Doherty Mfg. Co., Sarnia, Ont

Canada gets it, too!

Five years ago an English scientist discovered a method of making a weather and waterproof paint. Large factories for its manufacture were soon established in Australia, Mexico and in the United States. A number of enterprising Torontonians last year recognizing its merit, bought the Canadian patent and have opened a factory in this city, at 122 and 124 Richmond street east. The paint has wonderful wearing qualities, is exceedingly adhesive and finishes with a gloss almost equal to varnish. On wood-work, iron, brick or plaster it works equally well. It does not crack, blister or peel. Canvas and muslin painted with it hold water and still retain their pliability. It is made in all colors and prices as low as is consistent with a first-class paint. Its great covering capacity makes it the cheapest paint on the market. It is a really good article and may be had from the
