THE PROBS

Toronto, June 28.—Since Saturday
morning showers have occurred in
nearly all parts of the western prov-
ince, with fairly high temperatures in
Manitoba and cooler conditions fur-
ther west. From Ontario eastward,
the weather has been fine and moder-
ately warm.

FORECASTS.

Light winds, fine and warm. Tues-
day—Easterly winds, warm and partly
cloudy with showers or thunderstorms
in many localities.

TWO LIONS

Have Been Creating Trouble for
the Customs Department.

There are lions and lions.
For example, the famous lions
around Nelson's monument in Tra-
falgar Square, the lion of St. Mark's,
the lions of society and several others
noted specimens, such as instances
as dandies to do to the beasts of all
those Brantfordites who do
the lawn sprinkling act morning and
evening but never, no never, during
prohibited hours.

However, those of those species fade
into utter and abyssal insignificance
alongside of two lions which have
rested on the hands and likewise on
the minds of Customs Collector
Spence and Appraiser Blakney.

Destined to keep guard in front of
the new post office building in order
to scare everyone into doing the nec-
essary kick act with regard to war
stamps, they arrived here some days
ago in charge of their keeper and also
their maker, Sculptor McCarthy of
Ottawa. He landed up at the customs
department and wanted to get the
beasts through without whacking up
the duty for their bronzing in New
York, a little charge of \$600 or so.

"What's that," exclaimed the Mayor
as he grasped the door jamb for sup-
port.

"Not on your life," exclaimed Ap-
praiser Blakney, whose job it is to
soak everybody up to the limit and
then some.

So the lions have since remained in
the bond department at the Grand
Trunk Railway depot, with their roars
discouraging the nervous public who
trains, and Blakney most conspicu-
ously out of pocket for their feed. At
the time of going to press, he had only
ventured to look at them through the
slats. However, advice from Ottawa
finally declared that they could pass
free, as they were the property of the
King and, and they are to be allowed
out after Chief Slemm has satisfied
himself that they have been properly
muzzled.

Brantford has its white elephant in
the shape of the city hall, and an-
other animal in the sometimes odori-
ferous canal, and now these two other
animals have been added.

Blakney says he believes that they are
the parents of the cubs who are
making so much trouble for the other
clubs in the baseball league across the
border.

Daniel Haviland, of Putnam County
has just retired after 75 years as
shoemaker without a holiday.

Lawn Bowlers' Day—July 1st

All the lawn bowling clubs in this
city and county are sending their very
best rinks to the tournament which
begins at 9.30 a.m., Dominion Day.
Last year there were 35 rinks and 140
bowlers entered, and the competition
was keen. The principal honors were
won by the Heather Club (the Lloyd
Harris Trophy) and the Paris Club,
who won the Dominion Trophy.

With 500 bowlers eligible and the
very best greens possible to play on
and the friendly rivalry, a grand day's
sport is anticipated. Entries have
been received by the secretary from
all the city clubs, including Sydenham
and Echo Place, Paris, St. George and
Mount Pleasant.

The question often asked, Why does
Brantford, in a favorable situation,
with every accommodation for hold-
ing a tournament, have one open to
the province? will come up for dis-
cussion during the week, and it is
troubling to be easily arranged.

The success of this city and county
tourney has demonstrated clearly that
there are no obstacles in the way, and
if Berlin, Guelph, Goderich and
other places can successfully carry
one out, why not Brantford? Greens,
hotel accommodation and enthusiastic
bowlers we have in plenty, and it is
hoped another year to put one on.

JAMES GORMAN

The remains of the late James Gor-
man of Toronto, arrived in the city
at 9.35 this morning by the Grand
Trunk, and were taken to Greenwood
cemetery by interment. Rev. Father
Smythe of Grace church con-
ducted the service at the grave side.

The deceased gentleman was a former
resident of this city and is well
known here.

Airman's Thrilling Exploit

"If I had known as much then as I
do now," is the constant lament of the
old man and the old nation. Once on-
ly in history has a nation been en-
dowed with the experience of age and
the strength of youth. That nation is
Canada.

The border line, which sepa-
rates us from the United States, is
a nation 100 years older than we,
which has passed through in a remark-
ably close degree the development
which we must experience in the next
100 years. We can learn from the United
States; from its failures perhaps
even more than from its successes.

