The Siberian Here.

The Allan Liner Siberian, Capt. J. Williams, arrived here at 4 p.m. yesterday from Liverpool after a run of 9 days. She left on Saturday, the 7th, and at the start the ship experienced head winds and rather heavy sea, but later the weather cleared and it became fine. Off this coast, especially on Friday last, the ship encountered dense fog, and as several icebergs were met the ship ran at very slow speed. The northeast winds prevailing made it very cold, and Saturday when the fog lifted and cleared away the ship came along at normal speed. She brought 619 tons of general cargo and 54 bags mail. Her passengers for this port were H. L. Braithwaite, J. Cowan, Cecil Clift, F. and Mrs. Morell, Rev. A. G. Reeves, Mrs. Frances, E. Stewart, Miss Costance, J. Stewart, Master Cecil C. Stewart, and 11 steerage. The ship has in transit for Halifax 8 saloon passengers, 11 second cabin and 282 emigrants in the steerage, all of whom with the exception of 100 Russians, who go to Sydney, will locate in the Canadian Northwest. There are some changes in the ship's officers. Capt. Williams, the ship's former master, who was for a while commander of the Mongolian, has again taken command. The purser, Mr. J. W. Bauchop, was until recently on the Hesperian. Mr. McPhie is the chief steward, succeeding Mr. Robble, who is now on the Lvonian. The chief officer is Mr. W. Henderson; chief engineer, Mr. McCrondale; doctor, G. H. Rudolph, and Miss Ferguson, stewardess, all of whom have been on this service before.

The Irish Party

Against Delay of Veto Question.
London, May 11.—The feeling of the Irish party is that any question of compromise or of the postponement of the veto question is impossible. They believe it would be suicidal. The Irish party recognizes that it might be necessary, for formal purposes, to have a fortnight's delay, but any idea of postponing the veto issue till autumn, still less till next year, would cause the Liberal party to fall to pieces.

Notes From Hr. Grace.

Mr. James Foley has just completed a very pretty model of a brig—a type of vessel that we seldom see about our wharves or harbours at present, but which were quite common in former years. The work is highly spoken of by all who viewed it. Mr. Foley has presented it to his old friend Mr. H. P. Shortis, St. John's. Mr. Shortis will appreciate this gift and be reminded of the good old days when the sealfishery was mostly conducted in this class of craft. The name given the model is the "Belle."

The different churches were nicely draped during last week in mourning for our late King.

The Conception Bay British Society and its Juvenile Branch will meet in their hall on Wednesday evening to make arrangements for a church parade on Friday next.

Constable M. Grouchev has been on his rounds the past few weeks seeing the sanitary regulations carried out. Any person whose yard and premises are not in a good condition will be brought before the Court. This is a good law and one that should be strictly carried out. Constable Grouchev is determined to have it done thoroughly.

CORRESPONDENT.
Harbor Grace, May 16th, 1910.

Will Hold Memorial Service.

We understand that arrangements are now in progress for the holding of a memorial service at the Presbyterian Church at 11 a.m. Friday. Rev. Dr. Cowperthwaite will occupy the pulpit and a special programme of music will be rendered by the choir, led by Mr. Moncrieff Mawer. All who wish to attend will be cordially welcomed.

GOOD SALMON FISHERY.—We learn from passengers by last night's shore train that large numbers of salmon were taken yesterday morning at Bay Roberts, Clarke's Beach, Harbor Grace and Carbonear. Some of them were of very large size and sold as low as 9 cents per pound.

First Aid to the Injured

Editor Evening Telegram.
Dear Sir,—Now that His Excellency the Governor in Council has been pleased to order that from and after the 1st day of July next, all candidates for certificates of competency of all grades in the merchant marine shipping service shall produce to the chief examiner a certificate from the St. John Ambulance Association to the effect that they have passed an examination in First Aid to the Injured, I would like to know who are more injured than the men who have weathered the storms of the ocean passed their examinations, and then if captain be compelled to go ashore with friend, or if mate to go before the mast, while unceremonious men are allowed to take charge of foreign-going ships under certain tonnage. First Aid to the Injured, is it? Then for goodness sake make an effort to aid the men who ply this very arduous calling, are poorly paid and little thought of. It seems now that a man besides studying seamanship also must be half a doctor before he can get the necessary papers. What would this country be but for its seamen? Another question or two, and I am done. How many passed captains are now sailing as mates? How many mates are compelled to go before the mast? Also, what number of foreign-going ships can sail without passed men? Give our sailors a chance to work themselves up; encourage them. They are injured; yes, give them first aid and they will be sure to give it to others.
Thanking you for space, I am,
Yours, &c.,
SALVAGE.
Harbor Grace, May 10, 1910.

COMET'S TAIL MERE VACUUM.

BOSTON, May 12.—"There is no danger from the comet," said Dr. Wilson, professor of astronomy at Harvard University, in his lecture last night before the Boston Scientific Society. "The cyanogen discovered in it was found only a little way from the comet's head, and as for the tail which we are going through on the 18th, that is about as good a vacuum or as bad a one."

