ment which when properly fitted and adjusted, causes a large red flag to descend over diverse photographic naughtiness whenever of the interior. Weeds grew pro-fusely through the rotting straw strewn round the yard, and a the door is opened. Plans and specifications may be seen at room

DIOGENES

As the Greek philosopher once said: "I do a little writing on the side but mostly I do it sitting up". Another week of nefarious activities has passed in the residence. Residents have been bled, dunked, frozen, petitioned and otherwise made aware that they are living in a grand and glorious age.

Don Taylor is back after a farewell party for his appendix. He seems to miss playing footsie with several of the local nurses. He is getting ready to go back to work apparently and can be seen any time in room 101 practising integral signs. He says he will never be able to look a razor in the face again.

Scotty was minus his teeth the other morning. This was a very unusual turn of events and has caused much consternation on the part of many. The melodious hog calling which echoes around the second floor at eight a.m. had a curious tonal quality which could not be attributed to the fact that he was locked in the linen closet. Upon investigation, it was verified that the linen closet. Upon investigation, it was verified that the linen closet. The investment of the linen closet. The melodious hog calling which echoes around the second floor at eight a.m. had a curious tonal quality which echoes the move missing and that no amount of persuasion would make him tell us where they were.

It is rumoured in hushed whispers that the local missionary did not attend the lecture last Thursday on "How to be Good the Easy Way". This action cannot be brushed aside lightly. The least we can expect is downcast eyes and a blush while the dustbane is flying.

Tenders are invited for manufacturing rights on an attachment which when properly fitted and adjusted, causes a large rediging the content of the propers of the content of the c

The Oldest University Building In Canada

## A HISTORY OF UNB

men up the hill are allowed on the premises until 12:00 every

only to the University of Toronto, Lady Beaverbrook Residence

After the turn of the century without the other. The University, the University, under the presidency of Dr. Cecil Charles Jones, from 1906-1940, and his successors Dr. Norman MacKenzie, 1940-1944 and Dr. Milton F. Gregg, VC, 1944-1947, moved ahead in even by Dr. A. G. Bailey)

As the University curriculum was expanded from time to time colony to province in 1859, so did King's College graduate to the University of New Brunswick. Was expanded from time to time, it became increasingly apparent that more money was necessary to maintain the ever growing number University of New Brunswick.

Under the first UNB presidency of Dr. William Brydone—Jack, the curriculum was extended beyond its narrow limits of classics and

science, to include navigation, law, medicine and engineering. This curriculum was evidence of the attempt to make the University serve the needs of the people.

However from the original curri-However from the original curri-layer forms the orign than the original curri-layer forms the original curri-layer f culum; UNB now has, and has had completed and was followed by for many years, instruction in law, the construction of the Forestry pre-medicine and engineering on and Geology Building in 1929. One the campus. During its infancy year later through the generosity the University of New Brunswick of Lord Beaverbrook, who sevenhad such a keen intellectual life, teen years later was to be made that it acheived a standing second Chancellor of the University, the

only to the University of Toronto. Lady Beaverbrook Residence for It became the nucleus of provincial culture, as is seen from the literary on some of the graduates of those years, including such great men as Bliss Carman, E. G. D. Roberts and William Francis Ganong.

In 1889, the first woman student, Miss Mary K. Tibbitts, graduated from UNB. In that same year in an effort to keep up with an increasingly industrialized world. professors of physics and civil and electrical engineering were added to the faculty.

First of all, we want to apologize for 'that' cartoon - somebody sabotaged it' Believe it or not, there were some readers who, even though attending Canada's most renowned forestry school, did not understand its significance. It referred to "Diameter Breast Height" which is the diameter of a tree at a height of 4½ feet above 'mean ground level'. D.B.H. is the most important single measurement taken in any forest inventory. Foresters first come into contact with this measurement as freshmen and from that time on, are never able to escape from it. Anything further to be

We met a pretty darn shrewd woman the other night. She explained that gentlemen prefer blonds because blonds seem to know what gentlemen prefer.

#### JUST A THOUGHT FOR AN IDLE MOMENT

Sometime when you're feeling important, Sometime when you're ego's in bloom, Sometime when you take it for granted You're the best qualified in the room, Sometime when you feel that your going Would leave an unfillable hole, Just follow these simple instructions And see how it humbles your soul: Take a bucket and fill it with water; Put your hand in it up to the wrist; Pull it out, and the hole that's remaining, Is the measure of how you'll be missed. You may splash all you please when you enter, You can stir up the water galore. But stop, and you'll find in a minute That it looks quite the same as before. The moral of this quaint example, Is do just the best that you can Be proud of yourself but remember, There is no indispensible man.

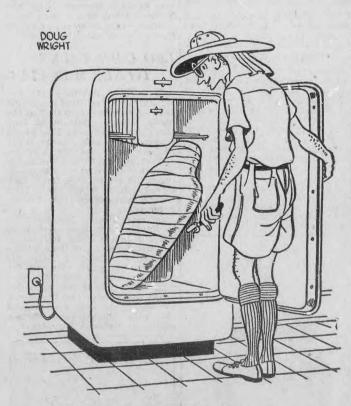

Notice to all woodsmen! There are exactly 37 chopping days 'till Christmas.
