MONTH OF MAY SHOWS INCREASE IN PERMITS

Permits Taken Out for Buildings last Month Show Increase Over Same Month Last Year—General Improvement in Conditions is Noticeable—Real Es-tate Men are Much Encouraged.

Building is showing considerable improvement in Montreal than it has in some time past, and the number of permits being taken out each day, reflects the general easier feeling in the money market. The month of May just passed shows an increase of \$43,540 over the same month last year, although the figures for the first five months of this year show a considerable decrease over the same period last year.

During May of this year 642 permits were taken out, with a total value of \$2,473,608.

During May of this year 642 permits were taken out, with a total value of \$2,517,148, compared with 655 in May, 1913, with a value of \$2,473,608.

The following table shown the figures month by month:

# THE FIRE LOSS IN GANADA SHOWS A LARGE DECREASE

Month of May just past shows the Smallest loss both in the Number of Lives and in the Amount of Property in Twenty Months --- Figures Improving

# ONLY EIGHT LIVES LOST IN MAY

Weather Has Resulted in Less Use of Oil Stoves and Other Heating Appliances, and Fewer Fires Have Resulted— People are Learning About Fire Prevention.

About Fire Prevention.

The improvement which Chief Tremblay of the Montreal Fire Department, said was noticeable early last month in the number of fires which were occurring in Montreal, was evidently general over the country, as shown by the fire loss for the month. Chief Tremblay, in discussing the matter a short time ago, said that it was only natural that there should be a decrease in the loss by fire with the warmer weather, but he expected to see a considerable improvement. The Chief's expectations were fulfilled and a great improvement for the month is noticeable, even though the month was a bad one in respect to the number of forest fires wich occurred. Only eight deaths caused by fires are recorded; this is the smallest number since September, 1912, when there were six deaths recorded; last month there were 22.

The fire loss is also less than any month since September, 1912. Many reasons are given for this general improvement. Chief of these, are, that not only towns and municipalities are learning something about fire prevention, but the individual is becoming a student of this subject, which is so closly related not only to his own comfort, but to the safety of himself and his property.

Cleaning away of rubbish has been going on in almost every town in the

lated not only to his own comfort, but to the sales, or holder the perty.

Cleaning away of rubbish has been going on in almost every town in the Dominion, since the breaking up of winter, and this has greatly helped in Checking the number of fires.

The following are the monthly totals of the losses by fire, compared with the three previous years losses:

1911. 1912. 1913. 1914.

1911. 1912. 1913. 1914. Underwriters the World Over are Preparing for the Big Celebration — Appointment to the National Council are Being Completed Ample Provision is Already Made for all the Delegates.
