AGAINST GOVERNMENT ELE-VATORS.

erful Western Grain Growers' Association for a great system of Governmentowned elevators through the prairie WITH FIRMNESS provinces, insurmountable obstacles liave been found. Saturday the three premiers of Manitoba, Saskatchewan, and Alberta made public this reply to the urgent demands in an identical note to the association. It contains 5,-000 words and carefully reviews the complaints of discrimination, and the crusade and agitation extending over two years. While admitting a desire to comply with what in many respects they concede to be reasonable de mands for a Government monopoly in the distribution of grain, the premiers assert that the provisions of the British North America act does not grant the

provinces sufficient authority. In conclusion, the reply declares that if the act is amended accordingly the premiers will be glad to again enter into negotiations with the association with a view of perfecting the system.

STEAMERS ARRIVED.
