J. HAY & SONS,

That Secret Understanding Believed to be a Reality

NOTWITHSTANDING ALL DENIALS.

London, Jan. 25.-Although the Gov ernments here and in Berlin concur in denying all knowledge of an offensive and defensive alliance between Russia and Turkey, little confidence is placed in their professions of ignorance. Semi-official denials, in a case like this are to be expected, especially when the defeated diplomats wish to conceal the

feated diplomats wish to conceal the truth or prevent its being told. Within three weeks Parliament will truth or prevent its being told.

Within three weeks Parliament will assemble. Before that period has elapsed the evidence of the existence of a Russo-Turkish compact will probably become so complete, that further denies of the existence of a Russo-Turkish compact will probably become so complete, that further denies it is believed that Sir Philip Curlee, the British Ambassador to Turkey, will be recalled and that this agent is due to the fact that he has been in due to the fact that he has compact must have been in Lord Salison for two weeks.

The Speaker correspondent at Compact must have been in Lord Salisoury's possession for two weeks.

The Speaker correspondent at Constantinople, whose inside information gives his communication high responsibility, has written, under date of Jan. 18, that Russia is absolute master of the situation. The secret compact guarantees the integrity of the Ottoman Empire, Russia agreeing to assist in the restoration of order in Kurdistan and also to defend the Dardanelles. France has made her bargain with Russia, and will, consequently, give her assent to the compact.

Germany is currying favor with the Carr. Austria is hampered by her German connection and will maintain a pessimist neutrality and await her opportunity. This, the correspondent adds, is the end of the intervention of the powers. A triumph for Russia and Britain.

Notorious Crook Who Has Been Wanted for Some Time Past. Hamilton, Jan. 26.—Billy Black, the otorious crook, was arrested here yeserday afternoon by Detectives Couler and Bleakley. He has been in the cerday afternoon by Detectives Coulter and Bleakley. He has been in the
city off and on for about two months,
and was wanted by Provincial Detective Murray for robbing a bank at
Clarksburg, Grey County, on Aug.
31, 1894. He was also wanted by the
Teronto police, as he was one of the
famous Rutledge gan, who committed
scores of robberles in Ontario and Quebec. About a year ago the Toronto
police located the gang at Streetsville,
and the conflict that was waged, during which numerous shots were exchanged, is fresh in everyone's mind.
On Saturday afternoon as the detectives were coming up Caroline-street,
they saw Black stan-ling at the corner
of King and Caroline-streets. When
he saw them coming he walked hurriedly up to George-street and then began fo run. The detectives Jumped
into Owen Holan's cutter and pursued
him, and when they reached him,
Black pulled a revolver and threatened to shoot Detective Bleakley. Detective Coulter told the latter to shoot
the crook, but the latter put his revolver in his pocket. He was taken into
custody and will be handed over to
Detective Murray. He is about 35 years
old, and was in Kingston Penitentiary
from 1884 till 1893.

"I MILLED THAT MAN."

Chicago, Jan. 25.—Phere was a sensational scene in the Criminal Court to-day when John Oram was called up say why sentence shoull not be imposed upon him for the murder of Joseph Conlan. As Oram arose, his wife sprang to her feet and cated, "I killed that man. My husband is not guilty. He shall not suffer for my crime." The court room was instantly in an uproar. When quiet was restored, the prisoner was sentenged to imprisonment for life. Mrs. Oram told the judge that she committed the murder, but that her husband's lawyers would not allow her to testify. The judge told her her testimony would be of no avail, as her previous contrano avail, as her previous cont tory testimony would not prove e then fainted away r peatedly.

DAUPHIN ELECTION. A Pessibility That the Opposition Candidate May Win the Sent.

Winnipeg, Jan. 26.—Returns from Dauphin are coming in slowly, but considering the small majority for Mr. Burrows, the Government candidate, in the polling livisions heard from, with majorities for the Opposition candidate at six places to hear from in the previous election, there is a probability that the full returns will show a majority for Glen Campbell, Conservative.