YOUR HEART FLUTTERS.

Your stomach has failed to do proper work. This is why your blood has grown thin—this is why you have lost your color. It shows why the food you eat fails to nourish your system. Now your nerves are starved, your blood is starved, and your brain, too. Now you know why you have fears, weakness, and feel tired, morning noon and night. Take Ferrozone (Blood Food)—then watch—in a few days just note how much better you feel. Even your color will show some improvement. Your digestion will certainly be very much better. As digestion improves your strength is sure to grow, and your spirits, too. A little later what a splendid appetite you will have. Not the sort that comes and goes, but the kind of appetite that ensures that you get strong and, what is better, keep strong, too. You will know convincingly that Ferrozone (Blood Food) makes your blood strong and rich, soothes your nerves, gives you restful sleep and imparts such vigor that you only knew when you were strong and well. Try Ferrozone (Blood Food), at druggists, price 50c. per box.

The Municipal Election.

Editor Evening Telegram:
Mr. Editor,—I consider the attack of your correspondent, W. T. G., on the men who are now offering themselves as candidates for the Municipal elections most unwarranted. The funny man is allowed to say many things, "For Wit a diamond brings, and cuts his bright way through," but the serious writer is taken seriously, even when he tries to be funny, and to try to be funny at the expense of men who have the courage to face the problem which presents itself to the incoming Councilors, is just too funny.

Just two of the old Councilors seek re-election, why? Out of a population of 30,000 just 11 others seem to have any earnest desire to take up the burden of Councilorship. Why? Does W. T. G. think it is a case "where fools rush in?" Then where are the angels? What do they fear? **Ridicule!**

Yes, ridicule, the angels are afraid they'll get their feathers singed, and a la W. T. G. "who can well blame them?" We shall always have the man in our midst who sits back in his superiority and finds fault with the work done for him by his energetic friends. We have him in club, society, committee, church and state. He is N. G., and his posing as critic can only be accounted for by an abnormal swelling of the Ego.

Good, easy man, look to thyself. Think what a crime it is, to this struggling city, that a man who seems to possess such wonderful initiative as you should be deterred by the jeer of the cynic or the gibe of the prig from coming forward as the Moses of this St. John's of yours, and leading us in sight, at least, of the long promised land.

The man who is able to size up things is a valuable man, when he puts his talents to the proper use; when he sizes up a thing just for the gratification of "downing" it, we grow suspicious. Does he want to shine as a "downer?" Or is it that his passion for letter-writing is as insatiable as the late lamented William Macawber's?

I have lived long enough to see newspapers perish with the same disease as W. T. G. and others of his ilk are suffering from just now, superior judgment (?) of the "kill 'em quick" brand that drips back with deadly effect on the would-be reformers.

What has this Willie Too Good or his mind anyway? "Is he one of the smart set? Are there too many mechanics in the field for him? Did he expect to be called out himself? Or is he the "long felt want" that St. John's citizen has failed so long to discover? Then let him proclaim himself! We are waiting for his coming as the toper, in the early hours of morning waits for nine, anxiously, eagerly, hopefully, longingly; if he is the long expected, let him come, but save us Mr. Editor, spare "the long suffering public" (for whom he seems to have such compassion) from a continuance of the rather scattered remarks of which he promises to unburden himself in the near future unless he comes out as a man and tells us what he will do for his native city "if elected."

DO IT NOW.

No Liberals Need Apply

Editor Evening Telegram.
Dear Sir,—A second public wharf is being built here, but it is not of that I write; it is the prejudice shown to us fishermen who were known supporters of Gear and Davey during the last election. No one but a supporter of Robinson has been employed thus far, and I must say that it is the first time that a distinction of this kind has ever been made here as far as public works are concerned. I must also say we miss the upright and manly policy adopted by the last Council, who did not ask a man which side he was on but treated all alike. The present Council are not representing us with our good wishes. They were sneaked in over our heads just when we were expecting to elect our proper Councilors, according to the promise of the People's Party last spring. Well, sir, I must say a word about our money. No one knows where it is gone here, although it is thought to be kept back to build the second wharf. Last fall we only got one dollar and twenty cents a man as against an average of three dollars and eighty cents for the last four years. It was reported that there was a \$250 marine grant sent here last year, but when several of the Councilors were asked, they knew nothing of it. It seems that no one knows anything but the Chairman. He has got all the "know" and he keeps it to himself. Thanking you for publishing this, I am,
Yours respectfully,
FISHERMAN.
St. Lawrence, May 2nd, 1910.

MEMORIAL SERVICE.—A memorial service will be held at Gower St. Church Friday evening next. The choir is practising special music.

