

Man's Every Step

Wastes Energy if He Lacks an O-P-C

Every moment you stand, there is drain on the nerve force—a fearful, needless tax.

It can be ended entirely by simply wearing an O-P-C suspensory. Many a man wastes half his vitality, simply for lack of this comfort and help.

The O-P-C is the scientific suspensory, famous for 20 years. Our book tells why you need it. Write for it now.

The Old Horses.

As I go drilling through the town I see old horses broken down, poor, friendless and abandoned plugging, still straining feebly in their tugs, to haul big loads beyond their strength, and hoping death will come at length. Ah, what's more painful than these, the worn out nags with broken knees—and broken

But when the vim of youth was over, and they could carol no more, like outcasts they were chased away to die at least six deaths a day. No kindly rifle ends life's storm; no friendly dose of chloroform; they'll bring a few dishonored yen, so send them to the "dinky men." Whenever I see a poor old steed, sad-eyed, despairing, broken-kneed, I think: "The man who wore him down should haul his burden through the town."

Copyright, 1912, by George Plattison Adams

MANY SPORTSMEN OUT.—A great many sportsmen are now out at the ponds and streams along the railway line, and others are coming in daily. Salmon were never so plentiful, and the weather being temperate all are enjoying themselves well.

Fortune Bay News.

Editor Evening Telegram.

Dear Mr. Editor,—Allow me space in your paper for a few remarks. In the first place I would like to know who and what we voted for last election. Was it to return a party to squander our money? It appears so. We see nothing but waste all round. Regarding the lobster hatching that is one of the greatest farces on record. The idea of putting fences to keep lobsters, in the way some of them are, is nothing short of bare faced fraud. Just imagine, putting a fence in a place where the bottom is made of large and small stones, leaving spaces in some places where a small whale could pass through, and it is put up in such a temporary manner that the first little wave that comes the whole lot will fall down. But no doubt it serves what it is intended for, that is to employ some of Sir Edward's heels. Report says that there has been another Magistrate appointed for Fortune Bay, another heeler. Mr. Editor, there are no Magistrates enough in Fortune Bay. Is that what we voted for?

We have nothing to say against Magistrates, we respect them in their office, so much so that we would like for them to be reliable and truthful men worthy of respect. Why is it the Government cannot give heelers suitable jobs to get their living at? Is there not some place in the city where they make brooms? That would be a suitable place for some of them; still, perhaps, it would not suit their palate, and it would be poor return for all the lying they did before the last election.

We have one consolation, Mr. Editor, and that is we have to vote again, and when we do we trust it will be to return a party that will not throw public money away.

The time will come when this party will be around making promises which they never intend to fulfil, then to away and laugh at the silly Fortune Bay men. But some of us can see through their trickery—old age pensions, and so on. It appears that a man needs to be in the grave before he is entitled to that. If they gave the old fishermen some of the do nothing jobs that are given to some of the heelers and men that are too lazy to work the public money would be spent more satisfactorily. Instead of doing that they make appointments to suit their own ends, some of them an insult to the public.

Thanking you for space.

Yours truly,

TAXPAYER.

Fortune Bay, July 6th, 1912.

Gas is Coal With the Trouble Taken Out.

Gas is really nothing more than coal, only with gas you have to take less the dirt, ashes and smoke. These have been taken out by the Gas Company. The weight, too, has been taken out, for when you use gas you don't have to carry it up from the cellar in buckets, straining your back in the attempt. All of the drudgery has been removed. The gas company has taken everything out of the coal but the heat—and that's the one thing you want. This they deliver to you right to the burner of your range. You only have to turn a tap and strike a match in order to have it. If your mind is half made up to buy a GAS RANGE, remove the remaining doubt by thinking of last summer and the many days when your kitchen was like a burning furnace. The gas range never overheats the kitchen. Phone the gas company, or call at their showrooms and get full particulars.—June 20, this m.

A "Hard-to-Wear" Hat

Wherever you go for your holidays, you will surely need a "hard-to-wear" hat, one which you can don "when the winds do blow and the rain fall."

For such a purpose I advise you to take one of the neat little hats which fit snugly to the head and keep one's hair in apple-pie order. Such a hat requires very little trimming, just a bunch of flowers, and if these are made of glace ribbon they will not only look smart but also be proof against spotting, even if unprotected from the rain.

Grows Hair Abundantly

This is an age of new discoveries. To grow hair after it has fallen out today is a reality.

SALVIA, the great Hair Tonic and Dressing, will positively create a new growth of hair. If you want to have a beautiful head of hair, free from dandruff, use SALVIA once a day and watch the results.

