Had narrow escape.
On Saturday evening a serious accident was narrowly averted when a car in which were three women and two men stalled when half way up the Preston hill and started to back down the trade. Frantic efforts were made by the driver to hold the car which seemed of no avail. However after the two back wheels had passed over the cement walk the two front wheels caught just long enough for the occupants to jump out and hold the car from going over the embankment a drop of nearly 25 feet. It was a narrow escape and the occupants can consider themselves lucky that nothing serious happened.

Will Build Store and Dwelling Structure.
An exchange of property has been effected which will be followed by the erection of a handsome building on the same. Mr. Francis C. Hoch has bought a lot at the corner of Tuerk and Glasgow streets from Mr. John Dietrich and intends building a brick structure on it for store and dwelling purposes. It will be two storeys and will cost about \$5000. Work will commence immediately.

The enterprise is exemplary and more decisions to build in these days when housing accommodation is scarce would be welcome.