TORRAID MARKETS

Flour—The market is very strong, but sales not numerous. Straight rollers are quoted at \$3.50.

Bran—Cars of bran are firm at \$11 to \$11.50 west, and shorts at \$12.50 to \$13.50.

Wheat—The demand is good, and prices are higher. Sales of white were made outside to-day at 77c. and red is quoted at 76c. No. 2 fall offered east G.P.R. at 78c. No. 1 Manltoba hard sold at 77c to arrive North Bay, and No. 1 at 75c west, lake and rail. No. 1 grinding in transit is quoted at 78c. No. 2 hard offered at 74c. Toronto, with 72c bid, and No. 3 hard to arrive North Bay offered at 72c.

Barley—The market is dull, with No. 1

Stem to the Tune of Thousamas

Thronto, Jan. 25.

Almost without warning, the city
was overtaken by the fereest storm
since the memorable blizzard of 1893.
The storm struck the city in all its
fury shortly after? o'clock, and before
daylight most of the damage, which
will require many days' labor and the
expenditure of thousands of dollars
to repair, had been accomplished.
The wind was greatly aided in its
destructive march by the weight of toe
which had gathered on the trees, poles
and wires during the close of the raja
storm, which had immediately greceded its coming. So great was this accumulation that when the wind commaced to assert itself, the poles snapjed like pipesteris and the heavy wires
were brought to the ground.
Erock-avenue, probably, suffered
important thoroughfare there was
haidly a pole left standing, or an electric wire that was not a source of imminent danger to pedestrians and property.
On Teraulay-street the damage is
nearly as great, though the absence
of trolley wires served to render the
consequences of the storm less disastrous than that which accompanied
the Brock-avenue disasters. At the
intersection of Esther and Queenstreets, the telephone and telegraph
wires became tangled with those of the
trolley company and a woulu mix-up
resulted. The telephone poles at this
juncture were broken off and some littied damage to property occasioned.
Peter, Simoce and John-streets were
also blocked by fallen poles and tangled wires.

In the northern portion of the city,
the companies will be obliged to spend
a goodly sum of money to again place
their systems in good working order.
Hoor, Gerrard, Robert and Huronstreets and Hazelton and Brunswickavenue are demoralized with strewn
and dangling wires, broken poles and
uprooted trees.

It is a subject for congratulation
that no lives were sacrificed as a result
of the flying wires, Many persons were
more or less shocked by coming in
contact with liv- wires and a few sustained injuries from falling poles, but
with one except

with one exception, none were seriously injured.
Completely disorganized are the only completely disorganized are the only words that can fitly describe the state of the telephone service.
One of the officials of the company estimates that its loss will fall not far short of \$45,000.

The Canadian Pacific Telegraph Company officials report that the storm has been more disastrous to their system than any they have ever experienced in Ontario. Early in the day they sent out special engines with men to

inas been more disastrous to their system than any they have ever experienced in Ontario. Early in the day they sent out special engines with men to locate exactly the sources of trouble. The only news the officials had received at a late hour, was that all their wires were down and they had no means of determining exactly when they will be able to resume business. Between Leeside Junction and Myrite on the C.P.R., a distance of 30 miles, 132 poles are broken down.

The officials of the Great Northwestern Telegraph Co. declined to attempt to estimate the damage to their service by the storm. Its area, as near as they could ascertain, covers the district bounded on the west by Guelph, on the north by Newmarket, and on the east by Port Hope.

The fire system is almost demoralized, most of the alarm boxes being burned out and the only telephones that can be used are those connecting the central hall with Wilton-avenue and Berkeley-street stations.

T. H. Chamberlain, an Eglinton milkman, was in Hazelton-avenue when a telegraph pole, with its griditor of wires fell upon him, burying him and his horse and sleigh. It took nearly half an hour to extricate the man, and he was carried into the house of Miss Harvey. S' Hazelton-avenue Chamberlain sustained serious injuries to his spine and was otherwise severely hurt. His injuries may prove fatal.

James Dyall was driving around the corner of Brock and Dundas when a telegraph pole snapped, part of it falling on his horse. The animal was killed by a shock from the live wires and 

THE BYE-ELECTIONS.