The outstanding failure of the United
States, in the opinion of the late
British minister at Washington, is to
be found in its city government. The
chief factor in that failure is the treat-
ment which America has accorded to
the immigrant. It is in the treatment
of the immigrant that Canada can
learn most from the failure of our
neighbor. It is from the proper treat-
ment of the immigrant that Canada
can gain most in the next quarter of
a century.

The immigration policy of the United
States, like that of Canada, has
consisted simply in the invitation to
come. After the immigrant had arrived
and passed the insignificant require-
ments which they brought for
simply to go where he pleased. Of
course he went to the cities, the mines,
the factories, the railroads. He sel-
dom went to the land. Not only did
he go to these places, but he will
be there in great congested dis-
tricts, and segregated from the life of
the land. He formed a little Russia,
a Jewry, and a little Greece in every
city on the continent.

The result of a poor and too often
a slum population. This population
had the inalienable right guaranteed
by the constitution to vote for presi-
dents, judges, congressmen, mayors
and aldermen. The immigrant exer-
cised this right at the bidding of the
boss and the ward heeler. For many
years the small group of capitalists
in control of the political machine
legislated and administered as they
pleased by means of the great solid
majorities which they bought for a
few odd jobs, a little judicious flattery, some Christmas turkeys and
campaign drinks and cigars.

This is the lesson that faces the
Canadian people to-day. "What will
we do with the immigrant?" is the
question that must be answered un-
less we are prepared to follow in the
footsteps of our neighbor. It is use-
less to say that this cannot happen in
Canada. It has happened in Tor-
onto to-day. It is happening in Tor-
onto to-day. It is happening in the
West.

In 1901 the population of Canada
was 94 per cent. British and 6 per cent
foreign. In 1911 it was 89 British and
11 per cent foreign. The foreign per-
centage of the population had almost
doubled in ten years. The increase has
stopped now, but after the war it will
go forward by leaps and bounds. It
is more than likely that by 1920 the
population of Canada will be over
half "foreign."

There is nothing very wrong with
the foreigner as an immigrant. He is
not the degenerate product of the city
slums. He is industrious, he is Ital-
ian, Slav or Jew. He has race quali-
ties that will form a valuable ele-
ment in the new Canadian that is to
be. The mysticism of the Slav is
needed in the dominant Anglo-Saxon
materialism. The communistic tradi-
tion of the Slav will be a useful cor-
rective for the individualism of the
Scot. The happy, careless passion-
ate Italian has a distinct contribution
to make to the spirit of our people. The
Jew with his strange anomalies, his
idealism and thrift; his cleverness and
industry, is to be welcomed rather
than despised.

Objection is not from the immi-
grant, but from our own indifference
and failure to put him to better uses
than those of a political machine. We
cannot get rid of the immigrant. We
cannot do without him. He must come
to the land. He must be given the
survival bids our doors open to him.
But we can direct the immigrant as he
comes and after he arrives. We can,
instead of leaving him alone to sink
to the lowest levels, take him and
place him where he can do most good
for himself and his adopted country.

Perhaps the chief trouble with our
immigrant population is that it is seg-
regated. The immigrants in the cities
are crowded together. In the cities they
gather into colonies, and too often
present a strong wall of indiffer-
ence to every influence in the land.

In some way we must shuffle the
pack. It spells ruin to the country to
allow the formation of racial cliques
on a large scale. Much of the shuff-
ling can be left to chance, and the
size and opportunity of a new coun-
try. But the experience of the United
States shows us that this is not
enough.

The Ontario farmer is in need of
help. It is safe to say that eight-
tenths of the Slavs and Italians in
Canada come from the country. If
these people could be put on Ontario
farms with their families as hired
help, a long step forward would be
made. The farmer is needlessly mis-
trustful of the foreigner. On better
acquaintance he will find him a good,
honest workman. The immigrant
could settle down in a small house on
a corner of the farm with a plot of
ground of his own. His children
would go to the district school and
grow up on an equality with the
other children. In time he would buy
a part of the farm, and when the old
people retired a new generation of
Canadians would be established on
the land. This is no idle dream. It
has happened no further away than
Mimico. Not long ago an old Canadi-
