it related only to the Fisheries, and, moreover, on the so-called Bill being examined, it was found to have only the endorsement of the title on the back, while the mside was perfectly blank. The dodge was exposed, and the Premier's hunded of hisself and of his despicable trick, had to withdraw what was intended for a bill mitt the actual bill was framed. John A. hoped that by introducing his blank bill, and by the subsequent reference of the Finance Minister in his speech on the budget to the Treaty, a discussion on the subject would be provoked, the Opposition might show their hand, and some valuable hints might be obtained in drawing up the bill. The scheme was well planned, but the trick was too transparent, and John A. had to drawing up the bill. The New York Some says that Grant and his relations will cost the people of the United States, for useless expenditure incurred in the hope of keeping them in office, more in the single year 1872 than it will cost Great Britain to support the Queen and all her numerous princely rela-tions for five years to come.

Ox Monday a deputation of gentlemen interested in the Welland Canal had an interview with the Hon. Mr. Langevin, for the purpose of urging on the Government the adoption of the Waterous "lifters" to keep up the water supply from Eake Eric Their request, they were informed, is to be complied with, and the machinery will be erected immediately.

THE CINCINNATI CONVENTION. - The Republican Convention met on Wednesilay. The attendance of delegates from all parts of the Union was large. After olganizing the Convention adjourned till to-day .-The New York delegation resolved to east its vote in the convention as a unit for Horace Greeley, until such time as 20 delegates shall make a request to the chairman to with-draw.

Tue Northern Pacific Railway determined refusal of the Indians to allow the works to proceed. A council has been held at which representatives of the Railway and of the various Indian tribes were present, but the language used by the latter was insolent and defiant. Their opposition to the Railroad would be their ruin, the Indians admitted, but then they would be equally ruined if the works were carried on, as the buffalo would then be driven away. As they must be ruined either way, they would fight even though they knew they must be beaten. The Secretary of War has been telegraphed to send troops to protect the working parties. rious Indian tribes were present, but

### Harriston Correspondence.

The Fair on Friday last is easily disposed of. The weather, although still cold and unpropitions to growth, has, during the past week, been favourable for plenghing, and the farmers, instead of coming to the market as usual, generally stayed at home for the purpose of advancing their work, which is far behind. Soeding will now commence; but no grain has, in any heard of instance, been put into the ground. But about the Fair. Jacob Schnarr bought 3 head for \$140; N. Murphy, yoke of oxen, \$135; Thomas Conron, cow, \$35; James Ross sold a cow for \$29; and John Johnston, ster. \$20, and that is about the most that can be made of it.

ACCIDENTS.

George Leighton lost one of his fingers, or a big part of one, when working at his planing mill one day last week.

O. G. Hughes, Esq., who has been on visit here for a few days, was about to start vesterday to some part of the country with a horse and buggy, when the herse became frightened, ran off, became ammanageable and galloped wildly throseveral of the streets. The buggy got baldly smashed up, and Mr. Hughes sustained a pretty severe cut on the head and several other injuries, but fortunately none of a serious nature.

length of ivon bridge over the two branches of the river of 2,400 feet. The delay which has taken place, owing to the question of foundations, has necessitated an extension of time to the contractors. It will take the whole of the present and next year, to-complete the work on the bridge. The cost of an extra span of iron and increased abutment for piers will be shold \$45,000. No. 12 carries the line to Trure, where a junction is effected with the existing railroad from Picton to Halifax. Nearly 4,000 tons of rails required between Amherst and Trure, have been landed at \$1,3000. and Halifax, and the remainder required for that section are now on their way from England.
