Apoplexy was the cause of his sudden demise. The late Mr. Filby was one of the most learned in fruit and garden lore in the whole district, and in his earlier days did much to the advantage of the present generation along these lines. He was a member of Ivy Lodge, A. F. and A. M., and the funeral on Saturday was under the auspices of the craft. Mendelssohn's Wedding March was played by Mr. Bert Rogers, of Hamilton. The bridegroom was of white, with fringes and light, handkerchiefs, including the usual veil and orange blossoms, also a rose worn by her mother-in-law, Mrs. Wilson, at her wedding. Mr. George Greves wore a dress of grey silk, cut steel trimmings and embroidered cuffs. The groom's mother, Mrs. D. R. Wilson, was in black silk. The groom's gift to the bride was a pearl and amethyst necklace. To the groomsmen he gave gold cuff links, and to the bridesmaid a pearl ring. Many pretty presents were received, including a silver tea set from friends in Montreal, and some beautiful cut glass from Mr. Wilson's brother in British Columbia. A HAMILTON MIRACLE, Gin Pills Save a Hamilton Man's Life

Remarkable Story of How Gin Pills Restored to Health and Strength a Man Dying of Bladder Trouble When Everything Else Had Failed

Call or send for FREE SAMPLE at "Spectator" Office

For more than a year, Mr. John Herman, 513 James Street, was a puzzle to the best physicians in this city.

The poor man suffered agonies. Doctors said it was bladder trouble. "Inflammation of the Bladder," they called it. Unfortunately for Mr. Herman, all the doctoring for bladder trouble did him no good.

The doctors helped him a little when he was tossing about the bed in dreadful agony. They succeeded in easing the pain and getting him up and about, but as soon as he went to work, there was another cruel attack of pain, worse than before.

Only two and a half boxes of GIN PILLS—at a cost of 50 cents per box—did for Mr. Herman what all the doctors in this big city of Hamilton could not do—they cured him.

The National Drug & Chemical Company (who prepare GIN PILLS) have known about this cure of Mr. Herman for three years. But they wanted to be sure that Mr. Herman's cure was permanent before placing the facts before the public.

Some days ago, a representative of the company called at Mr. Herman's house on James Street, North. He was informed by Mrs. Herman that her husband (who is a brass polisher at the Hamilton Brass

Works Company), was at work and had not lost a day on account of his former trouble since GIN PILLS cured him, three years ago.

Messrs. The National Drug and Chemical Co., Toronto.

—I cannot express myself strongly enough when I speak of what Gin Pills have done for me. When I remember how I suffered not so long ago from kidney and bladder trouble, and how now I am healthy and well and strong and able to do a full day's work, I feel I should speak and tell other sufferers of my experience and of the wonderful merits of Gin Pills.

Something over four years ago I was taken down with what the doctors called inflammation of the bladder, intense pains in the back and loins, great pain and difficulty in urinating, and agony at times confined me to bed for three or four days at a time. Punctures were laid across my back and front, and by lying in a certain position I could get relief and then get up and go to work, although frequently I would have to leave my work before nine o'clock and return home to bed.

The pain was greatest in the region of the bladder, and more and more frequently amounted to unbearable agony, and I became so weak that I could not walk across the floor.

It was the kidneys that caused all the trouble in Mr. Herman's case. The kidneys are responsible for ninety-nine per cent. of all Bladder Troubles. The kidneys are always responsible for Uric Acid Poisoning and Stone in the Bladder, which Mr. Herman had. You see, the kidneys are the filters of the body.

What is called Urea, is really the dead cells and other waste matter constantly formed in all parts of the body. The blood carries this waste to the kidneys. It is the duty of the kidneys to filter out the waste.

Sometimes the kidneys are weakened by hard work, are strained, and have taken cold. Then they don't do their work properly. The urea (waste matter) stays in the blood and is changed into uric acid.

This acid is a violent poison. It irritates and inflames the bladder—it forms Stone in the Bladder.

For over a year I continued to get worse, and the doctors could do nothing to relieve my case. My case seemed hopeless, but my wife noticed in the paper one day what Gin Pills had done for

others, and sent for a box to try and see if they could help me.

From the very first I noticed and felt that the pills were doing me good. The pain was relieved at once and the attacks began to come at longer intervals, and hope that perhaps I might be cured returned to me once more.

I continued taking the pills for about six weeks, and then to my surprise and delight, the stone I sent you some time ago, came away from me and my pain stopped. I continued to take the pills for a short time longer, and rapidly regained health and strength. It is now three years since Gin Pills cured me. I have had no return of the trouble and I have not lost a day's work on account of it since.

You cannot understand how grateful we are for Gin Pills. There is not the slightest doubt that they saved my life, and we recommend them to anyone who complains of pains in the back or bladder. Yours gratefully,

JOHN HERMAN,
