

# It Pays to Buy a Deering

**Gets All the Grain**

**Increases Crop Returns**

**YOU** realize this when you come to figure up crop returns.

Preparing a good seed bed, sowing good grain, and propitious weather are not all that is necessary.

You must have a machine that will harvest your grain so that you will realize every dollar possible out of the crop.

A Deering binder does this.

It's built to get all the grain. The reel will bring tall or short, down and tangled grain to the sickle without fail; the elevators will handle it whether it be light or heavy, and the binding attachment will throw out nice even butted bundles.

When a field of grain is harvested with a Deering, you won't find crow's feet scattered all about; you won't find the grain lying in patches where the reel never picked it up.

The Deering is built to harvest the crop in the right way.

The Deering wide cut binder is particularly adaptable for use where there are large fields of grain to harvest.

During harvest, time is worth money.

The loss of a day's cutting may mean the loss of many dollars, and no farmer can afford to take a chance on purchasing a poor binder.

The Deering line of harvesting machines is complete and includes, besides grain and corn harvesting machines, a complete line of haying machines, comprising mowers, tedders, sweep rakes and hay stackers.

Call on the Deering agent and let him explain why a Deering machine harvests in the right way. These local agents are found everywhere, and will be pleased to give information and a catalog concerning the Deering machines.

W. HOULTON, Broadfield Farm, Northleach, Glos., ENGLAND; or S. HOULTON, Calgary, ALBERTA, Canadian representative.

## QUESTIONS AND ANSWERS. Miscellaneous.

### DOCKING CLYDE FILLIES.

Would you advise having Clyde fillies docked? SUB.

Ans.—No. It is cruel, and can add nothing to the price of any but a fancy driving horse.

### BUILDING ON GRAVEYARD SITE.

Having purchased a piece of land with a small graveyard on it, would like to build where the graveyard is, and as the relatives of the deceased have no deed of the plot, or any right of way to get to it, I offered to move the remains to a regular cemetery, as to which some are agreeable and some are not. There have been no burials in it for over fifty years, and the willing parties to having them removed are deceased's son and granddaughter, and the only objecting one is a grandson, by another brother, who is dead but not buried in this plot. Can he stop me from moving them? E. H. Ontario.

Ans.—Under the circumstances stated, we do not see that he is in a position to do so.

### FOWL TRESPASS.

My neighbors' fowls are damaging a field of grain belonging to me. I asked them if they would kindly keep them out, and they did for a few days, but now they are on it pretty much all day.

1. Can I shoot them?
2. Kindly give your advice?

OLD SUBSCRIBER.

Ans.—1. No. 2. You may have the fowls impounded; or, in the alternative, you may notify their owner in writing of their trespass, and if, after being served with such notice, he refuses or neglects to prevent the fowls from further trespassing on your premises, you may have him brought before a justice of the peace and fined.

### WHITEWASHING APPLE TREES.

Some people whitewash their young apple trees in the spring. Is this advisable? Is there any danger of making the lime wash too strong? Will it help destroy bark-louse? W. G. B.

Ans.—Whitewashing apple trees is a good practice for one who does not spray. It is a partially-effective measure against the bark-louse and other insects, and has some effect in ridding the trees of fungi. Spraying peach trees with lime wash is sometimes practiced as a means of retarding bud development in spring, and thus protecting the buds from late frosts. As a rule, this is not considered necessary for apple trees in most sections of the Province. Whitewash will not injure the trees in any way, and there is no danger of making it too strong.

### FLEAS.

This is my first year on a farm. I am told that in the summer-time, the farmyard is almost a nest of fleas, and that these, carried hence, infest the house in a way that must be quite incompatible with comfortable living. I am told that fleas are a natural and unavoidable consequence of farm life, and that one living on a farm must simply bear it with the best grace they can muster. Is this a fact? Is this pest an unavoidable appanage to farm life? I must confess to incredulity, for I should think this would be sufficient to make farming a much-tabooed industry. What is the cause of this farm-yard nuisance? Can you suggest a remedy for this deplorable state of affairs?

### A PROSPECTIVE SUFFERER.

Ans.—It cannot be denied that fleas are a nuisance in some farmhouses, but the state of affairs is not so deplorable as "A Prospective Sufferer's" fertile imagination depicts. Fleas on animals may be combated by dusting with pyrethrum (insect powder), which closes their breathing pores. Bunches of fresh pennyroyal scattered about are said to be a flea-repellant. Our own observation connects them only with a dry season and piles of sand about the premises. What say our readers?

## MAKES MEN SOUND AND STRONG YOU PAY WHEN CURED

A Detroit Specialist who has 14 Certificates and Diplomas from Medical Colleges and State Boards of Medical Examiners. So that there may be no doubt

DR. S. GOLDBERG, The Possessor of 14 Diplomas and Certificates, Who Wants No Money That He Does Not Earn.

In the mind of any man that he has the ability to do as he says. Dr. Goldberg allows his patients to take his treatment and pay for the same after they are satisfied that they are cured. He wishes to hear from men who have been unable to get cured, and who have prostatic trouble, blood poison, etc. He not only cures the condition itself, but likewise all the complications, such as rheumatism, bladder or kidney trouble, heart palpitation, nervous debility, etc. The doctor realizes that it is one thing to make claims and another thing to back them up, so he has made it a rule not to ask for money until you are cured, and when you are cured he feels sure that you will willingly pay him his small fee. It would seem, therefore, that it is to the best interests of every man who suffers in this way to write the doctor confidentially and lay his case before him, because if he accepts your case for treatment it is equivalent to a cure, as he does not unduly consider accept incurable cases for treatment. He sends his booklet containing the 14 diplomas and certificates, entirely free. Write him in confidence and your case will receive immediate attention. Medicines for Canadian patients sent from Windsor, Ont., duty and transportation charges prepaid. Address, DR. GOLDBERG, 208 Woodward Ave., Suite 635 - Detroit, Mich., U. S. A.

## SOUTH DOWNS

Having sold sport, I am now booking orders for future delivery of show and breeding flocks.
