

CASTRO REFUSES THE ROLE OF LIBERATOR

Former President of Venezuela Says True Freedom is a Chimera and Liberty Degenerates Into License—He Himself Wants Only Peace and Quiet to Enjoy the Millions He Has Pilfered

ed from People.

Berlin., Jan. 29.—Cipriano Castro, the former president of Venezuela, has reported that he is registering considerable interest recently made public in the effect that he was planning a counter-revolution in Venezuela and that it was his ambition to become the "new liberator" of the people of Venezuela. Senor Castro received the news of the revolution in Cuba with great interest. He wore a black skull cap decorated with gold braid and was still looking rather weak as a result of the confinement that followed his recent operation.

Refuses to Accept Role.

He said, however, that he cannot accept the role of liberator of the Venezuelan people, and signed me, because my experience of nine years as president has taught me that

people's ideas of liberty degenerate into license.

It is only to supply it seems that new nationalities, like Venezuela, are doomed to be the slaves of the passions of their own slaves or the slaves of another nation.

It is only to be convinced more than ever today of the wisdom of words of Simon Bolivar, the great liberator, when he said that the people of Venezuela were slaves of their prophetic words, whose meaning repeatedly has been proven true.

It is only to be convinced more than ever that "I repeat what I said on another occasion. I do not complain of anything but of the fact that the people of Venezuela are not free, and that they are in poverty and retirement." Senor Castro will leave the private hospital where he now is to go to the United States and return to the Hotel Esplanade.

PREVENTING HIM SPEAKING.

Victor Grayson, Victor of Practice Joke, at Portsmouth.

Barnstaple, Jan. 30.—Victor Grayson, the famous orator, who has been named, when the House of Commons recently suspended because he did not appear, has been prevented from speaking for not succoring the starving thousands on the streets, was the victim of an annual practice joke today. He was to have made a speech at a labor conference this afternoon, but two gentlemen who were unknown to him, and who were invited to the conference and invited him to an automobile ride

through the city. The soldiers accepted and the strangers drove him into the country, where they had luncheon together. Then they drove to the coast, where they drove at top speed. Suddenly the car was halted and it was announced that the driver had been killed. After a considerable search, the car was found overturned, and the party started for Portsmouth, where they arrived at the conference before which Mr. Grayson was to have spoken was closed.

NO INFUX OF JAPANESE.

U. S. Figures Show Emigration Greater Than Immigration.

Washington, Jan. 29.—The alleged large surreptitious influx of Japanese over the Mexican and Canadian borders has been denied by the United States immigration officials. It may be a small influx, but it is not large enough to amount to anything, according to the figures that Secretary Streness makes to Senator Flint, of California, in a letter which has written to the senator's office. The secretary says that the immigration criticisms made by the alleged influx are stepped by the senator's state toward the Japanese. The secretary submits the official figures in support of his statement that the emigration of Japanese from the United States has been greater in 1922 than in any other year since the country. The secretary also praises the working of the agreement with Mexico, which has been signed by President Roosevelt that the anti-Japanese agitation in the Californian legislature be stopped.

Former President of Venezuela Says True Freedom is a Chimera and Liberty Degenerates Into License—He Himself Wants Only Peace and Quiet to Enjoy the Millions He Has Pilfered

Berlin., Jan. 29—Cipriano Castro, the former president of Venezuela, has been interviewed regarding certain reports recently made public to the effect that he was planning a counter-revolution in Venezuela and that it was his ambition to become the "new liberator" of the people of Venezuela. Senor Castro received his questioner seated at a desk covered with a red cloth and wearing a gold braid and was still looking rather weak as a result of the confinement that followed his recent repatriation.

Refuses to Accept Role.

He said: "I cannot accept the role of liberator of the Venezuelan people assigned me, because my experience of nine years as president has taught me that

truth freedom is a chimera and when we believe we are about to 'attain it, the people's ideas of liberty degenerate into license.

"Unhappily it seems that new nationalities, like Venezuela, are doomed to feed the slaves of the passions of their own sons or the slaves of another nation. I am convinced more than ever today of the wisdom of words of Simon Bolivar, the great liberator, when he was about to die, 'I have sown in the sea.' These were prophetic words, whose meaning repeatedly has been proven true.

After a considerable delay repairs, seemingly, were effected, and the party started for Portsmouth, where they arrived at 6 o'clock in the afternoon, when the conference before which Mr. Grayson was to have spoken was closed.

NO INFLUX OF JAPANESE.
U. S. Figures Show Emigration
Greater Than Immigration.

Washington, Jan. 29.—The alleged large surreptitious influx of Japanese over the Mexican and Canadian borders is absolutely incorrect. There may be a small influx, but it is not large enough to amount to anything. This is the statement that Secretary Straus makes to Senator Flint, of California, in a letter which he has written.

The secretary submits the official figures of his department to prove that the emigration of Japanese from the United States has been greater in 1942 than the immigration into the country. The secretary also praises the working of the agreement with Japan, and adds his appeal to that of President Roosevelt that the anti-Japanese agitation in the California legislature be stopped.
