

The Roxborough,
Ottawa, April 30, 1919

Mr. E. S. Cowdrick,
Assistant to the President,
The Colorado Fuel and Iron Company,
Denver, Colorado.

Dear Mr. Cowdrick:

I have asked the Industrial Relations Commission to see that you are supplied with any report of its work which may be published.

In the same communication, I informed Mr. Carl Riordon, one of the commissioners, in reply to a request received from him, that I would ask you to kindly have him supplied with any particulars you may have available on the working of the C. F. and I. Plan. Mr. Riordon is one of the manufacturers on the Commission, and is a life-long personal friend. He is most anxious to see that the Commission is fully informed of what has been done in Colorado. It has occurred to me that possibly you could supply Mr. Riordon with a complete set of the Industrial Bulletin, and also with copies of the special bulletins, and with the article which you yourself wrote quite recently. These documents would all be of great service to him.

Perhaps if you would address this material to Mr. Carl Riordon, Member, Industrial Relations Commission, C/o Mr. F. A. Acland, Deputy Minister of Labor, Ottawa, Canada, this address would find him wherever he may happen to be.

Yours very truly,

WLMK.
