

Borden in London.

London, July 17.—All the London Journals today unite in calling Premier Borden's speech most important and most worthy, expressing as he did the opinion that it was not possible that the great dominions of the Empire would be called on to take their share in the defence of that Empire as a whole without having some voice in its policy.

The Westminster Gazette, the leading government evening paper says:

"Mr. Borden made a speech which definitely recognized the coming of a new order in which the partnership of the dominions and Great Britain, at present informal and unfettered, is likely to be consolidated to definite constitutional lines.

"The partner must have a voice in the policy of the firm which the ward had not in the policy of the trusts.

"Mr. Borden suggests to us that the Imperial parliament, as at present constituted, does not meet this condition, from which we infer he and his friends look forward to some development in our institutions which will meet the case.

"We are glad this idea should be thrown out, and during the next few years hope to see it get into the thought and language of the self-governing communities."

The Times summing up says, at the end of a lengthy leader.

"The essential point is that the British and Dominion ministers should learn more to act together in the whole range of affairs which concern them both. The formal machinery for common action can be created more easily when once the practice is established.

The Pall Mall Gazette, commenting on Mr. Borden's warning, says:

"The Empire has no organ of self-government capable of co-ordinating its strength and placing its whole weight behind unified policy and action. Without such an organ imperialism can never be sound, real, or effective.

Every thinking man knows it, and the time has come when we must choose definitely between carrying our burden and laying it down.

London, July 19.—Premier Borden's conference with the naval authorities this morning offered a variant to the rumors that have hitherto been current, inasmuch as it is alleged in connection with it that Mr. Borden does not find the conditions the same as when the resolution was voted by the Conservatives in the Canadian Parliament tendering to the Imperial authorities the equivalent of two Dreadnoughts, otherwise he would be prepared to renew suggestion made two years ago. What he and his colleagues now propose is not to make an emergency offer, but to formulate proposals that shall serve as the basis of a permanent naval defence policy in the interests of Canada and the Empire.

It is understood that Premier Borden's interview with the Right Hon. Winston Churchill today was of special importance coming as it did after lengthy conference with the Canadian ministers lasting well on to midnight. The information submitted as the result of this protracted consultation was for the guidance of the First Lord of the Admiralty in the statement he is to make in the House of Commons on Monday. The proposals of the Canadian ministers, which are unlikely to be set forth in detail in that statement, will be embodied in the great plan of naval policy outlined by Mr. Churchill.

BRILLIANT FUNCTION.

Just as the garden party at Windsor Castle exceeded in number and in magnificence all previous functions of a similar character, the state ball tonight given in honor of the Canadian ministers, eclipsed in brilliancy any former affair of the kind within the memory of the King.

Mrs. Borden has recovered from her indisposition.

Mr. Borden today was entertained at luncheon by Captain Fabre, M. P. and a large gathering of officers and other gentlemen of the army and navy club.

Mr. Borden this morning went to Buckingham Palace and there to lunch before the king as a special Privy Councillor with the title of economy attached to the honor.

Canadian Route Montreal.

The Intercolonial Railway Maritime Express is the only All-Canadian Route to Quebec and Montreal from the Maritime provinces. The Maritime Express is generally admitted by experienced travellers to be the most comfortable train in America. This is especially true in regard to the dining and sleeping car services. The diners of the I. C. R. are roomy and well ventilated and furnished in the best of taste. The most excellent meals are served. Table d'hôte at a price away below the rate prevailing on the other company owned lines. The sleeping coaches are up to date in every particular, and the smoothness of the road-bed makes the long journey easy and pleasant. Being popular with a class of travellers who are generally found to be the same of good company, the through journey is never found dull, and even during the winter months there is much of scenic interest in the day's ride through the Province of Quebec. Montreal is reached at the convenient hour at 6.30 p. m. and connections are made at Bonaventure Union Station with the through trains of the Grand Trunk Railway for Toronto, Buffalo, Detroit, Chicago and other points in Western Canada and the United States. Connecting train for the Maritime leaves Pictou at 14.30—4.

Dr. Stewart of Georgetown and Dr. Rutan Professor of Chemistry at McGill College Montreal, who had made a chemical analysis of the viscera of the last of the deceased children. Dr. Rutan and all the other doctors, gave as their unqualified opinion that the children came to their death as the result of phosphorus poisoning. Dr. Rutan said that no free phosphorus had been found in the organs examined, but their condition was such as could only be produced by phosphorus. The prisoner went on the witness stand in her own behalf in the course of her evidence contradicted many essentials of the testimony given by her at the preliminary examination. After the address of counsel and the charge of the Judge the case was given to the jury Friday afternoon. After being out about half an hour the jury came into the court room and returned a verdict of guilty, accompanied by a recommendation to mercy. The prisoner was returned to jail, and on Saturday confessed to Dr. Stewart that she had administered the fatal phosphoric poison to her children. She said she put the heads of the matches, soaked them in sweetened water and mixed this with weak tea which she gave them to drink. On Monday Judge Fitzgerald passed sentence on the prisoner. The sentence of the court is that she be hanged on October the 10th next.

Prospects Good.

Winnipeg, July 19.—Crop conditions in the three prairie provinces were never better nor more promising at this time of the year. This is the report being sent out by the Canadian Pacific Railway and is the general result of reports sent in by its agents from every sub-division on the western lines. The situation in Manitoba is greatly improved over that of one week ago. Last week some points still needed rain but now every district has been greatly relieved. Seventy-five per cent of the grain is now out in head and a large part of it shows a fairly long head, although in some of the light land owing to previous dry weather the head is a little shorter than it would otherwise have been.

There was a slight touch of frost throughout south-western Manitoba last Saturday and Sunday nights but no damage was done except on some low lying land in the vicinity of Napierka, but this was confined to a very small area. There was also some hail in different sections, but the aggregate damage is very small.

What is true in Manitoba is equally true in Saskatchewan. Over half of the early sown wheat is out in head. In the sections where the drought of June was particularly felt conditions have greatly improved and the farmers in these sections are now looking for an average crop.

All authorities in Alberta state that conditions there were never better. There has been an abundance of rain and on the light land the crop looks better than it has in a number of years. It is fully expected that with the average warm weather and plenty of sunshine the fall wheat will be ready for cutting the first part of August.
