

Health Built Up

"I had a very bad cold which settled on my lungs. I was under doctor's care and was not able to get out of the house for eight weeks. I did not gain strength very fast and other remedies failing to help me to improve my case, I was induced to try Hood's Sarsaparilla. I have taken several bottles and my health is improved very much. Since I have taken Hood's Sarsaparilla I feel very much stronger than for a long time past. I have recommended Hood's Sarsaparilla to others, for it truly has been of great benefit to me." THE TURF

HOW THE DERBY WAS WON.

London, May 29.—The horses got a good start, Laveno making the running and Chibiabos, Slow Step and Solario leading. Levar, Beckhampton, the Owl and the Brook. The Owl and Villier's Recontour and Kirkconnel being next, and Salvington far in the rear.

After running quarter of a mile Chibiabos had a slight lead, followed by Beckhampton, Solario and Laveno. Slow Step and the Brook. The Owl and Villier's Recontour and Kirkconnel being next, and Salvington far in the rear.

Descending the hill The Brook was slightly in the lead of Beckhampton, Chibiabos having dropped back, beaten.

When the horses straightened out in the line for home Curzon was ahead, leading Solario, Villier's Recontour and Kirkconnel, but Sir Visto, who had been gradually creeping up, now steadily overhauled and passed the crowd, winning in the last 60 yards amid deafening cheers.

Levar was sixth, Recontour seventeenth and Laveno eleventh.

Sir Visto finished three-quarters of a length ahead of Curzon, and there was half a length between the latter and Kirkconnel, Solario a good fourth. The time was 2:12 2-5.

The crowd was the greatest that has ever attended a Derby since 1889, when the race was won by the Duke of Portland's Donovan, ridden by Loates. The weather was perfect in respect of sunshine, and intensely warm.

The Sportsman says that the horse Worcester, 5 years old, which won the Epsom Plate yesterday, covered the seven furlongs in 1:12. This, the Sportsman says, cannot be beaten in America, where the record for seven furlongs is 1:12.

The Derby stakes are 6,000 sovereigns, by subscriptions of 50 sovereigns each, half forfeit for 3-year-olds, colts to carry nine stone and fillies eight stone nine pounds, the nominator of the winner to receive 500 sovereigns, the owner of the second horse 300 sovereigns.

An Example Of Merit

A man came in the other day, asked for a good five cent cigar. Same man came in again, asked for a quarter's worth (six cigars). That man always smokes the same brand, and that is **OLD LEAVES**. It's the best cigar that can be sold for five cents. Try it once and you will smoke no other.

TIPS.
Everything is in readiness for the opening day's races at the Jockey Club grounds in Hamilton.

GOLF.
A Scotch "golfer of twenty years' standing" writes piteously to the London papers to protest against the mispronunciation of his favorite game. He says it would be as correct to pronounce the "T" in "call" or "half" as in "golf."

THE GRAND TRUNK.

Preparations for the New President's Visit to Canada.

Sir Charles May Reside a Year in Montreal and Personally Superintend the Business and Commercial Relations at Montreal and Stratford.

Montreal, May 29.—Sir Charles Rivers-Wilson, the newly-elected president of the Grand Trunk Railway, is coming to Canada in the course of a few weeks for the purpose of reorganizing the system. It is said that the new president will take up his residence in this city for one year so as to become more conversant with the inner workings of the entire system.

The president will be accompanied on his tour of inspection by three or four members of the new board. Arrangements are now under way for the reception of the officials referred to.

Mr. Samuel Barker, Q.C., who made the audit and report on the state of affairs on the road previous to the last election will accompany the party from England to this city. His name has been mentioned in connection with the new appointments contemplated in Montreal and Toronto.

It is said that Sir Charles will personally conduct the business of the system during the year of his stay here. On his return to the old country a detailed report will be presented by him to the new board, and it will be upon this that the new appointments, if any, will be made.

In addition to the reduction in the staffs in the general offices, the working staffs at Point St. Charles and Stratford are also to be considerably reduced.

"WHAT'S IN A NAME?"
Ask Some of the Members of the Twenty-First Fusiliers.

The Detroit News' Windsor column contains the following:
"What's fun for you is death to us." That's what the frogs said to the stone-throwing boys "once upon a time," and that what the men of the Twenty-first fusiliers are saying in this fine de siècle days to a lot of English girls.