The Returns From South Wentworth and
West Wetlington.
Hamilton, an. 24.—W. W. Buchanan,
the Prohibition candidate in South
Wentworth, was defeated in the byeelection for the Legislature to-day by
John Dickenson, the Government candidate. The full leturns are : Totals..... 1442 Dickenson's majority, 812.

Dickenson's majority, 812.

West Wellington.

Guelph, Jan. 25.—The bye-election in West Wellington for the Ontario Legislature, made necessary by the unseating of Mr. George Tucker, Patron, took place yesterday and resulted in the election of Mr. James Tucker, the Patron candidate, over Mr. Patterson, Liberal. The result is a surprise to the Liberals, who carried on a vigorous campaign and had the assistance of Hon. G. W. Ross, and other Ontario Government leaders. There is one subdivision yet to hear from in Maryborough and one in Peel, which cannot overcome the majority of 228 reported for Mr. Tucker up to the present. The majorities so far reported are:

NOT GOING TO QUEBEC

Vice-Royalty Will Not be Pres

OWING TO PRINCE HENRY'S DEATH

Ottawa, Jan. 26.-In consequ he death of Prince Henry of Batten-urg, the Governor-General and Counburg, the Governor-General and Countess of Aberdeen have given up their visit to Quebec, where arrangements bad been made for their presence at a grand ball and other events in connection with the winter carnival there. St. John, as a winter port. is booming Three trans-Atlantic lines have vescels regularly visiting the port and now it is announced that another line of steamshps is coming. The New Yirk and Porto Rico, Company will put vessels on the route between St. John and Halifax and Porto Rico. The first steamer, the Spero, will be at St. John: on Feb. 3, She will, after taking in cargo there, proceed to Halifax to in cargo there, proceed to Halifax to finish loading for three ports in Porto

in cargo there, proceed to Halifax to finish loading for three ports in Porto Rico, San Juan, Ponce and Mayaguez. The Spero is a steel steamer of 591 tons register, was built in 1891 and is under the Norwegian flag. Monthly trips will be made during the winter and spring. Sugar and molasses can be secured as return cargoes. This line should afford a good chance for Ontario shippers, particularly millers, by which to send goods.

Mr. Hazen, M.P., has received a despatch from St. John, stating that the Betver line has been able to get enough of cattle in Canada for a cargo without going to the States for them. It is, therefore, probable that the order in council which has been passed perintiting the shipments to England of American cattle from St. John will ot be utilized for the present. One provision of the order is that the American Cattle Trust do not come in contact with Canadian herds.

In two or three days time the question of the man that your correspondent can learn, there does not seem to be the slightest possibility of either to be the slightest possibility of either to continue despite the efforts which are to be the slightest possibility of either continued of the proportion of the continued of the efforts which are to be the slightest possibility of either continued despite the efforts which are to be the slightest possibility of either continued of the proportion of the canadian perina highway. Sinches despite the efforts which are to be the slightest possibility of either continued of the proportion of the canadian perina highway. Sinches despite the efforts which are the policy which is more than the continued of the proportion of the canadian perina highway. Sinches despite the efforts which are the policy which are the policy

return cargoes. This line should afford a good chance for ontario shippers, particularly millers, by which to send goods.

Mr. Hazen, M.P., has received a despatch from St. John, stating that the Beever line has been able to get enough of cattle in Canada for a cargo without going to the States for them. It is, therefore, probable that the order in council which has been passed permitting the shipments to England of American cattle from St. John will not be utilized for the present. One provision of the order is that the American Cattle Trust do not come in contact with Canadian herds.

In two or three days time the question of the appointment of a successor to Col Powell as Adjutant-General of Militia will be settled. From all that your correspondent can learn, there does not seem to be the slightest possibility of either Col. Otter or Col Smith securing the position, despite the efforts which are being put forward on their behalf. If Col. Aylmer, whose qualifications for the post are of the highest order, fails to secure the office, it will, without doubt, go to Col. Maunsell of New Brunswick, by virtue of his long service, his thorough competency, and and the fact that he is the senior district officer in Canada.

