Signor Marconi

Writes on the Archbishop's Letter.

Editor Evening Telegram. Sir—I have read with interest the letter of His Grace Archbishop M. P. Howley which appeared in your issue of the 4th inst., as also the reprint of his letter of the 8th January, 1911. It appears to me that His Grace has been misinformed when he states that communicating is impossible by means of wireless telegraphy between England and America, with Newfoundland lying between, as for several years past commercial communication by this means has been maintained between stations situated at Cape Ray in Cape Breton, Nova Scotia, and at Clifton in Ireland without any difficulty having been experienced owing to the intervention of Newfoundland. Last year upwards of one million words were transmitted between these two stations.

In addition there are many other cases of wireless telegraphy being used for transmission over land, as for instance between Italy and Italian East Africa, between Manaus and Porto Velho in Brazil, and between the Argentine and Chile. In the latter case the messages pass over the Andes, some of the highest mountains in the world, and thereby prove that the "waves" used in wireless telegraphy are not impeded by obstructions which His Grace has compared to a rock projecting above the surface of the water in a pond.

I would also state that His Grace seems to have formed a wrong impression when he mentions that I have been anything but most courteously treated by the authorities and the public generally in Newfoundland; on the contrary I have always received every possible consideration, kindness and assistance at their hands, and I would have established my system on the island for the purpose of transatlantic communication some ten years ago had it not been for opposition on the part of the Anglo-American Telegraph Company, who threatened to enforce the monopoly granted to them by the terms of their agreement with the Government.

In conclusion I would like to express my appreciation of the favourable interest which His Grace has always taken in regard to the introduction of my system of wireless telegraphy in Newfoundland. I am, Sir, Yours faithfully, G. MARCONI. St. John's, N.F., Sept. 6th, 1911.

Stomach Misery Just Vanishes.

No Indigestion, Sourness, Gas or Dyspepsia five minutes later.

As there is often some one in your family who suffers an attack of Indigestion or some form of Stomach trouble, why don't you keep some Dispepsin in the house handy? This harmless blessing will digest anything you eat without the slightest discomfort, and overcome a sour, gassy Stomach five minutes after.

Tell your pharmacist to let you see the formula, plainly printed on these 50-cent cases of Page's Dispepsin; then you will readily see why it makes Indigestion, Sour Stomach, Heartburn and other distress go in five minutes, and relieves at once such miseries as Belching of Gas, Eructations of sour, undigested food, Nausea, Headaches, Dizziness, Constipation and other Stomach disorders.

Some folks have tried so long to find relief from Indigestion and Dyspepsia or an out-of-order stomach with the common, every-day cures advertised that they have about made up their minds that they have something else wrong, or believe theirs is a case of Nervousness, Gastritis, Catarrh of the Stomach or Cancer.

This, no doubt, is a serious mistake. Your real trouble is, what you eat does not digest; instead, it ferments and sours, turns to acid, Gas and Stomach poison, which putrefy in the digestive tract and intestines, and besides, poison the breath with nauseous odors.

A hearty appetite, with thorough digestion, and without the slightest discomfort or misery of the stomach, is waiting for you as soon as you decide to try Page's Dispepsin, five minutes.

Only Two Prisoners.

During each holiday and half holiday the past season the police were kept pretty busy and often 5 to 10 prisoners would be jailed. Yesterday however was an exception, only two inmates being placed in the cells. One of these was a seaman of the Cape Breton, found drunk on the Long Bridge, and who gave Officers O'Neil and Paraday much trouble in arresting him.

Be sure you have a bottle of Stafford's Liniment in your home.—ad 12

Baby's Terrible Eczema

Hands Tied to Prevent Scratching. Five Doctors Failed to Relieve, but Zam-Bak Worked a Cure.

Mrs. Chas. Letters, of Prescott, North Channel, Ont., tells how Zam-Bak cured her baby. She says:—"My baby's head and face was one complete mass of sores. The itching and irritation were fearful, and the little one's plight was so serious that at one time we feared her ears would be eaten off by the disease. "As a last resource we were advised to try Zam-Bak. The first box did so much good that we felt sure we were at last working in the right direction. We persevered with the treatment until we had used thirteen boxes, and at the end of that time I am glad to say Zam-Bak had effected a complete cure."

For eczema, eruptions, rashes, teething, itchy, ringworm and similar skin diseases, Zam-Bak is without equal. It also cures cuts, burns, scalds, piles, abscesses, chronic sores, blood poisoning, etc. All druggists and stores at 50 cents a box, or post free for price from Zam-Bak Co., St. John's, Nfld. Refuse imitations.

Good Old Man Gone.

Mr. H. W. LeMessurier had the following message yesterday from Fogota:—"Pastorian Dowell J.P., Customs Officer and Postmaster at Change Islands, died Monday morning. Good old man gone."

A Painful Accident.

While Mr. J. Payne was engaged at C. F. Bennett's premises yesterday packing lobsters he accidentally struck his hand with a sharp tomahawk he was using and nearly severed two of his fingers. He was first treated at Connors' pharmacy and later by a doctor.

Fogota Gets Away.

Though no settlement has been made in connection with the strike on the Rescue and though Union men refuse to work on O'Rourke & Co.'s premises, the Fogota got away yesterday. The permanent hands on the wharf, the office hands and other employees set to work and discharged and loaded the ship in short order.

Yesterday's Excursion.

Yesterday about 250 people went out on the excursion to points as far as Kelligrews at 2.30 p.m. The new local engine No. 111 took out the train in which there were some of the new locally built cars. The engine worked splendidly on this run, made good time, and the train was back here at 9.15 sharp. The last afternoon excursion train will leave here Wednesday next.

WINARD'S LINIMENT CURES DISTEMPER.

Settlement Without Hostilities.

Special to Evening Telegram.

BERLIN, To-Day. The Foreign Minister's statement on Monday, in which he said that the Moroccan problem was in a fair way of being settled without recourse to hostilities and the negotiations, now going on are largely a matter of plain bargaining, reached yesterday the inspired German newspapers. The local Anzeiger says the French proposals and the German counter-proposals for an understanding, and that their amalgamation will end the night-mare of a month's duration. The Cologne Gazette says we are convinced that Germany and France will not cross swords over the Moroccan question. The Foreign Minister will deliver Germany's answer to Ambassador Cambot probably to-day. The nervousness of the informed public continues to be nourished by an increasing crop of wild rumors, though the run on Savings Bank has been confined to Saxony.

British Society's Sale.

The variety sale held yesterday by the N.M. British Society proved to be a very successful affair. The sale was held on the ground flat of the Society's building and was attended during the afternoon. The different stalls held a profusion of goods of all kinds and quick sales resulted. The vegetable stall was particularly well stocked and its contents went rapidly. Tea and refreshments were served by the lady friends of the body, and President Goodland and all associated with him are to be congratulated. The hall was beautifully decorated, and considering the success which attended it the sale will become an annual event. At night a very enjoyable dance was held in the store of the Society's building. The proceeds amounted to a goodly sum.