On his return to the old country a detailed report will be presented by him to the new board, and it will be upon this that the new appointments, if any, will be made.

In addition to the reduction in the staffs in the general offices, the working staffs at Point St. Charles and Stratford are also to be considerably reduced.

DIED IN THE HARNESS.

A Methodist Minister Expires Soon After Attending a Funeral.

Paisley, Ont., May 29.—Today Rev. Wm. Torrance, pastor of the Methodist Church here, conducted a funeral at from 2 to 4 o'clock, but he was not feeling very well, and then a second doctor was called in, but to no avail, and the reverend gentleman passed away about 7 o'clock.

The bursting of a blood vessel is supposed to be the cause of death.

The deceased was very popular here among all denominations. He was about 50 years of age, and leaves a widow and family.

THE LOST CHICORA.

Cleveland, Ohio, May 29.—A special to the Press from Elkhart, Ind., says: An official of the Big Four Railway has just reached here from Benton Harbor and states that the hull of the ill-fated steamer Chicora was found lying at the foot of Lake Michigan, about three miles from the pier at St. Joseph, this afternoon.

Salt in the Human Body.

Science tells us that the body of every human being weighing 150 pounds contains one pound of salt; also that every one of us needs in a year about 15 pounds of salt. If you want your 15 pounds pure, use Windsor Table Salt. It doesn't cake. Try it.

"Father," said the boy, "what is insolvent?" "Insolvent," was the reply, "is merely a long word to describe a short condition."

How to Cure All Skin Diseases
Simply apply "Swaine's Ointment." No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, etc., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for "Swaine's Ointment." Lyman, Sons & Co., Montreal, wholesale agents.

House and Lobby.

(Continued from Page 4.)

Donald, Abbott and Thompson, former Premiers, Dr. Montague ostentatiously abstained from saying one word of Sir Mackenzie Bowell, his present leader. Dr. Landerkin scored the Secretary of State for belittling England and England's commerce, and read figures showing England's supremacy in trade. Dr. Montague had named Bowmanville and Listowel as places containing industries established by the N. P., and Dr. Landerkin asked how it was that these promising Ontario towns had decreased in population under the N. P.? In 1881 the population of Bowmanville was 3,504, but in 1891 it was only 3,377. The population of Listowel, which was 2,588 in 1881, had been reduced under the N. P. to 2,387. These were not indications of success.

At 2 o'clock the three weeks' debate ended, and the bells rang for the first division of the session, which was on Sir Richard Cartwright's amendment condemning extravagant expenditure and declaring in favor of a tariff for revenue only.

Mr. Calvin (Con.) voted against the Government, and Col. O'Brien (Ind-Con.) voted with the amendment. Then McGreevy voted with the Government and was cheered by the Ministerialists.

The amendment was lost by 71 nays to 67 yeas. The main motion to go into supply was carried and the House adjourned.

IN THE SENATE.

In the Senate today the second reading of the Insolvency Bill was moved by Premier Bowell. Mr. McCallum moved the six months' hoist. Messrs. Scott and Power opposed the bill because there was no general demand for it. After other Senators had spoken in the same vein, Premier Bowell would not admit that they represented the mind of the country. The Government had brought down the measure because of a promise made last session. He argued in favor of the bill, and the passage of the bill Senator Clemon moved an adjournment of the debate, and this was carried. The bill will not likely be heard of again. Premier Bowell said that the Senate seemed opposed the bill.

NOTES.

Mr. McMullen will on Friday inquire of the Government when they expect to bring into operation the French treaty, and the cause of delay in bringing it into effect.

The committee on agriculture met this morning and heard Mr. Gilmer, manager of the poultry at the Experimental Farm, tell some interesting things about the raising of fowls.

GONE UP IN SMOKE.

Delhi, Ont., Has an \$18,000 Blaze—Fires Elsewhere.

Delhi, Ont., May 29.—The large store and storehouse of W. A. Charlton & Co., Lynedoch, with nearly all the stock and many valuable books and papers, were destroyed by fire last night; loss on stock and buildings about \$18,000; insurance, \$11,000.

