The Expansive Tree Protector

Has been on the market for three years.

TESTED AND APPROVED

Endorsed by Park Commissioner John Chambers, Toronto; R. L. Huggard, Central Experimental Station, Whitby, Ont.

It works while you sleep. Always on guard.

It expands with the tree. Will not tear, break, loose or rust.

It is durable, will last for years, making it cheaper to use than any home-made device.

It both repels and kills. No crushing or burning of insects.

It is locked round the tree; no nailing or defacing. Once put on it stays. It works automatically.

The "insecticide" with which the band is saturated meets every demand for relief.

Send for full set of circulars.

AGENTS WANTED, GOOD PAY.

Do not be deceived by imitations and infringements.

A New Rural Library

ONLY 50 CENTS PER VOLUME OR LESS

EACH BOOK is written by a high authority and specialist, is both practical and scientific, reliable, helpful, indispensable. There is a convincing and practical tone about each of these handy books which at once assures the reader that he may safely follow the instructions given and expect to get profitable results.

Each volume is beautifully printed in large new type on nice paper, copiously illustrated, handsomely bound in cloth and boards, 2x3 inches in size, with 100 to 160 pages. Each volume sent postpaid for 50 cents or less, if so quoted.

Cabbage, Cauliflower and Allied Vegetables, from Seed to Harvest.

By C. L. Allen. A practical treatise on the various types and varieties of cabbage, cauliflower, broccoli, Brussels sprouts, kale, kohlrabi and Kohlrabi. An explanation is given of the requirements, conditions, cultivation and general management pertaining to the entire cabbage group. After this, each class is treated separately and in detail. The chapter on seed taking is probably the most authoritative treatise on this subject ever published. Insects and fungi attacking the class of vegetables are given due attention. 50 cents.

The New Rhubarb Culture.

A complete guide to dark forcing and field culture. Part I—By J. E. Moore, the well-known Michigan grower and exporter of the now famous and extremely profitable new method of dark forcing and production. Part II—Other methods practiced by the most expert growers in the Dominion. Includes seed and experimental results of America. Compiled by G. H. Peck. 50 cents.

Landscape Gardening.

By F. A. Waugh, professor of horticulture, university of Vermont. A treatise on the general principles governing outdoor art with some suggestions for their application in the common garden. The numerous paragraphs are short terse and to the point, giving perfect clarity to the discussion of all points. In spite of the natural difficulty of presenting abstract principles, the whole matter is made entirely plain even to the inexperienced reader. 50 cents.

Hemp.

By R. S. Horne. A practical treatise on the culture of hemp for seed and fibre with a sketch of the history and nature of the hemp plant. The various chapters are devoted to the soil and climate needed, all the culture of hemp for seed and for fibre, irrigating, harvesting, retting and machinery for handling hemp. 50 cents.

Alfalfa.

By F. D. Colver, secretary Kansas state board of agriculture. Its growth, uses and feeding value. The fact that alfalfa thrives in almost any soil, that without reseeded it goes on yielding 2, 3 and sometimes 5 cuttings annually for 3, 10 or perhaps 20 years; and that either green or cured is one of the most nutritious forage plants known, makes alfalfa information upon its production and uses of universal interest. Such information is given in this volume for every part of America, by the highest authority. 50 cents.

Ginseng, Its Cultivation, Harvesting, Marketing and Market Value.

By Maurice G. Kains. How to begin with either seed or roots, soil, climate and location, preparation, planting and maintenance of the beds, artificial propagation, manures, enemies, selection for sale, and, for improvement, preparation for sale, and the profits that may be expected. 50 cents.

Hedges, Windbreaks, Shelters and Live Fences.

By E. P. Powell. A treatise on the planting, growth and management of hedge plants for country and suburban homes. It gives accurate directions concerning hedges; how to plant and how to treat them; and especially concerning windbreaks and shelters. It includes the whole art of making a delightful home, giving directions for hedges and balconies for bird culture and for human comfort. 50 cents.

Home Pork Making.

The art of raising and curing pork on the farm. By A. W. Follen. A complete guide for the farmer, the country butcher and the suburban dweller to all that pertains to hog slaughtering, curing, preserving and storing pork products—from cut to kitchen table and dining room. 50 cents.
