

MONCTON MAN PROMOTED BY C. N. EXPRESS CO.

Announcement was made recently of the appointment of Mr. J. J. Montgomery, son of Mr. J. J. Montgomery of Moncton, to the important position of Agent for the Canadian National Express Co., at Newcastle, N.B. On the eve of Mr. Montgomery's departure to assume his new duties he was met on Monday night by a number of fellow employees in the Canadian National Express, who gathered at his home, 97 Church St. and presented him with a most appropriate set together with an address.

The address which was read by Mr. James Humphrey expressed the sincere regrets of all at their having to lose such a highly esteemed and popular fellow employee, but at the same time extended to Mr. Montgomery their congratulations and best wishes on his new appointment which is a well merited one and in the line for promotion. The presentation was made by Mr. Stanley Cunningham who also referred in most respectful terms to the popularity of Mr. Montgomery among "the boys". Several other speeches were given by others present, following which Mr. Montgomery made a very suitable reply, thanking the donors for their beautiful gift and for the kind words spoken by all. The gathering later dispersed after the singing of "For He's a Jolly Good Fellow," which was followed by the National Anthem.

To Avoid Pains Of Rheumatism

This Trouble is Located in the Blood, and Relief Comes Through Better Blood

Rheumatism comes with thin, impure blood, and can only be driven out of the system by enriching and purifying the blood.

The chief symptom of rheumatism is pain. The most successful treatment is one that quickly banishes this disagreeable symptom. Many rheumatic people suffer pains that could be avoided by building up the blood. The value of Dr. Williams' Pink Pills in rheumatic troubles is proven by the testimony of Mrs. A. Bryson, Arthur, Ont., who says:—"I was so used up with rheumatism in my shoulders and neck that I could not turn in bed without the help of my husband, and the pain at times was almost unbearable. I took doctors' medicine which did me little or no good. Then I began taking Dr. Williams' Pink Pills and have since been free from rheumatism. I can also recommend the pills to young mothers, as in my own case I found they are unexcelled. I may also add that I recommended Dr. Williams' Pink Pills to a neighbor who took fainting spells at the change of life, and who could not walk any distance. She took the pills for nearly three months and they made her a strong well woman."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

An extension of fifteen days, from June 1 to June 15, has been made in the lobster fishing season on the Nova Scotia coast from Halifax westward.

For the Kidneys

Kidney troubles are frequently caused by badly digested food which overtaxes these organs to eliminate their irritants. Help your stomach to properly digest the food by taking 15 to 30 drops of Extract of Roots, sold as Mother Seigel's Laxative Syrup, and your kidney disorder will promptly disappear. Get the genuine, 50c and \$1.00 bottles.

The Range that resists rust

No steel range lasts longer than its flues. Corroding coal gases and rust play havoc with these vital parts.

In a Kootenay Range the flues and smoke box are made of Armco Ingot rust-resisting iron, further protected by being "enamel-clad."

Under and around the oven, up through the smoke-box—the points usually attacked by rust are guarded by porcelain enamel. No other steel range has this McClary's protection. It adds years of life to the Kootenay Range.

The white nickel-plated Kootenay oven heats quickly and evenly and is easy to clean. Burns hard coal, soft coal or wood equally well.

Taking the Roof of Canada.

The glacial rocks as a movie location.

"AND just then," said Otto Paul Schwarz, of Switzerland, in describing a trip in the Canadian Pacific Rockies, "we saw a huge Bergschlund."

"And did it bark at you?" he was asked. "Or do they bleat?"

"Ach, no. A Bergschlund is not a bird. It is a huge crevasse where the ice has slipped down the rock wall and cracked. The next stumbling block we came to was a chimney. This is a hard business. It means bracing your back against one wall and your feet against the other and doing what you call on this side 'the shimmy' till you get to the top. It takes fifteen feet long huge above us."

It is a great life, this one of mountain climbing, especially higher up where the glaciers are. Imagine a river of ice with a depth of something like 1,000 feet. Great crevasses reach down, it seems,

to the bowels of the earth, peaks and minarets rise from its uneven surface and glisten in the sun which can never warm them; a giant green-white force, irresistible, stupendous, with an alluring fascination which the lovers of the outdoors cannot deny.

The picture above was taken on the "roof of Canada" near Banff, and the huge glacier which the party is traversing will, in years, perhaps, help to make fertile the prairie plains. Travelling at the rate of about four inches each day, nothing can withhold it, but another generation of sightseers will have come and gone before the ice on which the climbers stand will have found its way down to the warmer valleys where it will melt; and in the meantime, snow from the even higher peaks will press and pack and so, so far as the present day world is concerned, the life of this wonderful natural force is without end.