St. Louis, Mo., May 29.—A special from Gallatin, Mo., says an extensive fire occurred at Pattonburg, Davies county, last night. Thirty-six business and dwelling houses were destroyed. Loss \$100,000; insurance \$30,000.

Fertilizers For Onions.

"Years of experience in raising onions and other crops either with stable manure or fertilizer have thoroughly convinced me that a liberal amount of plant food must be applied in order to obtain satisfactory results, half-dressed crops being unprofitable," writes W. Donaldson of Topsfield, Mass. He grew onions for eleven years successfully on one-quarter acre, using Scottbridge onion manure only, and raised at the rate of 650 to 1,013 bushels per acre, an average of 807 bushels per acre in the seven years. For the past three years this land has given heavy yields.

Mulching Currant Bushes.

After you have thoroughly worked about your currant bushes in your home garden this spring, give them the necessary pruning, next give them a heavy mulch of stable manure, thick enough to keep the ground about them always moist and to prevent the growth of weeds. You will see how well this trifling labor will pay when the fruit begins to ripen. Treat gooseberries in the same way.

Raising Head Lettuce.

If you have not heretofore grown the finer head varieties of lettuce in your kitchen garden, do so this season. Transplant in rows about eight or ten inches apart and if you wish the greatest perfection for your home table, water them well grown to tip the heads and blanch them until they are crisp, white, tender and delicious.

Prepare for Spraying.

Any farmer who has a dozen or more apple or pear trees should have a spraying apparatus and familiarize himself with the use of fungicides and insecticides. The difference in value between a good and a poor crop will more than pay for the outfit, and it often comes handy for spraying other crops, such as potatoes, tomatoes, etc.

The Sweet Strains of Music.

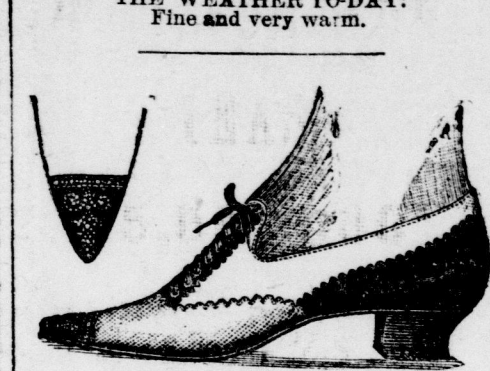

On Tuesday evening we had a visit from Sonas's Band and sweet strains of music were prevalent in our midst. What sweeter music can we have than the hum of contentment that floats around the house, where the women are satisfied that their labor is being crowned with success. Ladies, do not try the temper of yourselves nor your servants by using an inferior article. Dish Cloth Soap will give satisfaction every time. Makes white goods whiter, colored goods brighter and does not injure the finest fabric.

Nothing impure or injurious contaminates the popular antidote for throat and lung remedy and general corrector, Dr. Thomas' Electric Oil. It may be used without the slightest apprehension of any other than salutary consequences. Coughs, rheumatism, earache, bruises, cuts and sores succumb to its action.

They Never Fall.—Mr. S. M. Boughner, Langton, writes: "For about two years I was troubled with inward piles, and by using Parnee's Pills I was completely cured, and although four years have elapsed since then they have not returned." Parnee's Pills are anti-bilious, and a specific for the cure of Liver and Kidney Complaints, Dyspepsia, Constipation, Headache, Piles, etc., and will regulate the secretions and remove all bilious matter.

LOOK OUT FOR BLACK APES.

This is a good time of the year to visit with knife and saw and carefully inspect your plum and Morello cherry trees, to see if any black knot is to be found. If found, excise every limb below the knot growth and be sure to burn it. The spores will spread from the dead limb on the ground as well as from the ones on the tree.

The wild goose plum is not really a self-fertilizing sort and the few plums you get are probably the result of fertilization caused by bees. Plant another variety of plum, a Lombard, Green Gage or Pond's Seedling near it, and when the new tree begins blooming, you will find your crop of Wild Goose plums increasing.

We do not consider farming sufficiently in the light of a business, but rather as an occupation that one may follow without much capital or special knowledge.

In England, a man without experience, and without capital proportioned to the acres, would have difficulty in securing a farm, as owners will not rent or lease unless they know a man is competent to handle the land.