A. & S. RODGER.

C. E. T. S.

A meeting of the C. E. T. S. took place last night. Three members were initiated. The Chairman, Mr. Bell, made a pathetic reference to the death of the King and informed the meeting that a message of condolence had been sent from the Society to King George V. through the Governor. The Secretary informed the meeting that he had received letters from several gentlemen who had been elected honorary members in which they accepted the membership as Associates of the C. E. T. S. The list included Sir E. P. Morris, Hon. Geo. Knowling, Hon. R. Watson, J. Outerbridge, J. A. Robinson, W. J. Ellis, A. Outerbridge, Rev. J. Thackeray and Rev. C. Hackett. The membership gives them the freedom of the club rooms. The following is the resolution of condolence sent to the King:—

"The Church of England Temperance Society in Newfoundland most humbly desires to tender to the King, Queen, the Queen Dowager Alexandra and the Royal Family an expression of its heartfelt sympathy and deepest condolence on the death of His late Majesty, King Edward the Seventh, Patron of this Society. The Society prays that God, in His infinite mercy, will alleviate the poignancy of their sorrow, particularly that of the bereaved Queen Dowager, and grant to His Most Gracious Majesty King George health and happiness, and an abundant outpouring of his wisdom, which will enable him to guide aright the destinies of the Nation for many years to come."

A Harbour Gracian Who is Making Good.

JOHN F. KENNEDY.

John F. Kennedy, business agent of Boston Sheet Metal Workers' Union 17, achieved great prominence as a member of the first Boston Finance Commission, and the ability and independence that he exhibited as a member of that body illustrates his value to organized labor.

Mr. Kennedy has been business agent of Union 17 for about 10 years. Largely through his efforts the organization has become strong in numbers and financially. Wages and working conditions have been greatly improved. The union is now one of the strongest in the city.

As a delegate to the Boston Central Labor Union, Mr. Kennedy has taken a prominent part in the affairs of that important central body. He has been a member of the board of trustees and served on important committees. A number of difficult labor disputes have also been adjusted by Mr. Kennedy.

His name was submitted to Mayor Fitzgerald in 1907 by the Central Labor Union for its representative on the Finance Commission. Mr. Kennedy made a study of municipal affairs, and was altogether a creditable representative of the labor unions on the commission.

Mr. Kennedy lives in Ward 20, Dorchester. He comes from a Southern family which traces its ancestry back to the time of Lord Baltimore and the Calverts of Baltimore. His father was Charles L. Kennedy of that city, a

superintendent of construction, and John F. Kennedy was born on the water while his parents were making a trip from Baltimore to Newfoundland. He is about 35 years of age.

Brothers Arrested for Thieving.

Two brothers, Patrick and Richard Grey, who are hard cases and often get terms in jail for drunkenness and theft, were arrested by the police yesterday afternoon for stealing. One went on board the s.s. Bonavista yesterday afternoon and getting into the men's quarters tried to get away with their clothing, while the other attempted to steal some clothing from Mr. Pike's residence, Pleasant Street. Both men are incorrigibles and will no doubt spend another term in jail.

Post Mortem Held.

Yesterday afternoon Dr. Rendell went to the Morgue and examined the body of the infant found in a grating yesterday morning at the foot of Chapel Street. He found that it was a child of immature birth, as the police had supposed. The body will be interred to-day. The police are now working on the matter and have a clue which might lead to the discovery of the mother.

CHOIR PRACTICE.—A special practice for the four Methodist choirs will be held on Wednesday night at 9 o'clock.

NOVELTIES in Ladies' EMBROIDERED BLOUSE ROBES.

SEE OUR NOVELTY BORDERED ROBES, TO MAKE, consisting of:

4½ yards 45 inch Flouncing,
4½ yards Trimming,
2½ yards 48 inch Bodice Material.

FOR

\$3.75

EACH.

Ladies, there's no question about it, you must have one of these Beautiful Robes. You would not want summer to find you without a **Dainty White Dress**, and for that reason we invite you to come and look them over.

S. MILLEY.

Healthy?

If Not, Why Not?

As truly as good seeds bring forth good fruit, right food brings forth good health.

Grape-Nuts

is a pure, partially pre-digested food and is made for the purpose of building up and keeping good health.

It has received the voluntary testimony of thousands who have used it and regained health. You, too, can do this.

Sick or well it is excellent food which brings results.

Attached to every third package of Grape-Nuts is a little booklet, "The Road to Wellville"—It is worth its weight in gold to people who realize the value of good health and how one must guard it.

Get acquainted with Grape-Nuts—It is an acquaintance you will never regret.

"There's a Reason."

Postum Cereal Company, Ltd.,
Battle Creek, Mich.

DOCTOR ON FOOD
Experimented on Himself.

A physician over in Ohio says: "For the last few years I have been a sufferer from indigestion and although I have used various remedies and prepared foods with some benefit it was not until I tried Grape-Nuts that I was completely cured. "As a food it is pleasant and agreeable, very nutritious and is digested and assimilated with very little effort on the part of the digestive organs. "As a nerve food and restorer, Grape-Nuts has no equal and as such is especially adapted to students and other brain-workers. It contains the elements necessary for the building of nerve tissue and by so doing maintains an equilibrium of waste and repair. "Grape-Nuts also enriches the blood by giving an increased number of red blood corpuscles and in this way strengthens all the organs, providing a vital fluid made more nearly perfect. "I take great pleasure in recommending its use to my patients for I value it as a food and know it will benefit all who use it."