The Cabinet had a two hours' session yesterday, when considerable routine business was transacted. It was expected that the report of the subcommitte on the Remedial Bill would be submitted to the council, but it was not quite ready, and therefore routine business was taken up. A Cabinet Minister is credited with the statement that the bill will be found to be moderate in its provisions and acceptable to Protestants and Catholics alike.

An absurd rumor was in circulation yesterday that three of the Cabinet. Minister is credited with the statement that the bill will be found to be moderated in its provisions and acceptable to Protestants and Catholics alike.

An absurd rumor was in circulation petitor of the thin the report. The opposition which the Liberals are offering to Sir Charles Tupper in Ca

putting forward, and these efforts, it is said, include the sending into the constituency of over \$40,000 with which to bribe the electorate, Sir Charles will have a majority of at least 500 on polling day. The Liberals are inclined to shout corruption whenever the Government wins an election, but there seems to be irrefutable evidence that in this perticular campaign the corruption is altogether on the other side.

The Government has taken steps, the Minister of Justice informed the House yesterday, to have the reports of the Supreme Court published with less delay than in the past, 'and 'to ensure that when published they would contain the judgment of the court up to the time of publication. The following directions have been given to the court reporters: (1) Cases in which judgments are pronounced, should be immediately reported with, the written opinions of the judges, which are handed down at the time. No report is to be delayed by reason of any opinion not having been handed down at the time the judgment was pronounced. (2) When a case is in type the reporter should send to each judge, if so desired, a fair proof in galley of his opinion, but no delay exceeding eight days can be authorized for the perusal or correction of such proof by the judge. (3) When it is announced that no written opinion will be furnished by the court, or no particulars thereof, a synopsis of the case should be reported. (4) Cases already decided, but which stand unreported or awaiting the delivery of written opinions, should be immediately reported with the material available, unless within ten days the opinions are handed down, in which reported.

Speaker White gave his first parliamentary dinner party last evening.

On Friday and yesterday the Capital had the worst storm of the season, 15

Speaker White gave his first parliar rentary dinner party last evening.
On Friday and yesterday the Capital had the worst storm of the season, 15 inches of snow falling. It is a tribute to the street railway management, however, that cars ran without interrution during the two days. The four powerful sweepers were kept going continuously on Friday. Yesterday the principal streets were very lively, large gangs of men and horses being engaged in removing snow.

Boreas Strack Newfoundland.

St. John's, Nfld., Jan. 28.—The worst snow storm in 20 years was experienced here during the last four days, and some of the drifts in the streets are ten feet high. Business is at a stand-still and rallway lines blockaded. All the telegraph lines have been blown down and the colony was shut off from communication with the outside world for 48 hours.

War Sensation Played Out.
London, Jan. 25.—Unless some of the
jingo politicians invent a new scare, it
may be said that the sensation caused by the Venezuela boundary dispute is finally played out. All voices
here from the press and platform call
not only for peace, but for an increase
of amity with the United States.

Str Charles Tapper's Wenderful Wishitsy—His Neminaties Speech.

North Sidney, C.B., Jan. 28.—The first week has ended of the political campaign, which is the keenest and most exciting ever held in Cape Breton, and which is riveting the attention of all Canada. Its most prominent feature is the unprecedented entusiasm evoked by Sir Charles Tupper's candidature and the extraordinary vigor displayed by that statesman in his speeches and his ability to stand the fatigues of a hard winter campaign. During the past six days he has traveled 1000 miles, delivered 12 addresses, or two a day of an average length of one hour each, to audienoes immbering as high as 3500. This would be pretty good work for one in the prime of manhood. It is unique for a man of 75, yet at the end of the week the old war horse is as fresh, as vigorous and aggressive as he was when he left Ottawa. His health is in splendid condition, and with the exception of a little hearseness, he gives every premise of going through the campaign with the same energy that char-

years.

At Hamilton the death occurred of Mr. Edward Knott, the actor. Deceased was the husband of Agnes Roselle Knott, the actress.
