Disordered Vision

is often the immediate cause of headache in the young, especially the studious of both sexes. Over-taxation of the sight in reading and study is a serious thing, and should be discouraged in boys and girls. Half the youthful headaches proceed from this cause. Germany Feels Resignation

Offensive

PATIENCE OF SPAIN NEAR END

Text of Note to Germany Conveys Grave Warning For Future
BREAK IS INEVITABLE
Unless Germany Joins in Suitable Negotiations

Amsterdam, via London, April 25.—The text of Spain's note to Germany as given in Berlin despatches, while conveying a grave warning that the end of Spanish patience is in sight, also contains a suggestion that a crisis may be avoided through negotiation. The note says in part: "All the repeated attempts of the Spanish Government, undertaken with the intention of safeguarding its sea traffic and the lives of its sailors have failed in the face of the unpardonable resolution of the Imperial Government to employ the usual and violent war measures. It is asserted that these measures render impossible the economic existence of the imperial government's enemies, but simultaneously they expose to great dangers the existence of friendly neutral powers."

The note then complains of the series of restrictions Germany has imposed on Spanish shipping and of the sinking of Spanish ships without warning. It declares that these methods render the economic existence of Spain almost impossible. The note continues: "All these prove that German intentions neither aim at acknowledging our rights as we demanded repeatedly and with justice, nor take into account, as they should, the request of a country whose friendship until to-day was unabated and whose neutrality was preserved without wavering."

"If the imperial government persists in declaring that it adheres to its determination in order to defend our rights as we demanded repeatedly and with justice, nor take into account, as they should, the request of a country whose friendship until to-day was unabated and whose neutrality was preserved without wavering."

"The Spanish Government also hopes that the imperial government, fully appreciating the difficult economic situation in Spain, will enter into a discussion with the Spanish Government regarding measures which may be taken within the limits of military necessities, for the mitigation of the difficulties which have arisen in Spain."
