

- 570a **The Hittites.** Their Inscriptions and History, by Professor John Campbell, M.A., LL.D., Montreal. 2 vols. Demy 8vo, cloth extra, fully illustrated. \$5.00.

"Prof. Campbell has a well-earned reputation, especially among archaeologists and students of ancient and modern history as a scholar of no mean attainments. One leading critic in England says: 'He possesses a wonderful, if not unique knowledge of very early ethnology, especially Egyptology.' The larger part of the book contains a history of the Hittites from a period of time some three generations prior to the patriarch Abraham. The materials for this history are furnished by the Egyptian and Assyrian monuments, by the Greek historians and by almost universal tradition, arising from the fact that the Hittites were, in many respects, the greatest of ancient peoples, and constituted the substratum of all early civilization. The course of his argument leads the author to study and discussion of the records of the Hittites in Egypt, on the Tigris and Euphrates, in Palestine and neighboring countries, in their contrast with the Assyrian Empire, in their struggle with the Aryan race, which ended in the supremacy of the latter, and in their dispersal westward, and the interesting story of the peopling of the American continent."—*Toronto Globe*.

- 571a **Ontarian Families.** The Genealogy of United Empire Loyalists and other Pioneer Families of Upper Canada, with Heraldic Illustrations. By Edward Marion Chadwick, Esq., Barrister-at-Law. The drawings (some in colors) are all in the author's well-known, admirable style. Printed on fine plate paper. 4to, half bound. Vol. I. \$12. Vol. II. \$6.

This is a successful gathering together of the records of the famous families of U. E. Loyalists and others who cast in their lot with the Crown. The author (whose reputation in this department of knowledge is more than provincial) has traced many of the families to their ancestral homes in early England and France; and, as branches of many of them are scattered now over the United States, this book should have a wide interest. The heraldic illustrations, after Mr. Chadwick's own drawing, are much admired for their beauty, and the color printing is quite up to the best continental work. A list of families will be sent on application to us.
