QUESTIONS AND ANSWERS. MISCELLANEOUS.

TANNING SKINS.

I should be glad if you would kindly give me a recipe through the columns of the "Advocate" for the curing of animal skins. A SUBSCRIBER.

Ans.—See January 21st issue, page 108.

LICE ON CATTLE.

Would you let me know the best way to rid cattle of lice? P. A. B.

Ans.—See answer to same question in our last issue, and don't fail to thoroughly sweep the walls, and white-wash the whole inside of the stable.

ROOFING MATERIAL.

I have to put a new roof on my barn, and as it is a large one, I would like some of my brother farmers to give me their experience as to the best kind. Some are getting galvanized iron, and quite a few rubberoid, four ply. I put some on a shed last year; it seems to make a very good roof, but will it last? It cost the same as shingles, but is much easier put on. Any information will be thankfully received. R. A.

[If any of our readers have had an opportunity of making a good comparative test of the merits of different kinds of roofing material, we should be glad to learn the results.—Ed.]

COWS FAILING TO BREED.

We have two registered Shorthorn heifers, four and five years old, that fail to breed. They come in heat regularly, seem to be all right in every way, and are in the pink of condition. The younger heifer dropped a calf at two years old, and has failed to breed since. Can anything be done to induce them to breed? C. C. H.

Ans.—The only suggestions we can offer are to try a change of bulls, or an examination by a veterinarian to ascertain if the neck of the womb is closed, which examination should be made when the cow is in season; service being allowed after opening, which is done by a rotatory motion with the finger. The application of belladonna ointment to the part is said to facilitate the relaxation of the closure.

GOSSIP.

In our advertising columns, J. Bergin, Cornwall, Ont., offers some choicely-bred Ayrshire bulls for sale. Ayrshires are now having their innings, as witness the result of the dairy tests at the Winter Fairs last month, at Guelph and Amherst.

SMITH & RICHARDSON'S IMPORTATION.

"Messrs. Smith & Richardson, Columbus, Ont.," says the Scottish Farmer, "made their second shipment of Clydesdales for the season ten days ago from Liverpool. Mr. Fred. Richardson was himself over, and made the selections. He purchased five stallions from Mr. Peter Crawford, Dargavel, Dumfries, and an equal number from Messrs. A. & W. Montgomery, Netherhall and Banks, Kirkcudbright. Among the horses purchased and shipped by them was Michael (11434), the big, thick son of the champion Hiawatha, which stood reserve for the Glasgow premium when a three-year-old, and again last February occupied the same position. He grew into a great horse, and his weight, thickness and good breeding will make him a formidable competitor at the Toronto Spring Show. He was bred by Mr. James Fleming, Bent, Strathaven, and is descended from rather a famous tribe of Clydesdales. Other horses bought from Mr. Crawford were got by the famous £1,000 horse, Montrave Mac (9958), which ranks so high among breeding horses, and has an unequalled pedigree, being got by McGregor, out of the celebrated champion mare, Montrave Maud; and Prince of Johnstone, one of the biggest and weightiest sons of Prince of Carruchan (8151). Of the horses bought from Messrs. Montgomery, one was a full brother to the celebrated prize mare, White Heather, owned by Mr. St. Clair Cunningham. This is a fine thick, broad-chested horse, of true Clydesdale type and character. He had

one of the Kirkcudbright premiums during the past season. Another was got by the Lanark-premium horse, Coroner, a prizewinner at the H. & A. S. Show as well.
