my bed. Now every trace of my rheumatism has disappeared."

A FIVE MILLION LOSS.

Disastrous Fire in the Very Heart of Melbourne Yesterday.

MELBOURNE, Nov. 21.—A great fire broke out here at two o'clock this morning and in a very short space of time did enormous damage. It started at the warehouse of C. Williamson in Elizabeth street in the very heart of the city. A strong wind was blowing and the flercely fanned flames rapidly engulfed building after building.

Despite the desperate efforts of the firemen, the entire block bounded by Elizabeth, Flinders and Swanston streets and Flinder's lake, with the exception of two buildings on the Swanson street front, were destroyed within three hours.

The burned section included many of the largest business heuses in Melbourne. The buildings were completely gutted. As most of them contained soft goods, the flames progressed with a rapidity which defied all checking, and in the furious wind ashes and burning debris were carried into the suburbs, a distance of two miles.

It is estimated that the loss will reach £1,000,000, while the trade in soft goods has received a serious setback.

Hundreds of employees of all sorts have suddenly been thrown out of employment.

Oleomargarine?

DANGER IN ANOTHER DIRECTION.

Would any same housekeeper in Canada buy oleomargarine or imitation butter instead of the finest production of the creamery or dairy? We think our Canadian women are too wise to be deceived in this important matter. Lard colored to resemble good butter will never be acceptable to our people.

There are, however, other deceptive agents that sometimes find there way into our homes; we refer to imitation and adulterated package dyes for home dyeing. Some dealers sell imitations of the celebrated Diamond Dyes. The contents of these imitation packages carry ruin and disap-

pointment to every user.

A few dealers, for the sake of long profits, are now selling soap dyes composed of a very large amount of common grease and an infinitesimal quantity of coloring matter. Such ayes, after trial, have been found weak and uncleanly, giving dull and muddy colors, fading quickly in wash-

THE MARKETS.

Revised Every Monday for the Weekly Sun.

COUNTRY MARKET. In meats generally there is no change, Fowl and chickens arrived too freely last week and prices went lower. Such potatoes as Snowfiakes are decidedly higher, but poor grades are plentiful. The creameries are now asking 20c. for butter, but are a little above the market. There is a large supply of dairy butter. Eggs are firm and strictly new laid bring a good price. Vegetables generally show no change.

ORED. Thursday at noon the workmen on the Sand point improvements as-Clark read an address and presented City Engineer Peters with a handome pitcher and walking cane on behalf of the employes in recognition of his valuable services in connection with the west side improvements. The address was signed on behalf of foreman of wharf construction: Thos: Thompson, foreman of warehouse construction; D. W. Clark, supt. of rile driving; Jas McMurray, capt. of dredge Cape Breton; John W. Dicknson, capt. of dredge Freeport; Jas. Fennell; capt. of dredge Bothfeld; Frank S. Henrion, diver. Mr. Peters made an appropriate reply. D. W. Clark, Director Smith and others made speeches, after which the party broke up with rousing cheers for all

CALAIS, ME.

CALAIS, Me., Nov. 19 .- Geo. Coggins, a sailor of Brier Island, N. S., fell from aloft on the schr. Emma McAdam tonight, and besides breaking a leg received internal injuries which makes his recovery doubtful. He has a wife at Brier Island. Carrie Bowden, aged about 16, disappeared from home last night, and her family fear she has taken her life by drowning. Miss Bowden sustained injury to her head by a fall last ummer, and has had frequent mental trouble. She was seen on Ferry Point bridge between Calais and St.

Stephen last night, and previously

sked the time of high water.

RESPECT FOR THE BENCH.

There are many good aneodotes told of the late General Robert Bruce, commonly known in the service as "Hurricane Bruce." The following happened at Malta:

A very unpopular magistrate having sentenced an officer of Bruce's regiment to simonths' imprisonment for thrashing some Maltese in self-defence, the colonel, who was in court, got up from his seat and politely asked the magistrate whether that was a court of justice. The trate magistrate, in reply, asked:

"Have you no respect for the bench, Colonel Bruce's asked: "Have you no respect for the bench, Col-onel Bruce?"
"Every respect, sir," replied the colonel,

calmly, "every respect for the wooden part, but none for the individual who sits here-With that the colonel walked out of the court with a dignified air, amidst the suppressed laughter of the spectators.