SALVIA is guaranteed to stop falling hair and restore the hair to its natural color. The greatest Hair Vix or known.

LARGER SHIPMENTS.—This season the shipments of ore from Bell Island promise to be larger than heretofore and the amount exported to date is in excess of the quantity sent out this time last year.

Wholesale and Retail Dealers.

Bankers Are Coming Home.

Most of the banking schooners on the South West Coast have returned to the home port from their second voyage. All the Cape St. Mary's fleet are back from the Grand Banks with an average catch landed. Up to the present some thousands of quintals are under salt, the amount that each vessel hauls for, varying from 1,200 to 2,500 qts. It is estimated, however, that the aggregate catch will not be ahead of the average, and the outlook for that even is not altogether bright. A material setback to the bankers is the scarcity of caplin baiting and the loss of time looking for these useful little fish.

Regatta Notes.

Bob Sexton is putting the finishing touches to Reid's new race boat which will be launched to-morrow week.

So far two crews are practicing for the Press Race—the News and Chronicle. The former will row the new Lion and the latter the Blue Peter.

The crew that won the Trade Race last Regatta sat together for the first time this season and rowed the course in 10:50 in the Myrtle.

None of the Fishermen crews have yet been out. It is said that each Brigade will enter a crew of "Old Boys." This ought to prove an ideal race if placed on the programme after the Brigade race. The Collegians and C. E. I. are the only crews practicing for the Football race.

Football.

The Star and Casuals contested on St. George's Field last evening and the former won by five goals to one.

Owing to the threatening rain there was a small attendance. The exhibition on the whole was poor. The ball was greasy so that it was difficult for the players to control. "Neddy" Power was seen in the forward rank of the Star. He played a rattling game and scored four goals for his team.

Mr. C. E. Hunt acted as referee. Last evening's game was continued in darkness. When teams are called to meet at 7 p.m. players should turn up before at least 7:30, as was in evidence last night. In future the game will go on without the slow coaches.

Another Draw.

Last evening at Bell Island the Dominion and Nova Scotia football teams met for the fifth time in the presence of over two thousand onlookers. The game resulted in a draw, each team securing one goal. Only one more game remains to be played. If the Dominions win another play off will be necessary to decide the champions.

To-Night's Game.

Probably the fastest and best football match for the season will take place this evening when the Cadets and Guards will meet on St. George's Field. The result will have an important bearing on the championship. At the last meeting of these teams the C. C. C. won but since then the Guards team is strengthened.

Here and There.

ORGANS.—The famous Needham Organ—sold in tens of thousands of homes. Eight styles to select from. Call and see them. CHESLEY WOODS, Sole Agent for Nfld.—June 25.

Grand Garden Party in aid of St. Patrick's Church will be held at the Bowring Park, on to-morrow, Wednesday afternoon. Trains leave at 2:30, 4 and 6 p.m.; returning at 8 and 9 p.m. Come and see the new Park. advt.21

A FINE CREW.—The Methodist Guards have an excellent crew of oarsmen to represent them in the Brigade Race on Regatta Day. They are now practicing each evening in the Nina on the harbor, and their supporters hold that it will take a hard crew to beat them.

WHALING NEWS.—The whaler Hump, which was operating at Dublin Cove, has gone on to Trinity to fish for the balance of the season. At the former place the Leviathans are now very scarce. So far the Hump has captured thirty whales which is behind her catch this time last year.

"THE TELEGRAM."—Copies of "The Evening Telegram" may now be purchased in Boston, from the Eagle News Company, 76 Summer Street.—1

GOOD SALMON FISHING.—Messrs. T. Connors, R. Ledrew and J. Spearns returned from Pinsent's Falls yesterday. They secured 42 salmon after 3 days fishing, the largest being 10½ lbs. Salmon are very plentiful at the Falls and up to the time they left Mr. and Mrs. A. B. Morine who are fishing there secured 51 fish.

JAS. BAIRD, Ltd.

Hearts as well, no doubt—their ribs, all fleshless, sticking out, with shoulders sore and tortured eyes, when they gather fifty million flies? When they were young and fat and strong they labored blithely all day long, or the pike like Maud S. raced—they did their best, wherever placed. Then there hands to stroke the necks of these poor men-forgotten wretches, and they were groomed and manicured, and lives of comfort seemed assured.

* GONE TO TRURO.—By the Bruce express yesterday seven young women left here to go to work in the woollen mill at Truro, N. S. They were sent forward by Mr. Dixon, and some of them who were in Canada before are skilled operatives.

Householders in need of dry kindling can have their wants supplied by calling 'phone 317. Horwood Lumber Co., Ltd., who will furnish it in car load lots, delivered.—June 27, 12
