

Late Sessions to be Held for Early Closing.

Ottawa, June 22.—When the house met today, Sir Wilfrid Laurier gave notice that morning sessions of the house would commence next week. The house would meet at 11 o'clock.

Sir Charles Tupper asked when the supplementary estimates would be brought down and what about railway subsidies and further legislation.

Hon. Mr. Fielding said that the supplementary estimates would be down on Monday. Sir Wilfrid Laurier said that there would be no further legislation of any consequence except a conciliation bill. He would say about the railway subsidies next week. He anticipated prorogation next week.

Mr. Foster wanted an arrangement to adjourn the house every night at 12 o'clock but the premier did not want to make any fast bargain.

Sir Wilfrid then announced the appointment of Mr. Bernier to the cabinet and of Sir Henri Joly to the lieutenant governorship of British Columbia in place of Mr. McInnes, removed.

Sir Wilfrid said I desire to make a statement with reference to a statement that was made a few days ago by the member for Picton (Hibbert Tupper). In the course of his speech in this house the honorable gentleman made the contents of a letter which he had received from the minister of the interior in connection with the railway subsidies in place of Mr. McInnes, removed.

Hon. Mr. Mulock Has Accepted a Tender.

Ottawa, June 22.—For years there has been a constant denunciation between the cable companies and the Canadian telegraph system. The shipping interests, underwriters, the travelling public and the general public all have pressed for this most important work, every government conceding its urgent need and yet it has not been accomplished. Last night when Mr. Mulock, the acting minister of public works, was passing the estimates of the public works department, Sir Adolphe Caron alluded to the necessity for this cable communication, when to the surprise of the house Mr. Mulock announced that before the present season of navigation closed telegraphic communication would be established between Canada and Belleisle.

When asked for particulars he stated that a month ago he had caused the department of public works to cable to the manufacturers of submarine cables in England and Europe for tenders for the necessary supply of cable, that the tenders had been received and were to be heard tomorrow. Accordingly your correspondent proceeded to the public works department today and learned that already a tender had been accepted, that the cable would be delivered in Canada within eight weeks and that within a month thereafter the cable would be laid, and for the first time in its history Belleisle would be in direct telegraphic communication with the rest of the world. This announcement, but effectively the government is accomplishing a task which for years has invited the attention of governments but till now remained an unaccomplished policy.

The completion of telegraphic communication to Belleisle will be a welcome relief, and must give unqualified satisfaction to the people of Canada.

To the West and East.

Hallifax, June 22.—Bishop Courtney, who has been chosen to represent Canada at the Pan-Atlantic synod, soon to be convened in Australia, left today to be absent four months, was joined at Toronto by the Ven. Rev. Archdeacon Kaulbach, D. D., who will accompany him to Australia. Besides representing the Anglican diocese of Canada Bishop Courtney will also represent the Protestant Episcopal church of the United States. After the close of the synod Bishop Courtney will visit Japan.

Big Ship and Cargo.

Boston, June 22.—The largest sailing vessel in point of capacity for cargo that ever appeared in this port arrived today with a cargo of 26,108 bales of jute and jute cuttings, equal to 5,250 tons dead weight.

It is maintained that her cargo is the largest of its nature ever to reach here from an Indian port on a sailing vessel.

Two Children Buried.

St. Anne du Bellevue, Que., June 22.—The house of Samuel Bribois was burned last night and two of Bribois' children, Napoleon, 10 years of age, and a baby girl perished in the flames. The husband and wife barely managed to escape by jumping from the window.

Canadian Securities are Good.

Toronto, June 22.—The Globe's special cable from London says: A table compiled by the Financial Times shows that, during the recent months of depression, Canadian securities have depreciated less in value than any other gilt edged investment stock on the London market. Consols lost 100 points, while Canadian 2½s lost only 25. I find, moreover, that Canadian 2½s per cent, which are not included in the table, lost only 2 of a point.

The Value of Work in Porto Rico Has Increased.

San Juan de Porto Rico, June 15.—For the last month or so Porto Rico has been more or less upset by a series of small strikes. The steamship companies have been the greatest sufferers. Some weeks ago the Mae of the New York and Porto Rico Steamship Company, arrived at Ponce. All vessels at that port are compelled to lighter their cargoes. On the arrival of the Mae the longshoremen struck for three pesos (\$1.50) per day. Their pay for years had been a peso and a half or two pesos at the most. Rather than establish a bad precedent the agents of the line would not comply with the men's demands and the steamer came around to San Juan and discharged her cargo here. It was then shipped back on a coasting steamer.

It is claimed that the labor element in Porto Rico is becoming unreasonable in its demand on the capitalists. It is pointed out that workers are given the opportunity to work for higher wages than ever before paid, but that they demand three times the former rate (in pesos) and some of the Americans for tenders for the necessary supply of cable, that the tenders had been received and were to be heard tomorrow. Accordingly your correspondent proceeded to the public works department today and learned that already a tender had been accepted, that the cable would be delivered in Canada within eight weeks and that within a month thereafter the cable would be laid, and for the first time in its history Belleisle would be in direct telegraphic communication with the rest of the world. Chicago Board of Trade Will Look After Its Own Quotations.

Chicago, June 22.—By order of Judge Tuley the Western Union Telegraph Company has been ousted from its position as collector of the daily market quotations and the board of trade and that body today commenced to collect its own quotations and transmit them to the telegraph companies. This is regarded by the board of trade officials as an important step in the contest over the cutting off of the ticker service from bucket shops. However, no change will be made in the manner of distributing the quotations until the matter shall have been finally passed upon by the courts.

Another Discreditable Condition Discovered in Cuba.

Havana, June 22.—The postal frauds have rather swamped the scandal existing in the university, which has been the milking ground for some of the best known men of letters in the island. One of these professors and 24 assistants, some of them having no classes at all and others only one or two students.

Many of the professors drew other government salaries. When this was called to General Wood's attention he immediately inaugurated reforms, which are said to be cutting down the list to 46, including assistants, which seems enough, considering that there are only 450 students.

Cruisade Against Profanity.

New York, June 22.—A crusade has been instigated against profanity in Berlin, Pa. Two young men have already been committed to prison charged with using blasphemous words in public. Christianity is part of the common law of Pennsylvania and maliciously to vilify the Christian religion is an indictable offence under the provisions of 1707 and the act of assembly of 1860. The former imposed a fine of \$10 sterling and the latter makes the fine not to exceed \$100 or three months imprisonment, or both, for ordinary every day profanity. The fine imposed in the town of Hamburg is 67 cents per oath.

Robbery and Murder.

Little Rock, Ark., June 22.—A despatch from Texarkana to the Gazette, tells of the murder of Colonel Gardner, a prominent citizen of Texarkana, on the morning of June 21. Gardner was returning home from a business trip and was accompanied by a negro, said to be Moses Williams, held him up and robbed him. Williams then fired a few shots and fired the contents of a gun into Gardner's body, killing him instantly. Officers are on the trail of the murderer.

Penny Ice.

New York, June 22.—The Salvation Army in this city has arranged to supply ice in the tenement districts at the rate of six pounds for a cent. The movement is headed "Penny Ice," and at the present time there is no profit and the margin of six is expected to be met by voluntary contributions. The plan, however, is not new, as Kansas City poor have been supplied two summers in this manner.
